The election of George E. Chamberlain for governor was not because he was a democrat, but because the majority of the people in the state thought he would make a safer and better executive officer.

Last Saturday was a delightful day and at an early hour people began to arrive from all directions to help the pioneers celebrate at their annual meeting. The procession formed at 10:45 in front of the courthouse, headed by the Monmouth band, but on account of heat and dust not very many pioneers or Indian war veterans marched in line to the city park.

It may then produce irregularity of the stomach and bowels, dyspepsia, catarrh and marked tendency to consumption before manifesting itself in much cutaneous eruption or glandular swelling.

If the women could talk out of the two corners of their mouths at the same time, there would be a good deal said on both sides. Dr. Darrin wants just such advocates. No one tongue or corner of the mouth can tell of the wonderful cures he is performing daily at his office. The following cases substantiate his wonderful skill:
