

THE POLK COUNTY ITEMIZER

DALLAS, FRIDAY, MAY 2, 1901.

THE DEMOCRAT TICKET.

STATE. For Governor—Geo. E. Chamberlain, of Multnomah. For Supreme Judge—B. F. Boham, of Marion. For Secretary of State—D. W. Sears, of Polk. State Treasurer—Henry Blackburn, of Morrow. Attorney General—J. H. Raley, of Umatilla. State Printer—J. E. Godfrey, of Salem. Superintendent of Public Instruction—W. A. Wann, of Polk. U. S. Senator—C. E. S. Wood, of Multnomah. Congressman, first district—J. K. Weatherford, of Linn. Congressman, second district—W. F. Butcher, of Baker.

COUNTY.

For Representative—M. L. BULLER, of Monmouth. For Joint Representative—I. M. SIMPSON, of Airlie. For Sheriff—J. T. FORD, of Dallas. For Clerk—DEE SIMPSON, of Monmouth. For Commissioner—SETH RIGGS, of Crowley. For Treasurer—E. V. DALTON, of Independence. For Assessor—F. E. MYER, of Smithfield. For Surveyor—L. GRUND, of Monmouth. For Coroner—W. S. CAREY, of Dallas.

THE republican leaders claim to think George Chamberlain and his followers small fry, not amounting to much in the political campaign, but before the contest is over they may conclude otherwise. Over and again republican legislatures have promised reforms of burdensome and unjust taxation, but matters have been growing worse instead of better. In every part of the state the plain people who have to foot the bills are being told of the evils and abuses in connection with the state government and the indications are that very many republicans will vote for a change of administration. The present annual cost of the state office is about \$90,000 which by the flat salary system advocated by the democrats could be reduced to not over \$50,000 and just as good service secured. All liberal, conservative republicans are asked to look into present facts and what could be done.

A thousand oak telegraph pole brackets and as many steps have been sent to the Portland market by the Dallas oak saw mill. No lumber is wasted, all of it being worked up into something of value.

Fred. Toner and his faithful dog have been spending a week at their claim back in the mountains, where there is a foot of snow.

District Attorney Hart went over to Brownville Tuesday to prosecute two young men charged with robbing a bank there.

The teachers picnic at Rickreall on May 24th promises to be a big thing. There will be songs, speaking, drills and calisthenics. The afternoon will be devoted to speaking by the candidates.

Rev. Russell will preach at Bridgeport at 10:30 tomorrow and there will be a business meeting of the Fairview church there. He will also preach there Sunday and at Dallas in the evening.

PERRDALE AND MCCOY.

On the north bound train which left Dallas at 6:10 Monday morning were some 20 passengers, the writer among them. On either side were

A Miraculous Feat.

"It seemed that nothing short of a miracle could save my little daughter from an untimely death," says City Marshall A. H. Malcolm, of Cherokee, Kan. "When two years old she was taken with stomach and bowel trouble and despite the efforts of the best physicians we could procure, she grew gradually worse and was pronounced incurable. A friend advised Dr. Miles' Nervine and after giving it a few days she began to improve and finally fully recovered. She is now past five years of age and the very picture of health." Sold by all Druggists. Dr. Miles Medical Co., Elkhart, Ind.

blooming fruit trees, green grain fields and contented stock, grazing in green pastures. Spring work had been evidently retarded by too much wet weather and some fields were yet too damp for plowing. Around both Polk and Smithfield the inhabitants were too busy to greet us with either a smile or a bow. We dropped off at Perrydale and at once began to size up the town. Dr. Kimball, of Smithfield, was there, fat and sunny as ever. He needs a cooking partner, but will not splice until he gets a good chance. H. A. Clodfelter runs the depot while his wife runs the hotel, and we know from experience that she sets a good table. George Nelson is the district roadmaster and was plowing and scraping an ugly piece of road near by. Dr. Hunter a Scotch physician of many years experience cares for the sick people around and keeps a small stock of drugs in the building in front of the store. Strong Bros. do all kinds of blacksmithing and vehicle repairing. Fred. Helling handles furniture and agricultural machinery. J. A. Wolfe has already put down a sar load of tilling and has 3,000 feet more to plant on his farm at the edge of town. Miss Ross Smith is giving excellent satisfaction as a teacher and they have a flourishing Sunday school. Herbert Elliott officiates at the flouring mill and warehouse, while his wife runs the postoffice. A. J. Wise and wife are living in quiet contentment. The tightly homes of E. C. Keyt and A. C. Taylor are situated in the suburbs and Henry Keyt is making the most possible out of his farm near by. The family of A. M. Werner, on the Zach Howe place are highly spoken of by their neighbors. The store of Hon. D. L. Keyt is being run as for years past, the clerks being R. R. Turner and Willie Keyt. The flouring mill in connection with the Keyt were house is of 50-barrel capacity and besides supplying a large neighborhood with a first class article, manufactures considerable for Portland and foreign markets. They send out a large number of fine sample three pound sacks of flour as a forerunner of its introduction into any new market. Besides merchandising and milling on rather a large scale, Mr. Keyt is conducting two fine farms, one of them being the old Enoch Richardson place and the other situated just south of McCoy. Behind a spanking good team of quick steppers he drove us to the latter place. H. D. Ott, a Virginian, has charge of it and keeps things in ship shape. He milks 17 cows and a Salem creamery wagon comes twice a week for the butter fat produced by his fine separator. His 45 pretty Berkshire and Poland China hogs are all from registered stock. They consume the skim milk and have an additional ration of grain and all the grass they want. Within a year he has marketed 200 fat hogs. On the place are 40 first class Cotswold sheep and he had two teams of heavy, well kept horses plowing and seeding. Near Perrydale is the fine Ira Townsend farm, which is being run by George Townsend and near by Henry McKee lives on Miss Fanny Keyt's farm, where Jasper Kennedy and son are erecting a good barn. En route to McCoy we passed the fine farms of J. M. Wise and Ed. Keyt. On the former place an immense last summer an immense rick of clover hay, it containing 125 tons. In the meantime his stock have consumed all but about eight tons. His three huge silos furnished choice winter food for his cattle. He has 40 dairy cows and 60 calves and as many more stock cattle. All the butter made by his practical dairyman is sent to a wholesale house in Portland. He keeps some 200 hogs of various ages and has this spring sold 60 beef cattle at from \$40 to \$50. In a few days he and Mrs. Wise will go to Baker City to sell a car load of pigs and organs in that region, but will be back before the harvest season. Ed. Keyt's attention is devoted almost exclusively to cattle feeding. He has recently marketed 50 as fine stall fed ones as ever went to Portland, and has lots more of them getting ready for choice beef. He had been told that the cattle under two years old could not profitably be made fat enough for market, but he tried the experiment and made ten of them not yet two years of age average over 1,000 pounds the home market price being 44 cents. He sold a good sized black mare at \$175, his neighbor, John McCrow got \$280 for a team, and A. C. Taylor received \$200 for an 1,800 pound horse. The farmers around there believe in keeping nothing but good stock and know that it pays them. They also know from experience that grain can be profitably fed to animals. McCoy we found not to have changed within a year, except that a few families have left and others have taken their places. We inquired the meaning of so many freight cars on the side tracks and were told that about all the wheat in both warehouses had been sold at 54 cents and was being shipped out as fast as possible to go aboard ships bound for the old world. The Hill warehouse had been shipping more or less right along, but the Sears warehouse had been holding 20,000 bushels for better prices. The contents of that building Mr. Sears had also sold 10,000 bushels in the warehouse at Crowley. The hotel and the postoffice are under the same administration as for years past. Perhaps most of our readers know that over a year ago Mr. Robert A. R. Touler succeeded J. C. Fletcher, who is in the stock business at Grand Ronde. W. L. Strong has been the village blacksmith for six years. As railroad agent Miss McCann fully fills the bill. All the section crew except the foreman are Japs and the white folks do not like it. Miss Ella Carpenter is still teaching there. Fred. Smith and family are living there for the time being, but will soon move up near Eugene, where he has bought a farm. S. W. Fletcher has returned from a winter's sojourn at Los Angeles. D. D. Gorsline lives in the A. C. McKinnon house and Mrs. Schultz, recently from Wisconsin, now owns and occupies that part of the McKinnon place south of the road. John Hill has sold to J. C. Pratt a \$2,300 his farm a few miles to the northwest. Mrs. Clara Post lives with her brother, Bud Frazier, on the farm where Wm. Hunter lived for so long. Mrs. J. K. Sears was quite severely hurt by her buggy being turned over near Amity.

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy. It is the great medicine of the nineteenth century, discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, kidney, bladder, uric acid troubles and Bright's Disease, which is the worst form of kidney trouble. Dr. Kilmer's Swamp-Root is not recommended for anything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work, in private practice, among the helpless too poor to purchase relief and has proved so successful in every case that a special arrangement has been made by which all readers of this paper who have not already tried it may have a sample bottle sent free by mail, also a book telling more about Swamp-Root and how to find out if you have kidney or bladder trouble.
