THE DEAF HEAR. A Result of Twentieth Century Progress - Simplified. (Salem Statesman)

When one of the East Indian potentates had an Englishman executed because he told that monarch that water sometimes congealed in England so hard that it would bear an egg, he acted on sound principle from his point of view. We are led to make this reference from the fact that things seemed wonderful two decades ago that are now accepted as commonplace and are easily accounted for; and processes that are now accepted and deemed chimerical and impossible, will, in another score of years, be accepted by the multitude. Not many years ago the art of healing by electricity was unknown.

But time works wondrous changes. Now electricity as a healing art is forcing its way to the front, and every scientist acknowledges its potency. Dr. Darrin was one of the pioneers in the use of electricity as a curative agent, and has established a solid reputation as a veritable healer by this magic power.

He gives us numerous testimonials from persons well known in this vicinity whose statements over their signatures will not be discredited. Unreasonable opposition and abusive epithets go for naught in the presence of stubborn facts.

We are not so foolish to affirm that this gentleman can cure every case or every disease, but when such emphatic testimony as the following is given by one of our most worthy citizens, our better judgment dictates that we ought to wait before we scoff, and test before we condemn.

As a proof of Dr. Darrin's wonderful healing power, we give the case of Miss L. Stanfield, the adopted daughter of Mr. C. Snowden, 323 Mill street, one of our townsmen, who had discharging ear and deafness, to the great grief of her foster parents. They consulted the ablest physicians, who said they could afford her no relief. Mr. Snowden hearing of the wonderful cures made by Dr. Darrin, placed his daughter's case in the doctor's hands. By the use of medicine, combined with electricity, a cure was effected of both the troubles.

This was years ago, and her parents and friends have good reason, as time is the best test, to regard it as permanent. The following card from Mrs. Job Richards, a lady well and favorably known in Salem, speaks volumes for the doctor.

Mrs. Richards' Card. To the Editor: I am more than pleased with Dr. Darrin's treatment and wish you to publish this for other's benefit. For about twenty years I have been deaf. I was cured by Dr. Darrin's new mode of treatment, without pain or inconvenience. I reside at the corner of Shipping and Capital streets, Salem, and will answer all questions. I will add that my little girl is almost cured of discharging ears.

Mrs. Job Richards. Another Salem Man's Testimonial. To the Editor: Seeing so much in your paper concerning Dr. Darrin's cures I was persuaded to try him on my daughter, who has been afflicted with a distressing discharge of the ear and partial deafness for the past four years. Under the doctor's treatment she is healed. I reside at the corner of Commercial and Mission street, Salem, and am engineer in the Capital brewery. Refer to me at either place. J. D. VANOSDOL.

We have seen numerous testimonials of other cases from the most reliable persons who have been cured by him. Dr. Darrin gives free consultation at Willamette hotel, Salem, until September 1st, from 10 to 5, and 7 to 8 daily.

Harvest time is here and numerous things will be needed by those concerned. Let them one and all remember that Mr. Faull keeps everything needed by harvesters. Oils of all sorts and extras of many kinds. And hop men, too, should not forget that he can supply their wants. Tin things of every kind made to order and all manner of kitchen things on hand.

Save time by having Stage Driver Fidler bring what you want from Salem.

As Mrs. Chase makes a specialty of ladies and childrens furnishing goods, that is the best place to go for such things. See her corsets and hosiery.

Blasckmith Lynch beats them all when it comes to shoeing horses.

Some people wonder why Mr. Docksteaders gets such a big per cent of the Dallas livery trade. The main reasons are that he keeps such good looking and comfortable rigs and treats everybody right.

All over this county may be seen pieces of hardware that were bought from John J. Wiseman. He is continually replenishing his stock and always has what the people want.

Have you noticed that new gallery around Dunn's grocery and are you wondering why they put it in. The stock demanded became too large for their premises and it was a necessity to give more room.

The reason why Gaynor's store can afford to keep the largest stock of footwear in town is because they deal in nothing else. They can offer the greatest variety and give the best bargains.

SALEM BUSINESS HOUSES. J. L. Freeland near the court house is now making hop baskets for Polk county people. Go and get yours the first time you are in the city. He has all sorts of second hand things for sale.

Clothes you must have and you should always go where you can get the best for the least money. It is not a matter of rumor, but a well established fact, that Johnson's clothing store gives more general satisfaction than any other in the city. For years and years they have been supplying many Polk county homes with all the clothing needed by fathers and sons. Quality top notch and prices the lowest.

DOES MANHOOD FAIL? (Salem Journal.)

It may sometimes, owing to nervous disorders, but it is hardly ever lost, except in extreme old age. What is called impotency or sexual neurasthenia, is merely weakened power. Underneath the ashes the fire remains glowing. It requires careful scientific treatment to fan it into a bright flame of life and energy. For these cases which have been hitherto the despair of the physician, nothing equals the application of electricity, if by proper current and exact dosage, in combination with the scientific administration of specific medical remedies, which penetrates the secret ambush of disease, exterminating it, root and branch, forever. A rejuvenation follows its use. It produces results because it replenishes the vital tonicity requisite to nervous system. According to Dr. Darrin's peculiar and scientific method of administration, it is a powerful vitalizer, indicated in diseased conditions, due to all kinds of excesses.

Dr. Darrin's Place of Business. Dr. Darrin gives free consultation at the Willamette hotel, Salem, until September 1st, from 10 to 5 and 7 to 8 daily. All curable chronic and private diseases confidentially and successfully treated. Circulars and question blanks sent free to any address and correspondence solicited. Most cases can receive home treatment after one visit to the doctor's office. Batteries and belts furnished, with full directions for their use. Cross eyes, rupture, tumors, varicocele, hydrocele, errors of youth, lost manhood, and stricture cured. The poor treated free, except medicines, from 10 to 11 daily. Those able to pay treated for \$5 a week, or in that proportion of time the case may require.

The Evangelical camp meeting closed last night. There was a good attendance, especially at evening. Last Sunday the tabernacle would not hold all who came. There were several interesting and profitable conventions in connection with it.

Eugene Hayter has been appointed deputy sheriff, and a better man for the position could not be found. His four years service as county clerk proved his worth as an official. No one will ever have cause to complain of the neglect of any duty by either the sheriff or his deputy. That office will be run in the most approved manner. Charlie Syron will take Mr. Hayter's place in Bryan's store.

Tracy, the escaped convict, is still outgeneraling all the officers and their many deputies in the timbered region between Tacoma and Seattle. What he said about killing his partner, Merrill, turns out to be absolutely true, for the body has been found near Chehalis. His acts of daring, boldness and shrewdness are almost beyond belief.

Yocom and George Ball of Ballston; J. Bowles, J. O. Olmstead, Martha Conner, W. D. Wheelson, Henry Clansfield, Joe Savary and Mr. Arnold, of Salt Creek. Most of them have their own separators and they all get 19 cents a pound for the fat and are satisfied that it pays.

Here are the Polk county men who were in the Indian wars of 1845-56: Ab. Byerley, J. L. Collins, Sam. Coad, Milt. Thompson, Jake Burch, Life Laughary, Ben. Hayden, E. C. Key, I. M. Butler, S. H. Tetherow, John Vernon, J. L. Morrison, J. H. Hamlet, Dr. Embree, David Cooper, J. M. Campbell, T. J. Hayter and E. Kimball.

Never before had the Willamette valley so good a hop outlook. Nearly all yards are in good condition, with not much prospect of damage by lice. Any fairly good crop can now be contracted at from 15 to 18 cents. It is no special boom, but the facts seem to justify the figures.

Nearly all hop yards throughout the county are in fine shape and promise good yields. Any grower could now readily contract his crop at from 14 to 16 cents. There will be a big crop of hay and a fair crop of grain. Strawberries were rather scarce and sold well. Pear and cherry crop slim, but plenty of apples. Gardens later than usual but very good. Potato vines indicate a big yield.

Sufferers from coughs, colds, throat and lung troubles need this grand remedy, for it never disappoints. Cure is guaranteed by all druggists. Price 50 cents and \$1. Trial bottles free.
