

A WONDERFUL CURE OF DIARRHOEA.

A Prominent Virginian Editor Had Almost Given up, but Was Brought Back to Perfect Health by Chamberlain's Colic, Cholera and Diarrhoea Remedy. Read His Editorial.

From the Times, Hillsville, Va. I suffered with diarrhoea for a long time and thought I was past being cured. I had spent much time and money and suffered so much misery that I had almost decided to give up all hopes of recovery and await the result, but noticing the advertisement of Chamberlain's Colic, Cholera, and Diarrhoea Remedy and also some testimonials stating how some wonderful cures had been wrought by this remedy, I decided to try it. After taking a few doses I was entirely well of that trouble, and I wish to say further to my readers and fellow sufferers that I am a hale and hearty man to-day and feel as well as I ever did in my life.—O. R. MOORE. Sold by A. K. Wilson.

Mrs. W. S. Elkins Dead. She was the daughter of David and America Grant, who were among the earliest settlers in this vicinity. Mrs. Grant was a daughter of General Cornelius Gilliam, her sisters, Mrs. Lizzie Collins, lives here and Mrs. Sarah Nichols at Kalama and their brother, Smith Gilliam, at Walla Walla. Some thirty years ago Maggie Grant married Mr. Elkins and for ten years lived at Lebanon, most of the balance of her life having been spent in Dallas. About a year ago the family moved to Southern California for her health. The benefit was only temporary, the ravages of consumption having gone too far. She died at Long Beach on the sea shore and was taken to her home at Redlands for burial. Her husband and three children, Attie, Arthur and Ross, survive her, and an only brother, Wm. Grant, lives in Dallas. Wherever there was sickness or distress around her she could always be found. Not one in Dallas has a nobler record in that regard.

Endured Death's Agonies. Only a roaring fire enabled J. M. Garretson, of San Antonio, Texas, to lie down when attacked by asthma, from which he suffered for years. He writes his misery was often so great that it seemed he endured the agonies of death, but Dr. King's New Discovery for consumption wholly cured him. This marvelous medicine is the only known cure for asthma as well as consumption, coughs and colds and all throat, chest and lung troubles. Price 50 cents, and \$1.00 guaranteed. Trial bottles free at M. D. Ellis' drug store.

The State Fair. The present state fair at Salem is said to be the biggest and best ever held there. For the first time in many years it is a real farmers fair, the horses, trotting occupying a secondary place. There are numerous exhibits of stock of all kinds, all of it of high quality. Washington, Nevada and California animals of different sorts come in for a good share of attention, being fine as silk. Knowing ones say that the California state fair never had so large or so valuable an exhibit of live stock. The different breeds of dairy cattle are represented by superb animals and men of experience are there to explain their merits. Two creameries are in practical operation, showing everything that one might want to know concerning milk, butter and cheese. John Stimp, of Monmouth, shows 16 choice Angora goats and 32 Cotswold sheep hard to beat. The different breeds of swine are largely represented by thoroughbreds. In one building are about 800 specimens of the best poultry in the state and about half as many pedigreed Belgian hares. The pavilion too is more attractive than ever before, the exhibits being very different from what has so often been seen there. The display of vegetables is remarkably fine.

Monday's rains on top of what had before fallen caused many pickers to desert the Independence hop yards, but the pickers around Dallas seemed to be of better staying quality for most of them worked right along.

Published Tax Sale. Last January Sheriff Van Orsdell published a delinquent tax sale in the Independence Enterprise. That paper not having enough extra material to set it up had it done on a linotype machine at the Salem Statesman office, brevity type being used and the agreed price 20 cents a line. Neither printers nor anybody else objected to it as unreasonable. Some weeks ago the sheriff made an agreement with us to publish the 1895 delinquent tax in the same manner and at the same price. We set the work to the Statesman office for the same reason, the instructions being precisely as in the case of the Enterprise. A glance at the list in this paper will show that abbreviations were used wherever possible. The usual rates in non-patent type vary from \$2 to \$2.50 an inch. This being in brevier, a larger type, the price was reduced to \$1.50 an inch of nine lines. An effort has been made to furnish our business reputation in connection therewith, for whose reasons the public must judge. We are willing to be judged in this matter by the reputation acquired during twelve years intimate and extensive dealing with the people of Polk county. Concerning the matter, Robt. J. Hendricks, manager of the Statesman, wrote to us as follows: "My attention has been called to an article in the Enterprise concerning the typographical advertisement of Polk county delinquent tax list. The type used is brevier, the kind usually employed in such work of this kind. We have set such advertisements for the newspapers of several Willamette Valley counties and have never employed any other style of type. The manner of setting the type is also the usual one for such type—in fact there is nothing unusual in connection with the matter."

Charlie Campbell and John Frakes are home from Cape Nome. Mr. Campbell was most of the time carpentering, sometimes by contract and sometimes at \$1.50 an hour. He perhaps made more money than anybody else that went from this county. Mr. Frakes was unlucky, having been confined to the pest house for sixty days with small pox. He says every thing was grossly overdone and thinks times there will be far better next year.

Whoever has goats, sheep or anything else to sell should let it be known through the TRIBUNE, which is constantly scanned by buyers. Tillamook honey, butter and cheese just received at Mauritz's fish and poultry market on Mill street. They are selling lots and lots of things to eat. The harnessmaker at Perrydale has spent his life at that work and has no superior. Examine his stock and work before you buy anything in that line. Jeweler Morris has a great variety of time pieces, all sorts of gold rings, lots of silverware, eye glasses and spectacles, bracelets for ladies and watch chains and fobs for gentlemen. The great success of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the treatment of bowel complaints has made it standard over the greater part of the civilized world. For sale by A. K. Wilson. Miss Hallock has a complete stock of new millinery at her store up stairs in the Wilson block, Miss Rowell, of Albany, being her accomplished trimmer. Mrs. Brunk no longer has any interest in the business. Fakirs of all kinds are abroad gulling easily persuaded people out of their money. Many of the slick tongued gentry are now in the valley and will in due time pass through this county, skinning the gullible right and left. The Methodist annual conference is now in session at Ashland and that of the South Methodists at Albany. Rev. C. G. Harmon has gone to his new work at Wabburg, Washington, and Rev. D. C. McFarland is attending the conference. Many of the campers who are picking hops around Dallas will take some nice single or group pictures. Take home one of the very best artists in the state, T. J. Cherrington, has a well equipped gallery right here in Dallas and is ready to take the best photographs of them and their children that they ever saw. The continuous damp weather here the first of the week prompted Graves & Yeakum to offer 50 cents a box for picking hops and it at once added a stimulus to that business, causing them to get many a box picked that otherwise would have been stilled on the vines. They having 150 acres of hops require a small army to gather them. Hop picking in rainy weather brings out the peculiar phases of human nature. In some yards there have been snarls and grumbling tongues. George Hagood's thirty pickers have been a happy set, rain or shine. The other day when it became too wet to pick they stood around the hop poles in grotesque raiment, danced, sang and laughed. A trustworthy hop buyer says that growers should not be in a big hurry to sell. He says that London hop buyers will not make offers for American hops until they have seen samples of them. As samples are just being going to hop buying centers, the consumers will not be ready to make bids before the last of this month. The indications are that if owners act shrewdly they will get at least 15 cents for their output.
