Catarrh

Its cause exists in the blood, in what causes inflammation of the mucous membrane.

It is therefore impossible to cure it by local applications. It is positively dangerous to neglect it, because it always affects the stomach and deranges the general health.

It is radically and permanently cured by Hood's Sarsaparilla which removes the cause, cleanses the blood of scrofulous and all other impurities and gives vigor and tone to the whole system.

The voluntary testimonial of R. L. Loez, California Junction, Iowa, is one of thousands equally good. It reads: "I had catarrh in the head three years, lost my appetite and could not sleep. My head pained me and I felt bad all over. I was discouraged. I began taking Hood's Sarsaparilla and now have a good appetite, sleep well, and have no symptoms of catarrh."

Hood's Sarsaparilla promises to cure and keeps the promise. Accept no substitute.

CORVALLIS OAK MILL CO.

Some months ago the above named firm, who deal in all kinds of hard wood, bought 500 acres of timber land on the D. M. Guthrie place four miles south of Dallas. They have recently established near the Fairview church site a plant of 10,000 feet per day capacity for sawing oak and shaping it into all manner of dimensions. They have in sight enough material to keep the mill running for several years and will pay the farmers around from \$8 to \$10 per 1,000 feet for their surplus oak logs. No part of a tree will go to waste. Much of it will be used in making furniture and all parts of vehicles, plow beams, flooring and the like, and short pieces will be worked up into telegraph brackets and pins. They have a prompt demand for all their output in Portland and San Francisco. They have another mill in operation in Corvallis, where ash and maple are also manufactured. They have a dry house of about 10,000 feet capacity, it taking about two weeks to thoroughly season the lumber. Last week they sent away two ship timbers 8 by 18 inches in size and 16 feet long and make frequent carload shipments. H. W. Strong, who now lives here is president and manager, Odou Nealy is engineer and Will Martin serves as sawyer. Other employees at the mill are George Stockey, Seth Smith, Frank Strong, Walter Sellers and Mr. Johnson. Five men are in the timber cutting' logs and four men with six horses see to their delivery at the mill. Al Bunker has the logging contract and Al Bieland is his foreman. Frank Collins has been employed to deliver the sawed product at the depot in Dallas. Mr. and Mrs. Levi Adams, whose home is near by, keep the boarding house. Four houses are to be erected out on the roadside for the use of employes. The industry will be of material benefit to the community at large. Many an oak tree that was thought to be of only firewood value will sell for several times that. President Strong is a practical saw mill man and will make the business prosper.

Oregon Crops.

The condition of fall grain is not so promising as it was last week. In the Willamette valley it is becoming spindly, and complaints of fields turning yellow are numerous. The grain appears to have again made its appearance. In Umatilla, Baker and Union counties fall wheat in low places was killed by the frosts of June 4th and 6th, and some has been cut for hay or burned under. The crop, as a whole however, continues promising and with favorable weather from now on will prove an average one. Haying has begun, with yields above the average, both as to quality and quantity. Gardens are backward, and the recent frosts in southern Oregon injured considerable garden truck in Josephine and Jackson counties. Hops are doing nicely, the yield generally being free from lice. Reports regarding fruit vary widely. In some sections the trees have all they can carry, while there are many orchards that will not produce sufficient fruit to pay for its being gathered. Cherries have been injured by the rains and strawberries are slow in ripening. In Powder River valley all fruit suffered severely, and throughout eastern Oregon there will be a general shortage over last year's yields of prunes and apples.

Life.

The poet's exclamation: "O Life! I feel thee bounding in my veins," is a joyous one. Pygmies that can rarely or never make it, in honesty to themselves, are among the most unfortunate. They do not live, but exist; for to live implies more than to be. To live is to be well and strong—to arise feeling equal to the ordinary duties of the day, and to retire not overcome by them—to feel life bounding in my veins. A medicine that has made thousands of people, men and women, well and strong, has accomplished a great work, bestowing the richest blessings, and that medicine is Hood's Sarsaparilla. The weak, run down, or debilitated, from any cause, should not fail to take it. It builds up the whole system, changes existence into life, and makes life more abounding. We are glad to place these words in its favor to the readers of our columns.
