Summer Resorts.

To the mountains our people in increasing numbers yearly look for those days of relaxation and recreation necessary to maintain the human machine in fair working condition. The languorous sloth of the seashore proves very seductive while it lasts, but many have decided that the annual outing should provide not only radical change of air and surroundings, but also such stimulation of the energies as will provide brain and vigor for the return to labor. For all this urge the mountain climb and ramble, the balsam of the mountain pines and the clear unadulterated mountain air. In this direction the Shasta route now affords a wealth of attractions. The entire line of road from Ashland to Redding is studded with charming and accessible hotels and camps, where are cheer and comfort and healing at reasonable cost, where you can hunt, fish, ride, loaf, or play with equal facility. Or if you look for healing waters, none better can be found, hot or cold, than the springs at Ashland, Celestin, Anderson, Bartlett, Byron and Paso Bolles. Before visiting Europe, the people of the northwest should see the glories of Yosemite valley, and the wondrous groves of Mariposa and Calaveras; the Parisians are likely to make inquiries concerning these attractive resorts. Send to C. H. Markham, general passenger agent, Portland, for new booklets on Castle Crags, Shasta springs, McCloud river, Yosemite and excursion rates thereto.

Mr. Wu, the Chinese minister at Washington, has purchased an automobile, which he uses for official and social visits and for pleasure riding about the city.
L. H. Severance, the Standard Oil man of Cleveland, has given \$50,000 to Oberlin college, to be used for the erection of a new industrial laboratory.

Walther Hansen, the new president of Switzerland, is one of the best classical scholars in his country and has written a learned commentary on the "Ethics" of Aristotle.

John W. Foster, the well known diplomatist, has accepted an invitation to deliver a course of three lectures at the University of Illinois on the early diplomatic history of the United States. The lectures will probably be given in April.

Speaker Henderson made an apt reply to a remark that the speaker's duties were already shockingly agitating him. "Well," replied Mr. Henderson, "I am not as young as I was, but I am not by 20 years so old as I hope to be at the proper time."

Ephraim Lattin, the inventor, is the latest one to claim that he has rediscovered the lost art of hardening copper. He says he can make it as tough as steel, so that it will hold and carry an edge as keen as a razor. His brother is the man who made a cannon of rhinoceros.

Senator Bates still lives a cane in walking, necessitated by the effects of three wounds received by him during the civil war. He was successively captain, colonel, brigadier general and major general in the Confederate army and surrendered with the Army of the Tennessee in 1865.

Ex-President Harrison's maiden speech in the senate was a eulogy like that of Senator Depew's. The subject was General A. E. Burnside, then recently deceased. Mr. Harrison submitted the manuscript to Senator Sherman.

GRAY

Why let all your neighbors and friends think you must be older than you are? Yet it's impossible to look young with the color of 70 years in the hair. It's sad to see young persons look prematurely old in this way. Sad because it's all unnecessary; for gray hair may always be restored to its natural color by using

AYER'S Hair Vigor
For over half a century this has been the standard hair preparation. It is an elegant dressing; stops falling of the hair; makes the hair grow; and cleanses the scalp from dandruff.
\$1.00 a bottle. All druggists.
"I have been using Ayer's Hair Vigor for over 20 years and I can heartily recommend it to the public as the best hair tonic in existence."
Mrs. G. L. ALDERMAN, April 24, 1899. Editor, Tex.
If you do not obtain all the benefits you expect from the Vigor, write the Doctor about it. Address, Dr. J. C. AYER, Lowell, Mass.

For over half a century this has been the standard hair preparation. It is an elegant dressing; stops falling of the hair; makes the hair grow; and cleanses the scalp from dandruff.

The new emperor of China has a great advantage inasmuch as his youth will enable the empress dowager to merely spank him instead of having him beheaded.—Washington Star.

There are predictions that the last flip of the cards made by that charming empress dowager of China will either take all the robes of state off the back of Li Hung Chang or else promote him to additional power, but the predictors are not quite certain which it will be.—Pittsburg Dispatch.

The collars to many of the handsome cloaks that are now worn to the theaters are some cause of anxiety to their wearers. They are stiffened to give the proper effect, and being high they have to be adjusted carefully when the wearer slips the cloak down from her shoulders as she takes her seat. A crushed collar is ruined.

Fortune does not change men; it only unmasks them.—Riccoboni.

There cannot be a surer proof of low origin or of an innate meanness of disposition than to be always talking and thinking about being content.—Hazlitt.

THE DRESSY WOMAN.
The fish, with its long scarf ends, will be a graceful feature of coming styles. A new design in gown de Tours has a rich black ground quaintly brocaded in white and striped with satin. For the spring cloth bluffs fair to rival the fancy worn tweeds, chevrons and soft rough came's hair fabrics. The utilization of the short jacket and pointed girdle is admirable in freshening the fronts of a slightly worn bodice.

According to the latest style in mourning attire, a contrast is offered to its crinkly surface of ruche by the addition of fine dull cloths—velles, cashmeres and soft, lusterless reps.

Black and white combinations are evidently a feature of dress not to be overlooked next season, as something in these effects is brought out on nearly every model thus far shown.

Some of the new cloth bolero jackets en route with handsome spring costumes are so covered with guipure lace, appliques, bands, revers, facings, etc., that they can quite as well be called boleros.

The coats and jackets of the spring season of 1900 are as satisfactory in shape, outline, adjustment, fabric, finish and appropriate decoration as any models devised since the day of wraps began.

With many of the handsome evening dresses sent home this season are gimpes made of various rich or delicate materials. These are designed to transform the decollete waists of the dresses into gowns appropriate for afternoon receptions and early dinners.

HEADACHE
Headache may be called a woman's ailment. Some men suffer from it. But almost all women have to endure its pain with each recurring month. This fact points at once to the intimate relation between the health of the delicate womanly organs, and the general health of the whole body. Dr. Pierce's Favorite Prescription banishes headache by banishing its cause. It cures the diseases which irritate the delicate womanly organs, fret the nerves and waste the strength. It increases the vitality and builds up the nervous system. "Favorite Prescription" contains no opium, cocaine or other narcotic.

My throat is well and cough gone, and all my old troubles are better. I tried many other kinds of medicine and four doctors."
