At t the Teddie R Dallas, has e The German without a pay ing been offi Portland. stend of half afterwards be Graham, the now owned I have a new \$1.500 house been moved ing assemb Ballston. w Where the G Salt Creek n hill, Ezra Ha n adwaters of that classic stream up which so many politicians are said to have gone. J. J. Brown, recently from California, lives on the old Hay-good place recently occupied by J. W. Flanery, who is now in Eastern, Ora We turned to good place recently occupied by J. W. Flanery, who is now in Eastern Ore-gon. His sons, Tide and Jee, have lived near there for several years. They believe in education and their child-ren always stand well in school. Har-ry Seymour, who is to teach at Rickthere up to Martin Bros.' new saw-mill, which is only a mile below the source of Salt creek. In going we passed the homes of W. H. Brown and Glenn Zumwalt, the latter place now being occupied by Will. White, Will. Martin spent the winter making an entirely new mountain road and getting his plant to the new site. It an e tirely new mountain road and getting his plant to the new site. It is in virgin timber, no saw legs ever having been cut that high up the stream. They have leased nearly 900 acres from a Mrs. Summerville, of Centralia, Washington, and it will take years to cut all the saw timber tributary to that site. They acreat tributary to that site. They expect to cut a million feet this season and dense forest beyond them. So much to cut a million feet this season and half as much mere during the winter for t is spring trade. They are filling a California order for 100,000 feet of 4 inch flooring and are sending some 25,000 feet to J. J. Hill and J. K. Sears at McCoy. They have a good country trade, mostly for fences and barns. Four families live around the mill. Mrs. W. E. Martin and Miss Lxura Buell cook for the boarders Sam. Hayes is boss in the woods. Al-win Country has charge of falling the trees and the team of Robert Vautran draws the logs to the mill pond. Will Martin is sawyer and manager, Pro-Lachance keeps up and lets out the staan, Sam. Cairnes does the off bear-ing, Hank Beeler runs the edger, Char Rees keeps the books and John Die key is yardeman. There is now on the yard about 75,000 feet of ceiling and rustic and that much rough lom-ber. The prices are §6.50 for treugh, \$9 for shiphap and from \$13 to \$18 for rustic and flooring. They have a good planer and will erect a large dry shed before winter. There is no eary shed before winter. There is no easy grade to the mill and when the road half as much more during the winter of the land as they have cleared brings ris. grade to the mill and when the road place. He has already has the offer is put in good repair big loads can be hauled from there. Coming back to the school house we soon cressed over the divide the divide and struck Mill creek at germanson and then struck a jog the old flouring mill site, half a mile trot for home via the Grand Ronde below the Peter Syron aaw mill. But road. We found several German famfew remnants of the old grist mill-are to be seen. A lew years ago Brown & some pure vetches and some with oats ilies cutting splendid crops of hay. bo be seen. A new years ago provide and some pure vetches and some with the same work for another, and there it from falling. A Sustaining Diet.

These are the enervating days when as somebody has said, men drop by the sunstroke as if the Day of Fire had dawned. They are fraught with danger to people whose systems are poorly sustained; and this leads us to say, in the interest of the less robust Spectacles of our readers, that the fall effect of Hood's Sarsaparilla is such as to suggest the propriety of calling this med Cameras icine something besides a blood puri fier and tonic,-say, a sustaining diet. It makes it much easier to bear the heat, assures refreshing sleep, and Repairing receives choice hops and a delightful camping will without any doubt avert much prompt and special attention. sickness at this time of year.
