

**IS IT RIGHT**  
**For An Editor To Recommend Patent Medicines?**

From Sylvan Valley News, Brewood, N. C.: It may be a question whether the editor of a newspaper has the right to publicly recommend any of the various proprietary medicines which flood the market, yet as a preventive of suffering we feel it a duty to say a good word for Chamberlain's Colic, Cholera and Diarrhoea Remedy. We have known and used this medicine in our family for twenty years and always found it reliable. In many cases a dose of this remedy would save hours of suffering while a physician is awaited. We do not believe in depending implicitly on any medicine for a cure, but we do believe that if a bottle of Chamberlain's Diarrhoea Remedy were kept on hand and administered at the inception of an attack much suffering might be avoided and in very many cases the presence of a physician would not be required. At least this has been our experience during the past twenty years. For sale by A. K. Wilson.

**Deafness Cannot Be Cured.**

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We offer \$100 for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & Co., Toledo, O. Sold by druggists, 75 cents. **THE CELEBRATION.**

Never before had so many people made up their minds to spend the Fourth of July in Dallas. Everything was favorable up to the previous evening, but Wednesday morning it was raining with no indications of a let-up. The people of Dallas felt blue over the prospect that all their preparations to pleasantly entertain the expected multitude would come to naught, but by 8 o'clock in spite of rain and threatening clouds the people began to pour in from all directions. They came in buggies, carriages, hack wagons, on horses and afoot. By 10 o'clock the streets were alive with outsiders. It would clear up for a time and then shower again. Chief Marshal Greves and his assistants, J. W. Lewis and I. F. Yoakum, and the managers of the affair were busy as bees getting the procession in marching shape. As one attractive feature after another appeared exclamations of surprise and applause could be heard on every hand. Notwithstanding the gloomy weather the expectations of the multitude were fully met and the occasion was greatly enjoyed. Nearly all business houses and many residences were nicely decorated and great flags proudly floated above the courthouses and public school. After some unavoidable delays the procession was ready to start and passed through several streets before proceeding to the city park. First came the prettily decorated Liberty car drawn by four white horses with Miss Nannie Starr as Goddess, surrounded by sweet girls representing all the states. A handsomely fixed up carriage followed, containing the president of the day, chaplain, reader and orator. The Dallas band in their attractive Zouave uniforms drew forth expressions of admiration from hundreds of spectators and their mascot, Billy McAdams, was like a clown in a circus. The Salem militia under command of Capt. Lyons marched like veterans and evidently contained good fighting qualities. Then followed ladies and gentlemen, boys and girls on bicycles arranged in many a fantastic shape and the merry go-round followed on. The next feature was considered by many as the richest of the whole occasion. A mule team drew a wagon draped with patriotic colors. On either side was Dallas postoffice \$400, that being the annual salary. Ralph Williams dressed up as Uncle Sam was driver and Joe Hirschberg sat in front representing the postmaster general. A dozen boys with placards on their backs, showing what applicants they represented, trotted along each side noisily trying to call the attention of Uncle Sam to their numerous signed petitions. The float containing attractive productions of the Dallas foundry and the Dallas plating mill created a good impression on beholders and so did that containing the wagon and carriage making products of Cobb & Son and the carriage trimming and painting business of Hanson & Son. The float belonging to the Woodmen of the World had an attractive cabin and other features emblematic of the order. Four white horses pulled the circular float, which was a thing of beauty and contained six ladies so garbed as to call close attention in terms of surprised admiration. Two pair of sick black steeds were attached to the gaily decorated wagon of J. P. Caldwell, dealer in vehicles and implements. Some folks thought the Rebekahs had the prettiest float in the parade and it was indeed beautiful. Four stylish gray horses drew it, driven by Mrs. C. F. Belt and Mrs. Judge Sibley represented Rebekah at the wheel. The work on the float of the Bee Hive store was attractive and the immense gold and bronze imitation of a bee hive drew close attention. The hardware, paint and oil business of J. J. Wiseman and the tinning business of A. L. Frazier were well represented in the next float. And now came a chariot that pleased everybody. The Ladies of the Macabees had contrived something unique and had four spanking good horses hitched to it. Little Barbara Steiner sat on a throne and with ribbons was driving a stork in a beat. The truck of Bryan & Son indicated commercial prosperity, being piled high with dry goods boxes. Four great strong horses attached to a big logging truck hauled a huge saw log to represent the milling business of the Thurston Lumbering company. Through a drizzling rain the march was made to the city park where the morning exercises at once began. After music there was an invocation by Rev. C. C. Poling and Mrs. Walker sang, The Flag that has Never Known Defeat. In a clear and distinct voice Prof. Reynolds read the Declaration of Independence and Dr. Steiner sang The Blue and the Gray, after which came the chorus Peerless Oregon written by Prof. Kantner, of Dallas college. The oration of Hon. N. L. Butler so continued the large audience that sat or stood around under umbrellas that nearly the whole of them, women and all, would have then and there volunteered to go and fight any enemy of proud America. A hard rain soon after its close made it appear that there would be no afternoon exercises, but by 2 o'clock the sun came out and the afternoon was delightful.

**Montgomery Convention.**

The good people all around Montgomery school house and from adjoining district met there last Sunday to hold a Sunday school convention. The day being pleasant they assembled in the adjacent grove. Regular Sunday school exercises, accompanied by additional singing and recitations occupied the forenoon. M. M. Jones presided, Wm. Robertson led the singing and Nellie Phillips presided at the organ while Hanford Fowle drew sweet strains from his violin. At noon it was announced that all the baskets, boxes and things would be turned over to a committee of ladies to spread their contents for a feast. Mrs. Itemizer and her better half were there and can testify that the things were indeed good. All hands were well dressed, the younger generation in up to date styles and the older ones to suit themselves. The attendance was large and everybody seemed perfectly at home, calling each other John, Reuben, Sally, Betsy and H-zekiah. The afternoon was taken up with convention work along half a dozen different lines. Some thoughts were brought out and pressed home that will do the people good.
