

THE BEST THEY KNOW.

YOU remember the old lady who rode for the first time on a railway train. There was a frightful collision, but when the rescuers reached her she was quite calm. She said she supposed they always stopped that way. The story well illustrates why so many women are satisfied to live without Ivory Soap. They have never tried it! Naturally enough, they think that annoying odors, sharp chemicals, and wasteful greasiness are common to all soaps.

To Be Prepared.

For war is the surest way for this nation to maintain peace. This is the opinion of the wisest statesmen. It is equally true that to be prepared for spring is the best way to avoid the peculiar dangers of the season. This is a lesson multitudes are learning, and at this time, when the blood is sure to be loaded with impurities and to be weak and sluggish, the millions begin to take Hood's Sarsaparilla, which purifies, enriches and vitalizes the blood, expels all disease germs, creates a good appetite, gives strength and energy and puts the whole system in a healthy condition, preventing pneumonia, fevers, and other dangerous diseases which are liable to attack a weakened system.

The legislature will adjourn tomorrow night with an unenviable record. There has been too lavish expenditure of the people's money. Much time has been frittered away trying to elect a senator. Some good laws have been defeated and others of doubtful utility enacted, and in the scramble of today and tomorrow there is sure to be more bad legislation.

There are in the present legislature twenty-six men opposed to the republican majority. They may be personally good men with the best intentions, but leading democrats who have been looking on at their doings say that except in the matter of voting for senator there is a lack of leadership and unity among them. There is a tendency to squander the people's money with a lavish hand and if that twenty-six would stick together in opposing extravagance very likely enough republicans would come to their aid to prevent it. Surely some one of them is capable of being an efficient and safe leader.

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers, they filter out the waste or impurities in the blood.

If they are sick or out of order, they fail to do their work.

Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits.

By all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail. Home of Swamp-Root, free also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.
