MONMOUTH RALLY.

On Tuesday evening Col. Holt closed a week of temperance revival there, being both afternoon and evening sessions and a large attendance. Some people criticize some of his methods, but they bring good results, which is the best possible evidence of their merit. On Tuesday afternoon about 50 Dallas temperance people, 40 of them ladies, went up on the motor and came back on a special motor at 10 o'clock that night. They were met at the depot by a large committee of Monmouth ladies and escorted to the Christian church, where some 30 of like faith from Independence were assembled. Enough others came to fill the house to its utmost capacity. As master of ceremonies Col. Holt was in his element and everybody felt about as Mrs. Nason feels. It would have been a most unpropitious place for any friend of the rum traffic. There were six ministers on the program, and a good band of singers around the organ. From the word everything pointed in the direction of temperance and pure living. Many short speeches were made, there being the ring of enthusiasm and determination in all of them. Among the speakers were Ministers Goodfriend, Esson, Young, Myers, McFarland and Lovell, Mrs. Burt, Mrs. Daniels, Mrs. Cooper, Mrs. Richardson, Mrs. Lovell, Mrs. Stockton, Miss Butler, Mr. and Mrs. Wash. The story of what had been done and what would be done in Dallas gave great encouragement for the Independence and Monmouth ladies to boldly work along the same lines. The evident consensus of opinion was that the time for women to stand back pleading in vain for men to see that the laws were enforced had passed and that all women should buckle on the armor and be ready, whenever needed, to go forth, either singly, in groups or in masses, and demand the suppression of the evils that have been so harmful to so many, both old and young. Never before have the women of this county been so fully aware of the many shameful and degrading things in existence, nor have they so fully appreciated their rights and duties in the case. Most of them were inclined to shrink back and hope men would bring about a better state of things. But at last they have seen that they must be the moving spirit, and a host of them are ready to move against the depravities of men and women who have ceased to respect themselves, the laws or the wishes of the better citizens around them. The evil doers around each Dallas, Independence and Monmouth have been spotted and will be made to feel that they ought to migrate to places where social and moral inspirations are not at a discount. At the close of the afternoon session, the ladies of Monmouth spread in the church parlor a generous repast for the visitors from sister cities, who were to remain to the night meeting. Steps were taken to extend and intensify the work, there being a mutual sympathy between the temperance organizations of the county. It will be profitable for any imp of the evil one to cast slurs or throw cold water on the movement for the ladies are in dead earnest and will pay no attention to such things.

A Convincing Answer.

"I hobbled into Mr. Blackmon's drug store one evening," says Wesley Nelson of Hamilton, Ga., "and he asked me to try Chamberlain's Pain Balm for rheumatism with which I had suffered for a long time. I told him I had no faith in any medicine as it all failed. He said: 'Well if Chamberlain's Pain Balm does not help you, you need not pay for it.' I took a bottle of it home and used it according to the directions and in one week I was cured, and not since been troubled with rheumatism." Sold by A. K. Wilson.

To Be Prepared.

For war is the surest way for this nation to maintain peace. This is the opinion of the wisest statesmen. It is equally true that to be prepared for spring is the best way to avoid the peculiar dangers of the season. This is a lesson multitudes are learning, and at this time, when the blood is sure to be loaded with impurities, and to be weak and sluggish, the millions begin to take Hood's Sarsaparilla, which purifies, enriches and vitalizes the blood, expels all disease germs, creates a good appetite, gives strength and energy and puts the whole system in a healthy condition, preventing pneumonia, fevers, and other dangerous diseases which are liable to attack a weakened system.

Thousands Have Kidney Trouble and Don't Know It.

How To Find Out. Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What To Do. There is comfort in the knowledge so often expressed that Dr. Kimer's Swamp-Root, the great kidney remedy fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and who are reasonably diligent at taking it. If you need a medicine you should have the best. Sold by druggists in 50c. and \$1. sizes. You may have a sample bottle of this wonderful discovery and a book that tells you more about it, absolutely free by mail, address Dr. Kimer & Sons of Swamp-Root Co., Reading, N. Y. When writing mention reading this generous offer in this paper.

A license was issued this week for the marriage of W. R. Hinshaw to Miss Emma Miller.

The patrons and friends of Dallas college are well pleased with its progress. The teachers are earnest and faithful in their duties and all students who are reasonably diligent at their books are making good headway.

Bring in your vegetables, eggs and poultry, and get the highest market price in cash or trade. I want 100 bushels of potatoes and some wheat for chicken feed. I will trade with you as cheap as the rest and have as good goods. I want to live and let live. Yours for business at the market. A. I. DARR.

Social Reform. Not had the people in Dallas have had any idea of the amount of social depravity existing in their midst. For months and years more or less of it had been guessed at and hinted at in certain quarters, but no responsible parties took it upon themselves to probe into facts that could be proven. It went on from bad to worse until forbearance had ceased to be a virtue and now those who know what they are about are ferreting out and digging up the impurities and if need be will bring them to light at the proper time. The tainted ones are children and young people of all ages, and some married men and women. This is strong language but developments justify it. The good women of this town, backed by all the best men in it, have determined that some people among them must lead better lives or get out of it. There is a certain class of men and some women whose associations are evil that were expected to be in sympathy with the existing wickedness. It would seem unnatural and unreasonable that any man having children subject to the contaminating and blighting influences of immoral and harmful things should be on their side, but some such there are. In this case there is no middle ground. You are either for moral purity or in sympathy with vice. The lines are to be closely drawn and all hands will be classed on one side or the other. If you try to keep your mouth shut, you might as well at once announce yourself as on the side of wrongdoers.
