WHAT BEECHER SAID.

This Eminent Divine Upholds the Advertising Doctor Whose Work Becomes Known.

That most eminent divine, the late Rev. Henry Ward Beecher, publicly advocated the advertising doctor, as he once stated in the following words: "I am glad that the doctor cured him. Glad that the doctor put it into the paper that he could cure him. And if such a doctor is certain he can cure such diseases and doesn't put it into the paper, I am sorry. What a pity it would have been had this doctor come to town with his wealth of science and experience, and gone away leaving him uncured. What a pity it would have been if he had been so prejudiced against advertising as to read the responsible certificates of the doctor and give him the go-by as a quack. What are newspapers for if not to circulate information? What more valuable information can a newspaper give than to tell a sick man where he can be cured? If a man has devoted his life and labor to the study of a special class of diseases, the necessity of his saying so becomes all the more pressing. His duty to advertise becomes imperious. A really able man, whatever his gifts, makes a mistake if he fails to use those gifts through want of advertising."

The above extract from an able article of the Rev. Mr. Beecher embodies a sound view of the subject of advertising. Suppose Dr. Darrin had come to the city and not advertised, who would know of his presence? Since Dr. Darrin has been in Salem he has relieved more agony and suffering than tongue can tell. His testimonials have substantiated his cures. The fact that his offices at the Willamette Hotel are crowded the greater part of the time and that few go away dissatisfied, is pretty good evidence of his success.

The editor of this paper is personally acquainted with many of the people named as cured by Dr. Darrin.
