

\$100 Reward \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer \$100 for any case it fails to cure. Send for list of testimonials.

At the request of the health committee, the council met in special session Saturday evening with all the members present and Fiske acting as president, Drs. Soper, Woods and McCallen having reported a well defined case of smallpox on the person of Willie Cook. The clothing of all persons exposed was ordered disinfected, under the supervision of the attending physician, and John Frakes elected quarantine officer and nurse at a salary of \$5 a day.

Council met in regular session last Monday with all present except Ellis, and Cooper acting as chairman. On motion of Howe a cot and bedding was ordered for the use of the nurses. Fiske moved that the schools be closed, children be prohibited from street, persons exposed be quarantined and the most stringent measures taken to stamp out the disease at once.

On motion of Hayter the marshal was instructed to secure a pest house. On motion of Fiske adjournment was taken until next Monday evening.

Smallpox Scare.

Some ten days ago William Cook was taken sick and it was several days before his physician decided as to his ailment, which proved to be smallpox, of which he died Tuesday night. John Frakes and Mr. Snyder were employed to nurse him and no one else was allowed to go near. The city authorities requested all who had been there in the earlier stages of his sickness to remain strictly at home and every other possible precaution against the spread of the disease was taken. Families all over town have purified themselves, their clothing and their surroundings. The schools are still in session and business goes on as usual. Whenever the public welfare requires more stringent measures they will be taken. In the meantime but little attention should be paid to the idle rumors afloat.

Getting Thin

is all right, if you are too fat; and all wrong, if you are too thin already.

Fat, enough for your habit, is healthy; a little more, or less, is no great harm. Too fat, consult a doctor; too thin, persistently thin, no matter what cause, take Scott's Emulsion of Cod Liver Oil.

There are many causes of getting too thin; they all come under these two heads: overwork and under-digestion.

Stop over-work, if you can; but, whether you can or not, take Scott's Emulsion of Cod Liver Oil, to balance yourself with your work. You can't live on it—true—but, by it, you can. There's a limit, however; you'll pay for it.

Scott's Emulsion of Cod Liver Oil is the readiest cure for "can't eat," unless it comes of your doing no work—you can't long be well and strong, without some sort of activity.

The genuine has this picture on it, take no other. If you have not tried it, send for free sample, its agreeable taste will surprise you.
