

HOW TO ECONOMIZE.

SOME men economize so closely on the number of words in a telegram that the receiver can not understand it. This is not sensible economy. Neither is it sensible economy to ruin garments of value with cheap soap or powerful chemicals that eat into the fabric. True economy uses Ivory Soap in the laundry. It is the most of pure soap that can be sold for the money. Chemically it is as innocent as water. Yet it does everything you can ask of a soap. Try it!

There will be at Brown's hall at 7:30 next Wednesday evening a meeting of business men and citizens generally to organize a board of trade. If properly gone into and energetically pushed, it may be of decided advantage to the community. Where the live business men and liberal progressive citizens of a town all pull together, they can accomplish much. Of course some will throw cold water on the proposition and a few stingy souls will refuse to contribute one cent toward its success, but that should have no influence whatever with public spirited people.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors prescribed a local remedy, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally, it does from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. Cheney & Co., Toledo, O. Sold by druggists, 75c.

A MERRY WAR IS ON.

A paint War—Some things worth knowing.

We did not suppose that our little circular sent out a few weeks ago calling attention to our paint stock and incidentally quoting a few prices, would stir up a hornet's nest.

We thought we were in a community where we could live and let live and if we bought and paid for paints and wished to put our own prices on them we would not have to first consult our competitors. But we find we are mistaken. Our circular letter had no sooner been distributed than a cry was raised that the Carter white lead, which we sell, was not as good as the Pioneer lead, and, therefore, could be sold for less money; that Carter lead was high at 7 1/2 cents because it was a cheaper lead. That Pioneer lead was cheap at 8 cents because it was a superior lead.

While this row was going on at home some deeply interested person in Salem sent to the manufacturers of Pioneer lead our circular letter, calling attention to our cut in price of lead and requesting an investigation with a view to either cut off our supply or raise the cost to us.

The Pioneer people at once took the matter up with Mr. Moore, Pacific coast agent for Carter white lead, and he in turn with his company, who manufacture Carter white lead, who referred the matter to me, and they have my reply, viz.:

"I will not advance the price of Carter white lead to satisfy any one. It may go lower, but under no circumstances will there be an advance unless the manufacturers combine and raise the price to the dealers."

We have not time or inclination to cry down our competitor's wares. We think it shows weakness to make a statement that Carter white lead is inferior, at the same time using every effort to force one out of business or raise prices.

We wish to assure the public that the paint as well as the drug business will henceforth receive our earnest attention. Only the best goods carried in stock and low prices shall prevail. We quote prices subject to market changes: Carter white lead, 7 1/2 cents a pound; pure boiled linseed oil, 7 1/4 cents a gallon; raw oil, 7 1/2 cents a gallon; turpentine, 63 cents a gallon; pure zinc in oil, green seal, 26, 12 cents a pound; pure zinc in oil, red seal, 25, 11 cents a pound.

Above prices will be revised from time to time, as necessary. Figure with us before buying paints. We will save you money. Only high grade goods.

We take this occasion to thank our kind friends for generous good will and patronage shown us during our nineteen years residence in Salem, and trust by fair dealing to merit a continuance.

"It is with a good deal of pleasure and satisfaction that I recommend Chamberlain's Colic, Cholera and Diarrhoea Remedy," says Druggist A. W. Sawtelle, of Hartford, Conn. "A lady customer, seeing the remedy offered for sale on my show case, said to me: 'I really believe that medicine saved my life the past summer while at the shore, and she became so enthusiastic over its merits that I at once made up my mind to recommend it in the future. Recently a gentleman came into my store so overcome with colic pains that he at once sank to the floor. I gave him a dose of this remedy which helped him. I repeated the dose and in fifteen minutes he left my store smilingly informing me that he felt as well as ever.'" Sold by A. K. Wilson.
