ALL Stuffed Up

That's the condition of many sufferers from catarrh, especially in the morning. Great difficulty is experienced in clearing the head and throat.
No wonder catarrh causes headache, impairs the taste, smell and hearing, pollutes the breath, deranges the stomach and affects the appetite.
To cure catarrh, treatment must be constitutional—alterative and tonic.
"I was afflicted with catarrh. I took medicines of different kinds, giving each a fair trial, but gradually grew worse until I could hardly hear, taste or smell. I then concluded to try Hood's Sarsaparilla, and after taking five bottles I was cured and have not had any return of the disease since."
Hood's Sarsaparilla
Cures catarrh—it soothes and strengthens the mucous membrane and builds up the whole system.
