Our candidate for sheriff comes of noted, honored and heroic pioneer stock and has proved himself no less worthy than his grandfathers Col. Nat. Ford and Major John Thorp. In 1844 each of them commanded large companies that crossed the plains to Oregon and both of them settled in this county where they became useful and leading citizens. Every pioneer in all this region knew them. John T. Ford was born at Rickreall and his whole life has been spent in this county. He has been before the public long enough for the exposure of any possible flaws in his character and conduct but no one seems to have found any. As deputy sheriff for four years he has made a record that for efficiency and trustworthiness has never been excelled by any county official.

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers, they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work.

Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail, name of Swamp-Root, free, also pamphlet telling you how to find out if you have kidney or bladder trouble.
