

THE TRICK.

A TRICK may involve deceit or it may be a display of peculiar skill. There is deceit in some soaps, but there is none in Ivory Soap; it is a display of peculiar skill. It will stand any test and can be relied upon to do all that is claimed for it.

IVORY SOAP IS 99 1/4 PER CENT. PURE.

Deafness Cannot be Cured

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give \$100 for any case of deafness, caused by catarrh, that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.—F. J. Cheney & Co., Toledo, Ohio. Sold by druggists at 75 cents. Hall's Family Pills are the best.

Carnival Coming On.

On Wednesday evening, September 18th, the Portland Carnival will open in a brilliant array of splendor such as is seldom seen in the Northwest. The great exposition building will be illuminated by nearly 3,800 electric lights, while the adjoining Multnomah field with its five acres, will have lights equaling 40,000 candle power. The Carnival will afford a whole month of pleasure and interesting instruction. The railroads and steamboats are going to carry people to and from the carnival at one and one-third fare for the round trip, and their excursion tickets will be good for seven days. There will not be a dull moment at the Carnival—some sort of entertainment will be going on all the time, afternoon and evening, with two full military bands discoursing music. The array of attractions will be unsurpassed, and the Carnival will last a month.

CONVERSION PROGRAMME

The programme of the district Sunday school convention to be held at Falls City, Sunday, September 29th, is as follows: Sunday school at 10:30. Classes to be taught: Bible, Mrs. Bonnie Smith; young peoples, Rev. Dodd; intermediate, Mrs. Jones; primary, Kate Burns. Shall Our Schools be Graded, pastor Free Methodist church, Falls City. The program will be interspersed with songs and recitations. All are invited.

J. B. Stump Dead.

He died suddenly of heart disease at his home near Suver August 29th, aged 69 years. He drove a band of sheep across the plains in 1854 and taught in Monmouth for several years. After that he began farming in the southern part of this county and gradually accumulated some 20,000 acres of land. He always ranked among the best farmers in his community. He was a studious man and well posted on nearly all subjects. He took an active interest in politics and was sent to the legislature in 1867 and again in 1898. For many years he had been a leading member of the grange and belonged to the Unitarian church. In 1859 he married Miss Martha Davidson. They have two living children, Fred, at home and Mrs. Jessie Hamilton in Salem.

Another Pioneer Case.

Margaret Howell was born in Adams county Illinois, December 28, 1833, and was a sister of Joshua McDaniell, of this county. She crossed the plains with her mother and family in 1844, as married to Wesley Howell, of Howell Prairie, Marion county in 1848, where she lived until after the death of her husband, when she moved to this county where she resided until a short time before her death. Soon after her marriage she joined the Presbyterian church in which she lived until her death, Sept. 1, 1901. She was buried in the Burch cemetery by the side of her mother. She was mother of four boys and three girls.

How To Gain Flesh

Persons have been known to gain a pound a day by taking an ounce of SCOTT'S EMULSION. It is strange, but it often happens.

Somewhat the ounce produces the pound; it seems to start the digestive machinery going properly, so that the patient is able to digest and absorb his ordinary food, which he could not do before, and that is the way the gain is made.

A certain amount of flesh is necessary for health; if you have not got it you can get it by taking

Scott's Emulsion

You will find it just as useful in summer as in winter, and if you are thriving upon it don't stop because the weather is warm.

Oregon Crops.

Hop picking has begun in southern Oregon and will begin this week in the Willamette valley. The hops are maturing rapidly and the quality in all parts of the state is reported extra good, but the yields, it is believed, will be slightly less than those of last year. Corn is making good advancement, but on account of the cool spring and subsequent dry weather not over half a crop will be harvested. Early potatoes are of good quality, free from blight, but a short crop. Late potatoes have improved during the week, but the crop without more rain, followed by favorable temperature conditions, will fall considerably below the average of former years. The third crop of alfalfa is being cut, and the yields are about the same as usual. Prune picking has begun in southern Oregon, and will become general in about ten days. The prunes are slightly undersized, but their quality is above the average. Peaches, pears and some fall apples are being marketed. Although the entire crop of fall fruit is not large, it is maturing nicely and is unusually sound and well flavored.

Coming in from the country yesterday morning

we met a hay wagon full of women and children going out to gather hops. They were as jolly as going to a picnic.

Our streets are almost deserted these days, nearly everybody being out in the hop yards. Many town people have gone to some camp yard as to get the benefit of camping out.

About 30 Pacific coast canneries have consolidated into a trust with a capital of 25,000,000. The deal includes about 100 fish traps and their principal office will be in Portland.

Wm. Galloway has been receiver of the Oregon City land office for 18 months over his appointed time, simply because Senators Simon and Mitchell and Congressman Tongue cannot agree on his successor, each favoring a different man. Postmaster Bibbe, of Sheridan, is Mr. Mitchell's choice.

The recent injury of the oatmeal fruit crop by hot weather it is thought will give a far greater demand for our prunes for that region. California had a big surplus crop, which was expected to dampen our prices, but the fresh eastern demand has absorbed nearly all of them. Prune growers should be slow in selling at present offers.
