

HERE is a matter which touches your comfort. You want a clear, fair complexion. This is really nine-tenths a question of the treatment of the pores of the skin. Some toilet soaps are as nippy and keen as mustard. If you will only use the virtue you call your judgment, it will tell you that any soap which leaves the hands habitually dry is robbing the skin of its natural oil. Free alkali is the robber's name. Ivory Soap has no free alkali. Try it! It floats.
