

A GREAT MAN'S IDEA.

GENIUS, as Ruskin defines it, is simply a superior power of seeing. Have you the genius to see how important an element in the success of your house-keeping is the use of Ivory Soap? Judged by the work it does Ivory is the cheapest soap in America to-day. It is harmless. Embroideries, laces and delicate stuffs should be washed only with Ivory Soap.

An Illiterate Conception.

EDITOR IREMYZER: How came the creek and country about Dixie to be called Rickerall, and from what is the name derived? QUESTIONER.

The word has no derivation and is simply a mispronunciation of the two words La Creole. Some person who did not know their meaning or how to spell them, gave them the wrong pronunciation, it travelled from mouth to mouth, and at last became a common word to all. No one took the trouble to correct it, and it stands today simply a monument to stupidity and ignorance.

There is a Class of People

Who are injured by the use of coffee. Recently there has been placed in all the grocery stores a new preparation called Grain-O, made of pure grains, that takes the place of coffee. The most delicate stomach receives it with out distress, and but few can tell it from coffee. It does not cost over one-fourth as much. Children may drink it with great benefit. Fifteen cents and 25 cents per package. Try it. Ask for Grain-O.

Change the Name.

EDITOR IREMYZER: It is an every week's occurrence for the business men of Dallas to get letters and packages directed to them which have laid at The Dallas for a week or so. This misdirection and miscarriage of our mail has always been a great annoyance to the residents of both places, and is too well known to call for any explanation. The only way to rid ourselves of the grievance is by changing our name, through the proper channels. If Dallas were called after some of the old pioneers who helped to make the town it would be a compliment to their energy and give us as its citizens a distinction we greatly need. What is the matter with Brownstown, Hayterville, Williamsburg, et cetera, of which there would be no repetition in Oregon. Yours respectfully, A BUSINESS MAN.

"What Happened to Jones."

On last Friday and Saturday nights goodly houses greeted the rendition of this neat little 3-act comedy by local talent. Its purpose was for the raising of money to assist the athletic association of our college in raising money to equip themselves with needed apparatus, and the result was most satisfactory—\$86 taken in, making some \$60 clear money. The play was rather a surprise to many of us, as it was not supposed that we had among us such talent in the actor line. Prof. Contryman as Jones was an able exponent of the young man of today who is forever getting into a hole, but has the audacity and quickness of thought to extricate himself from any peril. As Ebenezer Goddy, the tall one professor with a manifest love for the many art, Fred Elliott did some good acting, his woebegone countenance on being placed in sundry incriminating attitudes being especially well done. As Casey, the fun loving ward of the professor, Mrs. G. N. Cherrington again in a fine brought down the house and made it plain to all that her proper vocation was the stage. The rest of the characters carried out their parts well, there being no long waits between acts, forgotten ones or any of the mishaps that generally tend to mar the performance of an amateur company. I only regret that I have not the space at command to personally notice all and give them the praise that they deserve.

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition, beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased. Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose. Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample bottle by mail for 10 cents free, also pamphlet telling all about it, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.

Does the Baby Thrive? If not, something must be wrong with its food. If the mother's milk doesn't nourish it, she needs SCOTT'S EMULSION. It supplies the elements of fat required for the baby. If baby is not nourished by its artificial food, then it requires Scott's Emulsion. Half a teaspoonful three or four times a day in its bottle will have the desired effect.
