All Humors

Are impure matters which the skin, liver, kidneys and other organs can not take care of without help, there is such an accumulation of them.

They bitter the whole system. Pimples, boils, eczema and other eruptions, loss of appetite, that tired feeling, bilious turns, fits of indigestion, dull headaches and many other troubles are due to them.

Hood's Sarsaparilla and Pills

Remove all humors, overcome all their effects, strengthen, tone and invigorate the whole system.

"I had salt rheum on my hands so that I could not work. I took Hood's Sarsaparilla and it drove out the humor. I continued its use till the sores disappeared." Mrs. Isa G. Brown, Rumford Falls, Me.

Hood's Sarsaparilla promises to cure and keeps the promise.

We heard the other morning that the abbreviation for February—Feb-means Freeze every body, and that men looked frozen in his ulcer. It was apparent that he needed the kind of warmth that reaches from head to foot, all over the body. We could have told him from personal knowledge that Hood's Sarsaparilla gives permanent warmth, invigorates the blood and speeds it along through arteries and veins, and really fits men and women, boys and girls, to enjoy cold weather and resist the attacks of disease. It gives the right kind of a warmth, stimulates and strengthens at the same time, and all its benefits are lasting. There may be a suggestion in this for you.

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes. The kidneys are your blood purifiers, they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work.

Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble. Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail. Home of Swamp-Root, free also complete telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

GOATS AND POULTRY.

Two years ago it was announced that an annual goat show would be established and the first meeting brought together only 15 animals and not many visitors in a Dallas livery stable. The exhibition of a year ago drew together in the old Sator lumber shed four times as many goats and several times as many interested visitors.

The third annual show a week ago in the woolen mill building surpassed all expectations. Of the 110 goats put on exhibition not one was scrubby and many would rank high with the very best thoroughbreds in the land. There were roomy and comfortable pens for the different classes and ages of goats, all of them Angoras. Spacious aisles on either side gave visitors an excellent view of the many attractive animals. The attendance was quite large on Thursday and larger still on Friday. Electric lights made the building light as day and each evening the place was crowded with men, women and children admiring the pretty and cute acting angoras.

John Craig, of Marion county, was judge and gave general satisfaction. As an act of courtesy sheep and poultry men were invited to put their stock on exhibition. Although there are many fine sheep in the county, only two owners responded to the invitation. W. D. Gilliam, who took first premium on a Cotswold ram lamb, and J. H. Hawley, who took first and second premiums on Lincoln shire ram and ewe lambs. Thos. W. Brink being the judge. Quite a number of owners of fine sheep said they would be on hand with their next year.

The poultry exhibit was away yonder ahead of the most sanguine expectations of anybody. There was a greater variety and higher grades of birds than was thought to exist in the county, and it was there learned that there were many other just as fine fowls not on display. C. D. Nairn had a bronze turkey that weighed 40 pounds and Wm. Lee showed a turkey hen that had laid 137 eggs since raising her brood last summer. I. V. Lynch and J. D. Smith were in charge of the poultry exhibit and A. E. Aufranc, of Salem, judged their quality. The display in that line will be quadrupled another year and there will be still other attractive breeds. Quite a number of birds changed hands and there were many inquiries about getting eggs for hatching. Next season arrangements will be made for a display of swine, and who knows but what the thing will develop into a regular county fair, including horses, cattle and agricultural exhibits. To W. A. Ayres, H. L. Fenton and U. S. Grant belong most of the credits for the success of the show. Premiums were awarded as follows:

Grade doe kids—J. M. Farley first, Wm. Riddell second.

Buck kids—D. Shepard first, William Riddell second.
