

A Mother Tells How She Saved Her Little Daughter's Life.

I am the mother of eight children and have had a great deal of experience with medicines. Last summer my little daughter had the dysentery in its worst form. We thought she would die. I tried everything I could think of, but nothing seemed to do her any good. I saw by an advertisement in our paper that Chamberlain's Colic, Cholera and Diarrhoea Remedy was highly recommended and sent and got a bottle at once. It proved to be one of the very best medicines we ever had in the house. It saved my little daughter's life. I am anxious for every mother to know what an excellent medicine it is. Had I known it at first it would have saved me a great deal of anxiety and my little daughter much suffering.—Yours truly, Mrs. Geo. F. BURDICK, Liberty, R. I. For sale by A. K. Wilson.

Old Time Store Bill.

W. C. Brown began merchandising at Dallas in 1853 and four years later was in partnership with Lucien Heath who was afterward secretary of state. In 1857 their store was on the east side of Main street, south of the Jas. Howe property. We have before us two store bills, one of them showing the sale to Samuel E. May of some lawn at 40 cents, the present price being about 6 cents, and for \$3 a table spread that could now be bought for \$1. At that time, 1857, Thos. J. Love lady kept hotel where Wilson's drug store now stands. They sold him a bill of tableware, some of the items being three pair of brass candlesticks at 9 shillings, four sets of knives and forks \$8, pitcher \$1.50, four sets of plates \$4.50, washpan 45 cents, two dozen tumblers \$4, and three bottles of mustard \$4 cents. Everything then came from Portland by ox team.

SCHOOL BONDS VOTED.

When the matter of additional public school facilities for Dallas became a necessity there were various opinions as to what had best be done. Some were in favor of doing things on a cheap plan, but the majority wanted something better. It was evident to those most familiar with such things that the right kind of improvements would cost from \$6,000 to \$9,000. But at a citizens meeting the preponderance of sentiment was for \$5,000, for school purposes and that amount of bonds were voted and sold. The bonds were sold at a premium of \$205 for them. Desired plans were drawn and bids submitted, none of them coming within the amount voted. The directors finding that it would require \$2,500 more to properly construct and equip a good school house of sufficient size, had a special election last Monday and the amount asked for was voted. There were cast 64 votes, 39 of them being for and 25 against the bonds. The judges of the election were J. C. Adams, J. M. Campbell and John Ellis, with Henry Campbell and Robert Gaylor as clerks. And now we will have a public school building of which nobody need be ashamed.

At a hop growers picnic last Saturday in Butteville it was decided to pay 35 cents a box for picking.

If there be any other town in Oregon that has this summer made great advancement in school facilities we know it not. The finishing touches are being put on our new college and the new public school structure is well under way. Some who voted against the \$2,500 bonds, after seeing what is now being done, are glad the bonds carried.
