

HOW TO ECONOMIZE.

SOME men economize so closely on the number of words in a telegram that the receiver can not understand it. This is not sensible economy. Neither is it sensible economy to ruin garments of value with cheap soap or powerful chemicals that eat into the fabric. True economy uses Ivory Soap in the laundry. It is the most of pure soap that can be sold for the money. Chemically it is as innocent as water. Yet it does everything you can ask of a soap. Try it!

Getting Thin

is all right, if you are too fat; and all wrong, if too thin already.

Fat, enough for your habit, is healthy; a little more, or less, is no great harm. Too fat, consult a doctor; too thin, persistently thin, no matter what cause, take Scott's Emulsion of Cod Liver Oil.

There are many causes of getting too thin; they all come under these two heads: overwork and under-digestion.

Stop over-work, if you can; but, whether you can or not, take Scott's Emulsion of Cod Liver Oil, to balance yourself with your work. You can't live on it—true—but, by it, you can.

There's a limit, however, you'll pay for it.

Scott's Emulsion of Cod Liver Oil is the readiest cure for "can't eat," unless it comes of your doing no work—you can't long be well and strong, without some sort of activity.

The genuine has this picture on it, take no other. If you have not tried it, send for free sample, its agreeable taste will surprise you. SCOTT & BOWNE, Chemists, 409 Pearl Street, New York.
