

A Mother Tells How She Saved Her Little Daughter's Life.

I am the mother of eight children and have had a great deal of experience with medicines. Last summer my little daughter had the dysentery in its worst form. We thought she would die. I tried everything I could think of, but nothing seemed to do her any good. I saw by an advertisement in our paper that Chamberlain's Colic, Cholera and Diarrhoea Remedy was highly recommended and sent and got a bottle at once. It proved to be one of the very best medicines we ever had in the house. It saved my little daughter's life. I am anxious for every mother to know what an excellent medicine it is. Had I known it at first it would have saved me a great deal of anxiety and my little daughter much suffering.—Yours truly, Mrs. Geo. F. BURDICK, Liberty, R. I. For sale by A. K. Wilson.

Oregon Crops.

The harvesting of fall wheat is nearly completed, and the cutting of spring grain is well advanced. The following thrashing yields were reported during the week: Clackamas county, wheat, 3 to 15 bushels; oats, 6 to 27. Marion, wheat very uneven and ranges between 5 and 19 bushels, average about 10; oats from 10 to 35, average about 18. Benton, wheat 6 to 10, Washington, wheat, 7 to 15; oats 22 to 37. Linn, wheat, 3 to 12; oats, 8 to 15. Jackson, wheat very uneven and ranges between 10 to 30 bushels. Curry, wheat, 3 to 9. Umatilla, wheat 20 to 35; barley, 30 to 60. Wasco, wheat, 25 to 30. Not only are the yields very light in the Willamette valley, but the quality is poor and a great deal of spring grain has been either plowed up or cut for feed. In the Columbia river valley the yields are not up to expectations, but as a rule, the quality is extra good and the ranchers are all hard at work taking advantage of the present good weather to get their crops well stored before the fall rains set in. Hops are doing nicely, and the yards continue unusually free from lice. Picking will be general in about two weeks. Corn is promising, but gardens, potatoes and pastures need rain. Melons of all kinds plentiful, and tree fruit is ripening satisfactorily. Apples are everywhere reported unusually free from worms, and the yield is above the average.

The happy couple starts out under very favorable circumstances and the best wishes of a host of admiring friends. A sumptuous repast was served to which all did ample justice. A number of valuable and useful presents were received by the young couple, who left shortly after dinner for Dallas, where they will sojourn for a short time with relatives. Mr. and Mrs. H. C. Dimick, of Dallas were among the guests.

Tell your neighbors to go to Johnson's for nice clothing.

Prevented A Tragedy.

Such cures are positive proof of its power to cure all throat, chest and lung troubles. Only 50 cents and \$1. Guaranteed. Trial bottle free at M. D. Ellis' drug store.

Death Of L. B. Frazer.

He came from Kentucky in 1853 and settled on the Willamina where he lived for several years and while residing there over forty years ago, married Miss Amanda Campbell, of Salt Creek. Years ago he bought and moved to a farm adjoining that of C. B. Graves at Bethel. Afterward he built a home in the foothills, just east of there, which was his abiding place until he died, August 18th, aged 66 years. He was buried next day in the Bethel cemetery, his funeral being preached by Rev. A. Kane. A good man in all the relations of life has gone from among us.
