

WHITE LOG.

DWIN FORREST was once drilling a stupid "super." In despair Forrest exclaimed: "Can't you say it as I do?" "No," said the man; "if I could, would I be working for \$5.00 a week?" If you asked a cheap yellow soap to do the work of Ivory Soap the reply might well be: "If I could, would I sell for half as much?" Ivory Soap, being pure, costs money, but not more than a pure soap has to cost.

CONCERNING WRINKLES.

How to Prevent and Remove These Annoying Lines. The best preventive of wrinkles, according to a physician who has made the matter a study, is a happy disposition which meets life and its trials with a serene countenance. It is worth while, it may be interpolated, if one has not the disposition, to cultivate its counterfeit presentment in the "expression of smiling repose," which, a celebrated French beauty declared, takes away half a woman's years, whatever they may be.

Wrinkles are merely expression habits crystallized by practice. Fall in the way of raising the eyebrows constantly or puckering the forehead between the eyes in troubled perplexity, and soon the lines of latitude and longitude thus produced remain.

"Crow's feet" are really pleasant lines caused by smiling and laughing, which is why they usually impart a kindly touch to the countenance.

The lines about the mouth come quickly, for no feature of the face is so mobile and expressive of every passive motion. It is wise, therefore, to go back of the effect to the cause and stifle anger, bitterness and other unlovely feelings, which will speedily write their indelible message. All lines come quickest in a fairly relaxed skin.

For this a daily douche of water in which a little alcohol or cologne has been put is useful. Bathing the face first in very hot water, then instantly in cold, tends to toughen the skin and keep it smooth. For cheek wrinkles sleep on a small hair pillow. Massage with a good cold cream is also helpful.

How to Make Clam Broth. Procure three dozen Little Necks in the shell, wash them well in cold water, put them in a saucepan, cover with a quart of hot water, boil 15 minutes and drain. Remove the shells, chop up the clams and add them to the hot broth with a pat of butter. Salt if necessary and add a little cayenne. Boil ten minutes and serve hot or cold in cups with toast or crackers.

How to Make Nut Loaf. Two cupfuls of stale bread crumbs, one cupful chopped history nut meats, one-half cupful of seeded raisins, one-half cupful of salt. Moisten with hot water, cover and let it stand ten minutes, then form into a loaf in a moderate oven. Slice and eat cold with butter.

How to Sweeten Butter. If one has butter that is not entirely sweet, add to it a little more salt and a pinch of soda and bring to a boil on the stove. When cold, remove the cake of fat, wipe dry, and it will be found perfectly sweet for cooking.

War News of the Day. "Well," he remarked casually, "we don't get as much war news in the papers as we did a while ago."

"Oh, I don't know," was the reply. "Look on the sporting page."

"What is to be found there?" "The accounts of the football games."—Chicago Post.

A Prejudiced Opinion. "There's," she said to her old bachelor brother who had just told her of his engagement, "one great difference between man and the lower animals."

"What's that?" he asked. "He's the only one that a woman can make a fool of."—Chicago Record-Herald.

Stop the Blight

It is a sad thing to see fine fruit trees spoiled by the blight. You can always tell them from the rest. They never do well afterwards but stay small and sickly.

It is worse to see a blight strike children. Good health is the natural right of children. But some of them don't get their rights. While the rest grow big and strong one stays small and weak.

Scott's Emulsion can stop that blight. There is no reason why such a child should stay small. Scott's Emulsion is a medicine with lots of strength in it—the kind of strength that makes things grow.

Scott's Emulsion makes children grow, makes them eat, makes them sleep, makes them play. Give the weak child a chance. Scott's Emulsion will make it catch up with the rest.

This picture represents the Trade Mark of Scott's Emulsion and is on the wrapper of every bottle.
