FROM YE EDITOR.

DEAR ITEMIZER: Mrs. Wash and the writer left Portland April 15th and after a 27 hour run of 550 miles stopped over for a day's visit with Rev. D. H. McCullagh and wife at Red Bluff. They are delightfully situated, are greatly beloved by the people and are doing a fine work. Nearly a dozen of their members called to see us the evening we were there. The town contains many fine homes and we saw oranges, figs and other tropical fruits growing. A half day additional ride brought us to this city, the Pacific coast metropolis, 773 miles from Portland. Much of the country passed over in both Oregon and California was disappointing, being far below Polk in merit. This is now a land of flowers, but before midsummer everything will be parched. We have visited many points of interest within easy reach of this city, including the state and Stanford universities. At San Quentin I saw the scaffold on which Durrant was hung for killing two girls and yesterday we were in the church where he killed them. We were at the close of Robert Glaze's trial for murder, and I shook hands with him and his attorney, W. W. Foose, with whom I was a prisoner of war for two years. This city has almost as much population as the state of Oregon and has many peculiar and interesting features, still we are not stuck after it or the state. We will probably arrive at home Friday evening.

The Stimulus of Pure Blood

That is what is required by every organ of the body, for the proper performance of its functions.
It perfects all the vital processes.
It prevents biliousness, dyspepsia, constipation, kidney complaint, rheumatism, catarrh, nervousness, weakness, faintness, pimples, blotches, and all cutaneous eruptions. It is secured by taking Hood's Sarsaparilla which acts directly and peculiarly on the blood.
This statement is proved by thousands of unsolicited testimonials.
W. P. KERRON, Woodstock, Ala., writes: "When I began taking Hood's Sarsaparilla my blood was impure and I had not been feeling well for some time. I was bothered very much with that tired feeling. When I had taken the medicine a few days I began to feel better, and after taking two bottles I felt like another person. That tired feeling was gone and I could do my work."

Hood's Sarsaparilla
rids the blood of scrofulous and all other humors and all foreign matters.

Thompson, a large importer of fine millinery at 1538 Milwaukee avenue, Chicago, says: "During the late severe weather I caught a dreadful cold, which kept me awake at night and made me unfit to attend to my work during the day. One of my milliners was taking Chamberlain's Cough Remedy for a severe cold at that time, which seemed to relieve her so quickly that I bought some for myself. It acted like magic and I began to improve at once. I am now entirely well and feel very pleased to acknowledge its merits. For sale by A. K. Wilson."

Dear Mr. Editor: Mrs. Helen D. Harford, state president of the W. C. T. U., was with us on Saturday night and Sunday. U. has taken on new life and we are now looking for it to do some really earnest educational work among us. They will meet at the church on the second Friday in May. Respectfully, H. A. Rossier.

The Best Remedy for Rheumatism
Quick relief from pain. All who use Chamberlain's Pain Balm for rheumatism are delighted with the quick relief from pain which it affords. When speaking of this D. N. Sinks, of Troy, Ohio, says: "Some time ago I had a severe attack of rheumatism in my arm and shoulder. I tried numerous remedies, but got no relief until I was recommended by Messrs. George F. Parsons & Co., druggists of this place, to try Chamberlain's Pain Balm. They recommended it so highly that I bought a bottle. I was soon relieved of all pain. I have since recommended this liniment to many of my friends, who agree with me that it is the best remedy for muscular rheumatism in the market." For sale by A. K. Wilson.

CORVALLIS.

EDITOR ITEMIZER: The most beautiful thing in the world is a life well spent. I therefore wish to pay a brief tribute to the late Ralph Ball, of McCoy, but who was formerly a student in the Oregon Agricultural college. I knew the young man well, admired him as a patient, persevering, sweet boy; and often remarked his elevating quiet influence among his fellow students. I visited him in his room and often walked and talked with him, and I have seen him mingle with others; but I never heard him say anything that would be unfitting in the sacred precincts of the most refined home. And when his suffering gradually grew upon him and the ghastly look of threatening danger left its imprint here and there upon his pallid cheek and he bore him away to his home, my heart welled full within me and something said, "What a pity!" And when the end was announced and his fellow students sadly whispered one to another, "Ralph Ball is dead," then came up his beautiful life, though brief, yet shining like a vision, brightening the sky and lighting the path way of those who knew him and loved him; for such a life is a precious tribute to the community where it developed and the home that gave it nourishment.

Deafness Cannot be Cured
By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We offer \$100 reward for any case of deafness (caused by catarrh) that can not be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & Co., Toledo, O. Sold by druggists, 75 cents. High Pressure Days.
Men and women alike have to work incessantly with brain and hand to hold their own nowadays. Never were the demands of business, the wants of the family, the requirement of society, more numerous. The first effect of the pressure is to keep up with all these things is commonly seen in a weakened or debilitated condition of the nervous system, which results in dyspepsia, defective nutrition of body and brain, and in interrelated cases in complete nervous prostration. It is clearly seen that what is needed is what sustains the system, give vigor and tone to the nerves, and keep the digestive and assimilative functions healthy and active. From personal knowledge we can recommend Hood's Sarsaparilla for this purpose. It acts on all the vital organs, builds up the whole system, and fits men and women for these high-pressure days.

"Nerve Waste."

One of the most helpful books on nerve waste ever issued is that entitled "Nerve Waste," by Dr. Sawyer of San Francisco, now in its fifth thousand. This work of an experienced and reputable physician is in agreeable contrast to the vast sum of false teaching which prevails on this interesting subject. It abounds in carefully considered and practical advice, and has the two great merits of wisdom and sincerity. It is endorsed by both the religious and secular press. The Chicago Advance says: "A perusal of the book and the application of its principles will put health, hope and heart into thousands of lives that are now suffering through nervous impairment." The book is \$1.00, by mail, postpaid. One of the most interesting chapters—chapter XX, on Nerves and Nerve Tonics—has been printed separately as a sample chapter, and will be sent to any address for stamp by the publishers, The Pacific Pub. Co., Box 2658, San Francisco.
