Flatulency, sourness, bad taste, loss of appetite, a sense of weight or fullness after eating, together with uneasiness, impatience, irritability of temper, nervousness, anxiety, lost energy, depression of spirits, sick headache, bad dreams and sleeplessness, come from weak and debilitated nerves. That kind of nerves have to be braced up, strengthened, invigorated and helped if you would have a sound stomach, a keen appetite and a cheerful mind.

"It was headache all the time; food did not digest; could sleep but little; became dependent and tired almost of life. One night, before going to bed, I took a dose of Dr. Miles' Nervine.
