Still More Counterfeiting.

The Secret Service has unearthed another band of counterfeiters and secured a large quantity of bogus bills which are so cleverly executed that the average person would never suspect them of being spurious. Things of great value are always selected by counterfeiters for imitation, notably the celebrated Hostetter's Stomach Bitters which has many imitators but no equals for indigestion, dyspepsia, constipation, nervousness and general debility. The Bitters sets things right in the stomach, and when the stomach is in good order it makes good blood and plenty of it. In this manner the Bitters gets at the seat of strength and vitality, and restore vigor to the weak and debilitated. Beware of counterfeiters when buying.

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is fast becoming a curse for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and immediate effect of Swamp-Root is soon realized. He Saved the Bridge.

"At Harpers Ferry on one occasion the flood in the Potomac was so great that it threatened the destruction of the costly railroad bridge, which was seen to shake in its unsteadiness," said former Governor Thomas G. Jones. "When everybody present was looking each moment to see the bridge go down, President John W. Garrett of the Baltimore and Ohio railroad arrived upon the scene. Appreciating the necessity of instant action, he gave an abrupt order for a loaded train of freight cars standing on a side track to be run with the locomotive on to the bridge and kept there."

"But Mr. Garrett, that is a trainload of silk," said the local superintendent.

"I don't care; run out the cars!" commanded the great master of railroads. "It would be easier to pay for the silk than to build a new bridge."

The silk train was run on to the bridge, and the structure was saved. The silk was being sent by rail across the continent from San Francisco, at which port it had been received from China and Japan. Garrett was a great man, one of the greatest of those who have aided in the material development of America. In emergencies he was very resourceful, as was demonstrated in perhaps a small way by the Harpers Ferry incident."—Birmingham Age-Herald.

Cards on the Cars.
"Cards are not played as much on the cars as they used to be," said the commercial traveler. "A few years ago it was a common sight to see three or four games, whist, euchre, poker or seven up, going on in a car, and wherever four or five drummers were gathered together there was sure to be a lively game of draw in progress. Suburban trains were turned into gaming clubs, and morning and night the commuters were engaged in a rubber."

"But all this has been changed. Nowadays it is the hardest thing in the world to get up a game of any kind in a train. Ask a stranger if he would like to take a hand at whist or euchre, and he will freeze you with a suspicious look. And what is worse, he is entirely justified in his suspicions."

"In the last ten years the railroads of this country have been the harvest for gamblers, hunko men and short card experts. They have worked the field to the limit, from New York to California and from Vermont to Florida. They have worked all kinds of stiffam games, until now it is almost impossible for a man to flash a deck of cards in the smoking compartment of a Pullman without the atmosphere growing a dozen degrees colder. A man who has been bitten once doesn't care to have the experience repeated."—Rochester Post-Express.

Why So Many Young Men Fail.
"One trouble with many young men who start out in business is they try to do too many things at once," says Herty Green. "The result is that they don't know as much as they ought to about any one thing, and they naturally fail. The trouble with young men who work on salaries is that they're always afraid of doing more than they're paid for. They don't enter into their work with the right spirit. To get on and be appreciated a young man must do more than he's paid to do. When he does something that his employer has not thought of, he shows that he is valuable. Men are always willing to pay good salaries to people who will think of things for them. The man who only carries out the thoughts and ideas of another is nothing more than a mere tool. Men who can be relied upon are always in demand. The scarcest thing in the world today is a thoroughly reliable man."

Changed by Circumstances.
"Where's your watch?" asked the observant man.
"Why, here it is," replied the man whose prosperity had slipped a cog or two recently.
"But that's a silver one. The one you used to carry had a handsome gold case."

"Well—circumstances alter cases, you know,"—Philadelphia Press.

Slow Work.
"Maria, you let that young Bobster stay last night until 1 o'clock."
"But, mamma, you told me I must give him time to propose."
"But five hours!"

"Why, mamma, you know he stutters."—Cleveland Plain Dealer.

From the Times, Hillsdale, Va.
I suffered with diarrhoea for a long time and thought I was past being cured. I had spent much time and money and suffered so much misery that I had almost decided to give up all hopes of recovery and await the result, but noticing the advertisement of Chamberlain's Colic, Cholera, and Diarrhoea Remedy and also some testimonials stating how some wonderful cures had been wrought by this remedy, I decided to try it. After taking a few doses I was entirely well of that trouble, and I wish to say further to my readers and fellow sufferers that I am a hale and hearty man to-day and feel as well as I ever did in my life.—O.
