

An Epidemic of Whooping Cough.
Last winter during an epidemic of whooping cough my children contracted the disease, having severe coughing spells. We had used Chamberlain's Cough Remedy successfully for cough and naturally turned to it at that time and found it relieved the cough and effected a complete cure.—John E. Clifford, proprietor Norwood house, Narwood, N. Y. This remedy is for sale by A. K. Wilson.

COUNTY COURT.
PROBATE.
Wells, J.
H. L. Fenton was made administrator of the U. S. Thompson estate and Earl McBoe, J. W. Robinson and J. M. Farley are to appraise the property.
The guardian of Van Dornise was charged with \$150.
J. M. Grant, R. E. Williams and T. A. Riggs appraised the property of the Sanford Williams minor heirs, and a petition to sell real property is to be heard July 3rd.

SALEM TRADE CENTERS.
Johnson & Co, the clothiers, are making a very liberal proposition to their patrons. As a means of advertising their business, they will on the 3rd of July distribute about twenty presents among those who deal with them, the gifts ranging in value from 25 cents to \$40. When in the city drop in and ask them to explain the plan of distribution. They have the nicest clothing for the money in the city.

Since the roads got good Henry Brown, the old postoffice liveryman, is sending out many teams in all directions. His patrons are always well pleased.

You never saw nicer pictures than they take at the Cronis studio.

Keeler's feedyard is daily full of Polk county horses and they are always well cared for. As a veterinary surgeon Dr. Keeler stands at the head of his profession.

So seldom do patrons complain of the work turned out by the steam laundry that it is almost unheard of thing. Good machinery and expert workmen account for it.

Go to the standard grade, low priced New York Racket store for crash traveling, lace curtains, summer corsets, pulley belt buckles and spiral belts, chain purses and all manner of furnishing goods.

Go to Hellenbrand's restaurant if you want a choice dinner.

Shafer, the harness maker, near the courthouse keeps only choice stock, does a little better work than any of his competitors and charges less for it. Are you hunting such a shop?

An immense stock of crockery glass and chinaware besides the freshest and best teas, coffees, spices and extracts may be found at the store of the Yokohama Tea company. Eggs taken in exchange.

All kinds of confections may be had either wholesale or retail, of Ellis & Zinn, near the courthouse. Their ice cream and iced drinks can be had and do well. Go and give yourself a treat.

Go to Savage & Reid, on Commercial street, for poultry or bee supplies. They keep flour and all kinds of feed. It is the most convenient place for all who have to cross the steel bridge. Tell them the ITKEMIZER sent you there.

Extra nice hats for extra low figures during the special sale now going on at the Nonpareil millinery store.

COUNCIL MEETING.
At their regular meeting last Monday evening all were present except Councilman Cosper.
An ordinance creating a standing committee on ordinances was passed.
M. D. Ellis was allowed 90 cents for stationery.

The new ordinance was passed, all but how voting for it. It will receive the signature of the mayor so as to take effect next Monday morning.

On motion of Fiske the petition of Walter Williams asking for a permit to ride a bicycle on the sidewalk while delivering the Oregonian during the noon hour was granted.

On motion of Fiske the matter of moving the fire bell and band stand was left to the judgment of the street committee with power to act, it being the sense of the council that the fire bell should be placed in the tower over the city hall.

On motion of Fiske the street commissioner was ordered to fix the mud hole at the intersection of Mill and Shelton streets and to trim up all trees where they overhang the sidewalk so as to interfere with umbrellas and parasols.

On motion of Hayter it was ordered that the auditor require a cash deposit of \$250 a day or \$5 a week from gatherings who use the city park, the same to be refunded if the park is left in a clean condition.

On motion of Hayter F. H. Muscott was appointed deputy marshal to serve when the regular marshal is out of town.

On motion of Fiske the street commissioner was ordered to clean out under the sidewalk at the intersection of Main and Mill street.

On motion of Hayter the marshal was ordered to notify the Woolen Mill company to remove all waste tags and filth from their premises forthwith, and the committee on health and police were ordered to investigate regarding the disposal of their waste water and report next meeting.

On motion of Fiske the council adjourned.

\$100 Reward \$100
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer \$100 for any case that it fails to cure. Send for list of testimonials.
Address: F. J. CHERRY & Co., Toledo, Ohio.
Sold by druggists, 75 cents. Hall's Family Pills are the best.

DALLAS DROPLETS.
Williams, the confectioner, is continually gaining new friends and selling lots of goods. Go there for the latest daily papers.

If you are very particular in the matter of footwear go to Gaynor's shoe and boot emporium where you can find a great variety from which to select.

There are several reasons why I buy to trade at Brown's store. By 15 or 20 years of experience they know exactly what the public want and keep stocked up accordingly. By both buying and selling for spot cash they can do so on a very small margin of profit.

A better blacksmith than I. V. Lynch is not to be found in this county.

Every horse and every vehicle in Morrison's barn is in almost constant use by those who have occasion to go to various parts of the county. He treats patrons right.

Wagonmaker Cobb has all that he can do every day in the week because he does such good work that his patrons never take their jobs elsewhere and are always well pleased.

Henry Nies, tinner at Faull's hardware store, has spent almost a lifetime at that business and can satisfy any want or desire in that line. That is the place to go for stove furniture or kitchen implements. If you need a wagon or a buggy, go and see what Mr. Faull offers in those lines. He keeps all kinds of hardware needed in building a house or anything else.

Fishermen can have all their wants supplied at Riser's gunstore. See his poles, reels, lines and hooks for enticing trout from the water. Small articles of all kinds repaired.

The cream of the wholesale houses may be found in Mrs. Shafer's millinery store. Almost daily receipts of new things wanted by her many customers. Prices moderate.

J. E. Smith can discount the best of them when it comes to making things of iron.

Ice is a luxury which many Dallas people are now enjoying, it being brought by the stage driver, packed in sawdust in sacks. 50 cents will buy a sack full.

\$5,000 School Bonds Voted.
The special school meeting called for last Monday afternoon to vote upon providing greater and better public school facilities for Dallas did not arouse as much interest as the two previous meetings for the same purpose. People seemed to have come to the conclusion that the bonds were sure to be voted and it was needless to make much effort for or against. Only 25 voters put in an appearance, and but three of them voted against bonding. The bonds will now be sold to the highest bidder and the directors will proceed to use the fund as may seem best for all concerned. They have no axes to grind, no friends to please or enemies to punish, but will simply consult the best interests of the school district.

SALT CREEK.
Mark and Robert Sears have sent east for a \$50 camera.

James Olmsted is sowing barley and oats. He has a nice new carriage.

The republican candidates had a blow out at Ballston Monday evening.

J. G. Sears and family have moved to the Wise & Keyt hop yard until fall.

LOCAL AND GENERAL.

WHAT WE HAVE LEARNED DURING THE WEEK FROM ALL AVAILABLE SOURCES DISHED UP FOR OUR NUMEROUS FAMILY OF READERS IN ABBREVIATED PARAGRAPHS.

Baled hay and mill feed at Osfield's. Andrew McDaniel is enroute to Cape Nome.

Wood—Will take wood in exchange for photographs. T. J. Cherrington, Dallas.

Dr. Lowe, the optician, who has been coming to Dallas since 1891, will be here again June 4th, 5th and 6th.

Judge Boise will begin his court June 5th, there being on his docket thirty one cases, five of them for divorce.

Everything in the line of harness making of the best leather and at lowest prices by G. W. Shriver at Perrydale. He is an old timer at the business.

For monuments, tombstones or any kind of cemetery work go to G. L. Hawkins, the Independence marble cutter. No outside dealer can give you better figures.

The ladies of Dallas and vicinity who have failed to visit the Brunk & Hallock millinery emporium in the Wilson block have missed seeing many elegant articles in that line.

The Racket store on Mill street is the place to get everything cheap. Nice lines of shoes of different grades and all sizes. Furnishing goods, notions, jewelry, paper and envelopes.

The Dallas public school teachers for the next year are to be W. I. Reynolds, H. D. McDonald, Mrs. W. A. Hamilton, Miss Lydia Campbell, Mrs. F. H. Morrison, Nellie Muscott and Mrs. G. W. Conkey.

The office of practicing attorney is now of but little less importance than that of circuit judge. Let the people carefully weigh the merits of the contesting candidates, regardless of politics, and then vote as their judgment dictates.

A good assessor must necessarily be a man of sound judgment and well acquainted with property values and with force enough of character to treat all exactly alike. Frank Myer possesses these requisites and would fill the office with honor to himself and the satisfaction of his constituents.

The foundation of the new college dormitory has been laid and work on the superstructure will begin next Monday. The aim is to have it completed by the first of September. The grounds being 104x177 feet in size and the main structure only 36x80, will leave ample room for the ell to be added at each end later on.

H. S. Butz has been enjoying a combination of the grippe and mumps.

John Fenninger, who formerly lived here and on Mill creek, died recently in Kansas.

Telling untruthful things about candidates always has an effect opposite to that intended. Some conscientious tricksters are engaged in that dirty work during the present campaign.

Last Saturday while at work in the timber near his home beyond Falls City George Jarvis was killed by a falling tree, the body not being found until next day. Coroner Woods went to the place and called a jury, who returned a verdict as above.

As the days go by Dr. Daly, union candidate for congress, grows stronger and better in the eyes of the people. The opinion that he is in every sense a more worthy man for the place than Mr. Tongue is fast being formed in quarters where Tongue was supposed to be very popular.

Last Saturday while fishing near Sam's cabin three miles above Falls City Adlai Williams saw an almost nude man with long hair and beard and wild as a deer. The next day and the day after he was seen by others. On Tuesday last over fifty men from different parts of the county assembled there to hunt for him, but could not get a sight of the wild man. That region is still in a state of excitement over the matter.

J. W. McDowell, union candidate for county commissioner, thinks the floating debt of this county could be funded at 4 per cent, as Salem did her indebtedness. If elected he would strongly advocate that course and believes our people would snatch up the bonds as was done by the Salem people. He may be the means of saving this county thousands of dollars of interest. Some economical, shrewd republicans will be apt to slip in a vote for such a man.

Mrs. Vencie, Mrs. Robert Howe and others have raised means and labor sufficient to greatly improve the old cemetery. Most of the young timber has been grubbed out as well as the Scotch broom grass that was growing over so many of the graves. There is still more work needed and all interested who have not yet contributed are invited to meet there next Monday with grubbing hoe, brush scythes and axes to finish the work in nice shape. It should by all means be done before decoration day.

Some of our republican friends are shocked at the impudence of the demagogue nominating a man born in Ireland for congress. Well, as his opponent was born in England, they both came to us from under the same crown. There is this difference between them: Mr. Daly has the liberty loving spirit of a Patrick Henry and Mr. Tongue the subservience of a subject of King George. The former stands for liberty of all down-trodden people, even the Bore; the latter is hand and glove with the aristocracy of both continents.

ROYAL BAKING POWDER
Absolutely Pure.

Its use is economical and assures the most healthful and appetizing food.
Royal Baking Powder imparts that peculiar sweetness, flavor and delicacy noticed in the finest cake, biscuit, rolls, etc., which expert pastry cooks declare is unobtainable by the use of any other leavening agent.

Alum is used in making cheap baking powders. If you want to know the effect of alum upon the tender linings of the stomach, touch a piece to your tongue. You can raise biscuit with alum baking powder, but at what a cost to health!

ROYAL BAKING POWDER CO., 100 WILLIAM ST., NEW YORK.

Mill feed at Riggs' grocery store. Spectacles and glasses at Pfennig's. The stage will take you from Dallas to Salem and back for \$1.50.

H. L. Fenton has bought of O'Brien Bros. 800 pounds of wool at 16 cents.

The flouring mill has been repaired, and the foundry and planing mill have all the work they can do.

Telt Burnett, who was raised in this county, is the democratic candidate for sheriff of Benton county.

Miss Lella Parrish, of Monmouth, and Miss Agnes Shepard, of Zena, have been employed to teach in the Salem public school.

The jurors at the coroner's inquest over the body of G. W. Jarvis were: F. C. Raymond, W. J. Southwell, J. C. Frink, J. C. Talbot, Jas. Hayes and Zim Hinshaw.

Hon. M. W. Howard, of Alabama, will speak at the city hall at 7:30 next Monday in the interests of the middle-of-the-road-populists. He will aim to show why that party deserves popular support.

Harry Butz will erect a fruit dryer and warehouse where the hophouse of H. B. Plummer was burned, near the flouring mill, and Abel Uglov is building a hophouse and warehouse in the same vicinity.

The courthouse furniture has arrived and is being unpacked and placed in position. It is all neat in appearance and of substantial quality. The tiling in the hallways is quite attractive. The electric lights, over 100 of them, are in working order and give the interior of the building a brilliant light after night. After a few more finishing touches, here and there, the Messers, Erb & VanPatton will have finished their contract.

Unreliable politicians will hope to see elected men of their own stripe who can when expedient be persuaded to swerve from the straight path to serve selfish interests, but the people at large want none but men who can always be depended on to do exactly the right thing, regardless of interests that may be brought to bear. On the union ticket are the names of men who in the past have always done what was fair, square and manly which is a reasonable guarantee that they would be good and faithful public servants.

I consider it not only a pleasure but a duty I owe to my neighbors to tell about the wonderful cure effected in my case by the timely use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. I was taken very badly with flux and procured a bottle of this remedy. A few doses of it effected a permanent cure. I take pleasure in recommending it to others suffering from that dreadful disease.—J. W. Lynch, Dorr, W. Va. This remedy is sold by A. K. Wilson.

A more faithful, diligent and trustworthy sheriff than J. G. VanOrsdel has proved himself to be this county never had. An examination will show the records of his office to be in excellent shape and that he has promptly accounted for every dollar of public money that came into his hands. He has kindly but persistently insisted upon the payment of taxes until the delinquency has been greatly whittled down and before the close of another term would be made to almost entirely disappear. There is no tinge of negligence or wrong doing in his official career. Such a man is worth his weight in gold as sheriff of a county. But not all the credit is due to him alone for his deputy, J. F. Ford, has been constantly at his post of duty and has kept the office work in ship shape. He is thoroughly posted and no successor could fill the position so well during the next next two years. By all means the present sheriff and his deputy should be retained for another term.

See elsewhere prohibition ticket. Miss Maud Gilson, living on the Guthrie place, has become the bride of J. D. Cameron.

Many republicans in different parts of the county have good and sufficient reasons for supporting part of the union ticket.

Mrs. Brunk and Miss Hallock have a few of their fine line of pattern hats left which they will sell at reduced rates. The sale will begin Friday of this week and continue until the first of June.

The Dallas City bank has been nicely repaired, both inside and out, and line concrete sidewalks are being laid in front of Faull's hardware store and Riggs' grocery store adjoining it. The spirit of improvement is in the air and others will catch it.

The excursion to The Dallas Sunday will be the biggest thing of the season. Enough tickets have been sold to fill forty-eight coaches and no more can be had. A train of five cars will leave here at 5:10 Sunday morning with 203 passengers, the motor coming from Independence to connect with it.

The republican candidates will speak as follows: May 21st, Douglas and Jackson precincts; 22nd, Salt Lake and McCoy; 23rd, Spring Valley; 24th, Eola; 25th, Monmouth; 26th, Independence; 28th, Falls City and Bridgeport; 29th, Luckiamute; 31st, Buena Vista and Sver; June 1st, Dallas, and June 2nd, Rickreall.

Nothing in the republican state platform is more important than one plank that is not there. This is the demand for justice for Puerto Rico, and free trade with the Philippines. The omission is not only refusal to endorse the brave stand made by Senator Simon in congress, but is a misrepresentation of the almost unanimous conviction of the republicans in Oregon. Tongue voted for the infamous Portorican tariff bill.

Goodfriend will preach a memorial sermon in honor of the veterans and his evening theme will be, How the Lost Word was Found. Sabbath school at 10, Christian Endeavor at 7, and meeting for Bible study every Thursday evening.

Two among the best temperance talks ever heard in this town were Saturday evening at the city hall and Sunday evening at the Methodist church by Mr. Woolley, a distinguished eastern temperance worker. While all he said was unmistakably plain and pointed, he used such language as to offend no one. It is a pity that so many public speakers think they must use vinegar and gall in condemning evil things.
