THE GLASS OF FASHION.

The large, loose waves so essential to the low, fluffy, half parted pompadour style of hairdressing can be made by wetting the hair and tying broad bands of tape around it.

Apparently this is to be a season of buckles. They are steadily growing larger and more popular and are much more beautiful, from an artistic point of view, than ever before.

Silk applique on net and velvet applique on net or silk are trimmings as popular as lace, and stunning little coats are made of black velvet applique on coarse net and lined with white.

Dealers say that women are buying only the thinnest silk and lisle hose and that even when cold weather comes the heavier hose will go begging.

Real laces are being used to a remarkable extent. Cluny Arabian, point d'alencon, Irish point, point de flandres and renaissance taking the lead.

SPRING VALLEY.

Miss Addie Clark, who is principal of one of the Oregon City public schools, spent her vacation at home with her father, Capt. P. F. Clark.

The O. A. C. students, Mae Smith, Ray and Clayborn Shepard and Worth H. H. have returned to Corvallis, for spending vacation at home.

Wayne Henry took a trip to The Dalles and Portland during the holidays to visit his brother, Clyde, who is a druggist at The Dalles.

Ted Burden, who is working at Oregon City, has been up for a few days visiting Tom Jennings and family.

During the holidays the young people and the older ones also enjoyed them selves by attending several pleasant parties. Fred Purvine was surprised one evening by a number of his friends coming to spend the evening and have a social time, and Miss Greta Phillips was surprised by her friends on the evening of December 28th.

On Christmas evening a surprise party was given for Mr. and Mrs. Penrose, and it was indeed a surprise. About 70 persons attended it. When Mr. Penrose saw the crowd come in the door, he backed as soon as possible against the wall and had a grin across his face, and kept rubbing his hands like a little boy who is so bashful.

Miss Daisy D. Hunt, who is attending business college at Portland, was home during the holidays.

Mrs. Penrose and daughter, Minnie, went to Portland to visit relatives last week.

Jasper Skaffe and family, of Salem, spent Christmas with his sister, Mrs. Samuel Phillips, and family.

The largest purchaser was Mr. Peesley, who got three miles. Some others who ordered were A. H. Coyle, Samuel Phillips, Gilbert & Patterson, John Walling, Rea Green, D. G. Henry, Bird Walling, George Griswold and W. B. Duncan.

The church was nearly filled by our people to watch the old century pass away and the coming of the new. Appropriate exercises were prepared and from 8 until 12 was pleasantly taken up, one hour being devoted to a praise service. The oldest person, Grandma Shepard, 85 years of age, rang out the old year, and the new year was rung in by Mrs. Butler's baby boy.

By yesterday forenoon Judge Boise had disposed of nearly all the cases on his court docket and adjourned to February 7th. F. M. Collins served as his bailiff and the outside attorneys present were: C. J. Schabel, of Portland, Jas. McCain, of McMinnville, W. T. Slater and F. A. Turner, of Salem.

Thousands Have Kidney Trouble and Don't Know It.

How To Find Out. Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your lines it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What To Do. There is comfort in the knowledge so often expressed, that Dr. Kilmor's Swamp-Root, the great kidney remedy, fully fills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage.

It corrects inability to hold water and scalding pain in passing it, on bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night.

It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in 50c. and \$1. sizes. You may have a sample bottle of this wonderful discovery and a book that tells more about it, both sent absolutely free by mail.

Address: Dr. Kilmor & Co., 1111 Broadway, New York, N. Y. When writing mention reading this generous offer in this paper.

OUR STAFF OF RUSTLERS.

WHAT THEY HAVE TO SAY ABOUT THE DOINGS IN THE COUNTY.

An Unequaled and Complete Remedy of What Your Friends are and Have Been Lately Doing.

PEEDEF.

The weather during the first week of the new century varied from mild to boisterous, with snow and rain alternating in hourly changes, with the most marked regularity.

There was sufficient rain to prevent the accumulation of snow, so the grazing of stock has not been seriously interrupted.

Peasage is abundant and live stock of all kinds is in excellent condition. Fall sown grain has made sufficient growth to afford fine pasture for sheep and is generally utilized for that purpose.

There is nothing in the market conditions at the chief trade centers, nor in the present status of the live stock industry in general to indicate a probable decline in values and stockmen may reasonably expect remunerative prices for an indefinite time.

The gradual decrease in the supply of range bred animals together with the ever widening market for stock products, are trade features that give reasonable assurance to the stability of present values.

A message dictated by a certain lithe winged deity that is said to be constantly laying siege to the citadel of youthful affection, induced George Pulse to make a journey over to Tidewater, in Lincoln county, where Santa Claus, aided and abetted by R. S. Barclay and wife, presented him with a blooming bride in the person of Miss Marguerite E. Barclay. Justice M. O. Goodman performed the rite and the happy couple arrived home on the second day of the present century.

All of our citizens have remained at home during the past week and by the absence of outsiders suppose everyone else did the same thing. Offers of appointment in the consular service, chronos or clerkships in the patent office have failed to produce an item of interest.

There has been no marriage, divorce, defalcation or other evidence of a higher civilization, consequently items are scarce.

Aunt Mary Beyerly, a sister of P. Orchard of this place and stepmother of Henry Beyerly, suffered a severe stroke of paralysis about a week ago. At present she has improved some and hopes are entertained of her recovery, although she is 84 years of age.

A little son of Frank Kimsey's died last Saturday evening of meningitis croup. Drs. Barber, Smith and Goucher were called in and did all they could to aid the little sufferer, but to no avail. Mrs. Kimsey is quite sick.

Ross of Winfield, Tennessee, for I had such a bad cough I could hardly breathe, I steadily grew worse under doctor's treatment, but my wife urged me to use Dr. King's New Discovery for consumption, which completely cured me. Coughs, colds, bronchitis, la grippe, pneumonia, asthma, hay fever and all maladies of chest, throat and lungs are positively cured by this marvelous medicine.

Beat Out of an Increase of Pension.

A Mexican war veteran and prominent editor writes: "Seeing the advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy, I am reminded that as a soldier in Mexico in '47 and '48, I contracted Mexican diarrhoea and this remedy has kept me from getting an increase in my pension for an every renewal of a dose of it restores me." It is unequalled as a quick cure for diarrhoea and is pleasant and safe to take. For sale by A. K. Wilson.

Rev. Baily was taken violently ill in church last Sunday and had to be carried home.

The watch meeting at the Evangelical church was well attended.

What We Eat

Is intended to nourish and sustain us, but it must be digested and assimilated before it can do this. In other words, the nourishment contained in food must be separated by the digestive organs from the waste materials and must be carried by the blood to all parts of the body.

We believe the reason for the great benefit which so many people derive from Hood's Sarsaparilla lies in the fact that this medicine gives good digestion and makes pure, rich blood. It restores the functions of those organs which convert food into nourishment that gives strength to nerves and muscles. It also cures dyspepsia, acrimonia, salt rheum, boils, sores, pimples and eruptions, catarrh, rheumatism and all diseases that have their origin in impure blood.
