

Complete Treatment FOR EVERY HUMOUR

Price \$1.00

CUTICURA SOAP, to cleanse the skin of crusts and scales and soften the thickened cuticle, **CUTICURA OINTMENT**, to instantly itching, inflammation, and irritation, and soothe and heal, and **CUTICURA RESOLVENT PILLS**, to cool and cleanse the blood. A SINGLE SET of these great skin curatives is often sufficient to cure the most torturing, disfiguring, itching, burning, bleeding, crusted, scaly, and pimply skin, scalp, and blood humours, with loss of hair, when all else fails.

Millions of People

Use CUTICURA SOAP, assisted by CUTICURA OINTMENT, for preserving, purifying, and beautifying the skin, for cleansing the scalp of crusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and soothing red, rough, and sore hands, for baby rashes, bedsores, and chafings, and for all the purposes of toilet, bath, and nursery. Millions of Women use CUTICURA SOAP in the form of baths for applying CUTICURA OINTMENT, and CUTICURA RESOLVENT PILLS, for many acute, antiseptic purposes which really suggest themselves to women.

CHURCH DIRECTORY.

Presching hours at 11 and 8:00.
M. E. CHURCH.
Presching Sunday morning and evening. Sunday school at 9:45. Epworth league at 7:30. Prayer meeting Thursday evening.—H. N. Rounds, pastor.
M. E. CHURCH, NORTH.
Presching Sunday morning and evening. Sunday school at 10. Epworth league at 7:30. Prayer meeting Thursday evening.—L. C. Smith, pastor.
BAPTIST CHURCH.
Presching Sunday morning and evening. Sunday school at 10. B. Y. P. U. at 7:00. Prayer meeting Wednesday evening.—J. R. G. Russell, pastor.
PRESBYTERIAN CHURCH.
Presching Sunday morning and evening. Sunday school at 10. Christian Endeavor at 7:00. Prayer meeting Thursday evening.—W. T. Ward, pastor.
CHRISTIAN CHURCH.
Presching Sunday morning and evening. Bible school at 10. Junior Christian Endeavor at 3:30. Senior Christian Endeavor at 7:00. Bible class and prayer meeting take place Thursday evening.—

EVANGELICAL CHURCH.
Presching Sunday morning and evening. Sunday school at 10. Christian Endeavor at 7:00. Prayer meeting Thursday evening.—A. A. Winter, pastor.
How to Renovate Crapes.
Evening dresses of crappele fabrics that will not stand pressing may have the wrinkles and creases removed by hanging them in the kitchen for a short time when the teakettle is boiling or the wash boiler sending out clouds of steam. The garments should be slipped on wooden hangers and suspended free from contact with anything. After twenty minutes take into a room which is warm and dry.

How to Take Dents From Furniture.
Dents in fine polished furniture may be removed in the following manner. Lay a number of layers of moistened brown paper over the dent, and put a warm iron over them. The steam will gradually cause the wood to swell and to fill up the dent. It sometimes takes patience, but slight dents which are a considerable mark to furniture may be raised in this way.

How to Bake Tripe.
Cut two pounds of tripe into inch pieces. Peel, slice and fry in a hot fat butter four small onions. When a golden brown, turn them into a deep baking dish. Lay on them the tripe. Sprinkle with salt, pepper and one or two spoonful of flour. Pour over enough milk to cover, then put a tightly fitting lid over the top and bake for two hours.

How to Keep Ribbons Fresh.
In the room of a college girl was discovered a secret for an always perfect ribbon, stock or belt. She had eight or ten little toy rolling pins, such as children use, in her ribbon drawer, and on each she wound smoothly as soon as she took it off a belt or ribbon, fastening it with a tiny pin. The result vanished instantly from her neckwear.

How to Make Egg Cordial.
An egg cordial that will be appreciated in the sickroom needs a tablespoonful of cream, a teaspoonful of sugar, a tablespoonful of brandy and the white of an egg. The egg is beaten almost to a froth, the cream added and the two whipped to a stiff froth. Add the brandy by degrees and serve the cordial at once.

Cause For Mourning.

"During the year that I have been getting manuscripts back from unappreciative editors," said Charles Murray Murray the other night, "I have observed a general tone of apologetic regret in the accompanying notes of rejection, as though the dear editors feared that my feelings might be hurt. Of course I have become so hardened by this time that the return of some of my manuscript fails to arouse any feeling at all, but I must confess that Richard Watson Gilder rather startled me to thinking last month when he sent me back a humorous sketch of which I was especially fond in an envelope with a deep black mourning border and without comment."

Prices in Manila.

Manila's supply of beef, mutton, pork and lamb is drawn chiefly from Australia. The meats retail at the following prices: Sirloin steak, 55 cents a pound; mutton, 40 cents; fresh pork, 55 cents; lamb, 55 cents. Other prices are: Smoked cod, 60 cents a pound; bacon, 60 cents; ham, 65 cents; cheese, 50 cents; hard, 40 cents; turkey, 65 cents; salmon, 35 cents; mackerel, 30 cents; lobsters, \$2 each; butter, \$1 a pound; grouse, \$2.50 each; rabbits, 60 cents; hare, \$1.25; fowl, \$1.50; tame duck, \$1.35; condensed milk, 75 cents a pint.

"Wooden Russia."

The name "wooden Russia," says our correspondent at St. Petersburg, is familiarly applied to the vast forest areas of Russia in Europe, which cover 464,548,000 acres, or 36 per cent of the entire area of the country, yet some fear is felt that the country may be deforested through the carelessness of private owners, and the government is considering steps for the protection of the forest. In Russia houses built of any other material than wood are almost unknown outside the cities, and wood constitutes the principal fuel.

An Ill Omened Title.

There is a proposal in England to revive the somewhat ill omened title of Duke of Gloucester, which was borne by Richard III. before he slew his way to a usurped throne. The title was last revived by George I., who in 1714 made his grandson duke of Gloucester. This young man was not an ornament to the peerage. The dukedom became dormant again when the second of this creation died without issue. Should the title be revived once more it would be conferred probably on one of the Prince of Wales's sons.

Carry a Green Lined Parasol.

It has been a fad for the last few years for girls to be quite regardless of their complexion during the summer, but the girl who is wise will take my advice and carry a parasol, and for the greatest comfort and to prevent all strain and glare to her eyes let her have a dark green lining to it. This lining will not affect in any way the outside covering or the appearance of her parasol.—Mrs. Ralston in Ladies' Home Journal.

Very Dark.

Yeast—They say the darkest hour is just before the dawn.
Crimsonbeak—Yes. Well, I know when I've gone home in the morning and knew my wife was waiting for me things have looked unusually black.—Yonkers Statesman.

Last Resort.

Hotel Clerk to Colonel Cutler of Kentucky: Will you have a pitcher of water sent to your room?
The Colonel—Water! Great guns, ain't there any fire escape?—Indianapolis News.

The Good-nan in us impresses those around us for their good, since good is always stronger than evil.—Ladies' Home Journal.

If you board, look on the bright side. Nothing is better for the system than prunes.—Atchafalou Globe.

Keep Out the Wet SAWYER'S EXCEL SIBOR OIL CLOTHING
The best waterproof garments in the world. Made from the best material and waterproofed with a special process. Made to stand up to the roughest work and weather. If you dealer does not have them, write for catalogue to I. I. SAWYER & SONS, Sole Mfrs., East Cambridge, Mass.

Citation.

In the county court of the state of Oregon for the county of Polk.
In the matter of the estate of James I. Gwin, deceased.—Citation.
To Selton Gwin and Albert P. Gwin, executors.
IN THE NAME OF THE STATE OF OREGON, you are hereby cited and required to appear in the county court of the state of Oregon, for the county of Polk, at the court room thereof, at Dallas, in the county of Polk on

Saturday, October 11, 1902.

At 1 o'clock in the afternoon of that day, and there to show cause why the petition of the administratrix of the above estate, authorizing her to sell the following described real estate, to-wit: Beginning 10.55 chains north of the southeast corner of the northeast quarter of section 36, township 3 south, range 3 west of the Willamette meridian, Polk county, Oregon, and running thence north 40 chains, west 17.66 chains, south 40 chains, east 17.66 chains to the place of beginning; beginning 14.02 chains east and 20 chains south of the 1/2 section post between sections 25 and 26, in township 7 south, range 3 west of the Willamette meridian, said county and state, running thence west 5 chains, thence south 10 chains, thence east 1.80 chains, north 31 degrees, 15 minutes, east 11.60 chains, west 7.76 chains to the place of beginning; also the north half of the southeast quarter of section 16, township 14 north, range 3 west of the Willamette meridian, in Benton county, Oregon, should not be granted.

WITNESS the Hon. J. E. Sibley, judge of the county court of the state of Oregon, for the county of Polk, this 10th day of August, A. D. 1902.
Attest: U. S. Leach, clerk.
By W. F. Nichols, deputy.
Published by order of J. E. Sibley, county judge.

The Quickest Acting Plant Food.

If home mixing of fertilizers is to be done, a definite knowledge should be had of the materials which supply plant food. Nitrate of soda is immediately available for the plant's use as soon as it goes into solution. Its best results are obtained when applied where growing plants can make use of it quickly. Where plants grow in hills or on slopes the nitrate of soda should be applied near the growing plants, but should be thoroughly mixed with the soil. If applied broadcast it would be lost. Nitrate of soda exerts its most beneficial action where immediate results are desired. It is the quickest acting plant food. Dried blood, while not so immediate in its action as nitrate of soda, is very quickly available and as a general supply for nitrogen it is so abundant and cheap. Ammonium sulphate is the richest in nitrogen of any commercial material, usually containing about 20 per cent actual nitrogen. At the present time the cost of nitrogen from this source is greater than from either nitrate of soda or dried blood.—L. A. Clinton.

One Thing and Another.

The bean crop of California in 1901 is stated by the president of the San Francisco chamber of commerce to have been 54,000,000 pounds, or 900,000 bushels.

A considerable foreign demand has sprung up recently for corn oil and corn oil cakes.

According to official statistics, the honey and wax industry shows little if any increase since 1889. Wheat screenings with a small addition of corn make good sheep feed. Plant melons and cucumbers in the open ground toward the last of May. Protect early tomato plants when necessary with paper, cloth or hay, but they will stand a greater chill than is ordinarily believed.

An Interruption.

The prayer meeting was held at good Brother W.'s house on the hill. The meeting had progressed, and prayer and remarks and hymns had occupied the time. The hour of closing had almost arrived. The dominie in a low voice said: "Now there is just a moment left. Isn't there some one who would like to fill in that moment before we close?" There was dead silence when in the twinkling of an eye the door on the clock face open, and out popped the head of a little bird, which said, "Cuckoo!"—Homiletic Review.

Prunes.

Dr. Hanson, writing on the subject of prunes, says: "A pound of prunes is equivalent as food to a gallon of milk and costs but a quarter as much. It is about equivalent to a pound of bread, but is far more healthful. Considered from an economic standpoint, no fresh meat, fish, milk or eggs can be provided for the same moderate cost, and none of them contains, even approximately, the same aggregate of nutritive elements."

Douglas Jerrold in School.

Douglas Jerrold wrote "Black Eyed Susan" when he was twenty-one and contributed to Punch the immensely popular "Candle Lectures" not long afterward. But at nine years of age young Jerrold had been scarcely able to read, and it was not until he was apprenticed to a producer of ink that he showed either desire or capacity for intellectual improvement.

The First London Theater.

The first playhouse to be built in England was the Theater. It was erected in the year 1576, and its builder was James Burbage, father of the famous actor Richard Burbage and himself an actor of some repute. Access to the Theater seems in old times to have been over Finsbury fields. The curtain, which, curiously, is named from the region or old manor on which the playhouse was erected and not from the familiar drapery of the stage, was situated south of Holywell lane, in Moorfields (modern Gloucester street), and is first mentioned in the following year, 1577. Shakespeare's "Honee and Juliet" was among the many plays first acted there. The Theater was moved away to the Bankside, and the old materials were employed in building the Globe, Shakespeare's chief theater, in 1598. The Curtain continued to be used as a playhouse into the reign of King James. No picture of either of these original theaters has been handed down, and owing to their position without the walls none of the old maps represents their precise location.—Lippincott's.

Poor Old Lady Beconsfield.

There is nothing in his life, says Lord Ronald, that redeems more to Lord Beconsfield's credit than the manner in which he treated his wife. She could never have been but a somewhat commonplace though good hearted woman. As she grew old she became a wreck of humanity, but the poor, faded, painted old lady was ever treated by her husband with a deference and regard truly touching. It was painful to see how, in what we are pleased to call the highest society, poor old Lady Beconsfield was made a butt and a laughing stock. Knowing how sensitive Lord Beconsfield was to anything approaching ridicule, I felt how bitter by he must have suffered when in a crowded hall or drawing room his hosts would what they called "draw out old Lady Beconsfield" and laugh at her to her face, showing no reticence, regard or decent feeling for the poor husband, who, imperturbable as he ever appeared, was probably suffering acutely at the conduct of his ill bred hosts.

A Thief, but No Liar.

Magistrate (to new policeman)—Did you notice no suspicious character about the neighborhood?
New Policeman—Shure, yer honor, I saw but one man, an' I asked him what he was doin' there at that time of night. See he 'ave no business here just now, but I expect to open a jewelry store in the vicinity later on." At that I see, "I wish you success, sor."
Magistrate (dugusted)—Yes, and he did open a jewelry store in the vicinity later on and stole seventeen watches.
New Policeman (after a pause)—Begorra, yer honor, the man may have been a thief, but he was no liar.—London Answers.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of **Dr. J. C. Fletcher** and has been made under his personal supervision since his infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its base is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS

Bears the Signature of **Dr. J. C. Fletcher**

The Kind You Have Always Bought

In Use For Over 30 Years.

THE CENTAUR COMPANY, 71 MURRAY STREET, NEW YORK CITY.

For That Itching Sensation.

As it comes time for the cows and young animals to shed their coats, which is usually quite early where the stock is well cared for, there will be an itching sensation that is not pleasant to endure. This will be readily noticed in the stables and more particularly out of doors in the persevering efforts of the animals to ally it by licking and rubbing themselves. Frequent carding and brushing in the stable will help very much in this matter and be greatly enjoyed by the animals.—Dairy and Creamery.

Breed For Better Cows.

The cows on many farms would be considered first class producers if each cow's product amounted to 200 pounds of butter per year, yet it is claimed by some of the best dairymen that 200 pounds of butter per year from a cow do not pay. Those who aim to make the most butter from their herds have the standard up to 300 pounds per year, and some fix the limit higher. Every farmer can have the individual members of his herd reach that amount by breeding for better cows every year.

An electric lamp for miners is a recent invention of a young New York electrician.

The outfit consists of a small bulb to be attached to the hat much as the ordinary lamp is carried. From this run wires to the miners' pocket, in which he carries a small storage battery, weighing three pounds. This may be charged to burn some ten hours. The flameless light makes the device an absolutely safe convenience for use in mines exposed to fire. It also has the advantage of not consuming the precious oxygen when the wearer is working far away from the source of air supply.

New Dead Sea Found.

In the barren wilds of northern Tibet, in a region never before explored by white men, a new dead sea has just been discovered by Sven Hedin, the explorer. Properly speaking, the newly discovered body of water is not a sea; it is a lake. Unlike the Dead Sea of Palestine, which is situated but sixteen miles from Jerusalem and has the river Jordan for a tributary, the Hedin lake is in the center of an almost inaccessible plain and is entirely isolated from all other bodies of water.

OLD PEOPLE

Do not always receive the sympathy and attention which they deserve. Their ailments are regarded as purely imaginary, or natural and unavoidable at their time of life. Disease and infirmity should not always be associated with old age. The eye of the gray haired grandire may be as bright and the complexion as fair as any of his younger and more vigorous companions.

Good Blood is the secret of healthy old age, for it regulates and controls every part of the body, strengthens the nerves, makes the muscles elastic and supple, the bones strong and the flesh firm; but when life fluid is polluted or poisoned, and loses its nutritive, health sustaining elements, then there is a rapid decline of the vital powers, resulting in premature old age and disease. Any derangement of the blood quickly shows itself in an ulcer, sore, wart, tumor or some other troublesome growth upon the body, and rheumatic and neuralgic pains become almost constant, accompanied with poor digestion and cold extremities.

SSS best blood purifier for old people. It does not shock or hurt the system like the strong mineral remedies, but gently and thoroughly cleanses the blood and stimulates the debilitated organs, when all bodily ailments disappear. S. S. S. is just such a tonic as old people need to improve a weak digestion and tone up the stomach. If there is any hereditary taint, or the remains of some disease contracted in early life, S. S. S. will search it out and remove every vestige of it from the system.

Write us fully about your case and let our physicians advise and help you. This will cost you nothing, and we will mail free our book on blood and skin diseases. **THE SWIFT SPECIFIC COMPANY, Atlanta, Ga.**

RIPANS

Ripans Tablets are a common sense, effectual cure for dyspepsia, biliousness, heartburn, headache, constipation, dizziness and all disorders of the stomach, liver and bowels. They are intended for the use of men, women and children everywhere, and have proved beneficial in the majority of cases. It is not claimed that they will perform miracles, but some of the cures which they have effected amount almost to that. Easy to take and prompt in action, they have no rival as the best remedy for the every-day ills of humanity.

A MEDICINE WHICH PROLONGS LIFE.
"I have used Ripans Tablets for a number of years and would not be without them. I was troubled with indigestion and constipation, and have noticed since I have been using them that I am getting rid of those terrible bilious spells which used to be so much a part of my life. I had just got over a bad spell of indigestion when I was sitting on the step, when a neighbor came to me and remarked how bad I looked. I told him I had just got over the fever, and that I was afraid to eat anything on account of indigestion. I have no more headaches and can sleep well; in fact, I feel as light as a feather. I bought a box of Ripans Tablets, and from then I have not been without them. I can eat anything, and I feel as if I have a new lease of life. I feel very thankful that I have found something that will prolong my life."

GASTRIC TROUBLES.

"I had suffered three years at least from gastric troubles. I could not sleep at night. My head ached and my feet would be cold as ice. My bowels were not regular and I would have such cramps from gases forming on my stomach that I would faint away. I was in such distress that I would have sooner died than live. About three months ago I was suffering and felt as if my body was tied up inwardly. My brother recommended Ripans Tablets to me. My husband relieved me of all the foul gases that formed in my stomach, and they cure my bowels regularly for which I had been giving physic all the time. I have no more headaches and can sleep well; in fact, I feel as light as a feather. I bought a box of Ripans Tablets, and from then I have not been without them. I can eat anything, and I feel as if I have a new lease of life. I feel very thankful that I have found something that will prolong my life."

One gives relief

To the Manner Born.

The best bred women do not fuss. They take their gowns and their furniture, their jewels and their children as a matter of course. They are unconscious of their veils and their gloves, and they expect every one else to be equally so. If they see an inmate wearing a handsome gown, they refer to it admiringly, but they also preface their comment with an apology. Their differences with their husbands are not aired; neither are the domestic upheavals caused by the desertion of the cook on wash morning.

Femininity's New Word.

"Foolish" is a word just now much used by femininity, and, like all the words that the sterner sex takes a fancy to, it is employed in divers ways that lexicographers wot not of. "Please fasten these foolish books!" said one young woman to another the other evening.

Women as Librarians.

A field of work for women which seems specially suited to them is the profession of trained librarians. In the United States there are thousands of public libraries, besides private, reference and college and school libraries, and in all these there is said to be an increasing demand for the services of graduates of library training schools. There are three of these large training schools in the United States which are open to women on equal terms with men.

Daughters of Celebrities.

Mrs. Christine Terhune Herriek, daughter of Marion Harland, was talking of the disadvantages that it was to be the daughter of a celebrity. "Whatever one does, she never quite measures up to the reputation of her mother, and she is invariably compared with her." "I don't think it is a handicap," said Mrs. Amelia Barr naively. "My daughters do not find it so. They are beautiful girls."

Double Door Spaces.

An artistic treatment of double door space is an arrangement of one wide portiere drawn to one side in a graceful, sweeping loop. This extends over fully two-thirds of the width. At the other side is a narrow drapery that falls in straight folds. A straight valance is hung across the top and may repeat the decorative border of the portiere, if one is employed.

American bankers learned a long time ago that savings deposits were to be had for the seeking, and several methods of seeking them, particularly by distributing small boxes which can only be opened at the banking office, have been used successfully. The Scientific American says that French bankers have just taken several strides in advance by introducing the automobile savings bank, which tours the country districts at stated intervals and gathers in the savings of the thrifty peasants.

An electric motor car has been built for the purpose. It provides seats for a cashier and two clerks, arranged about a revolving table. There are shelves on the walls for the bankbooks, and a strong box is built into the body of the car. The officials are from the Mezieres treasury administration, and the cashier has power to receive deposits of any amount. As there is no desire on the part of the authorities to facilitate the withdrawal of funds, the peasant is forced to come to the central bank when he needs money. The automobile bank began its rounds some weeks ago and has met with a most favorable reception.

The Scientific American also announces that W. F. Slinger of New York is the inventor of an automatic pump for automobile use in which the vertical motion of the body of the carriage is utilized to getuate a series of pumps for supplying water to the boiler and air to the gasoline tank.

The pistons of the pump are pivotally connected to a pivotally attached vertical post, forming a toggle joint of which the point of attachment to the vertical post is the elbow. The pumps are so spaced apart that the pistons of each are at the end of their respective strokes when the toggle joint is fully extended, so that a movement of the vehicle body either up or down from its normal position drives the pumps. By pivoting the vertical post to its attachment point to the pumps from a side-wise turn of the vehicle is obviated and the action of the pumps is equalized.

Reasons For Pride.

There was present at a certain big dinner in England an American woman of prominence who was somewhat annoyed by a tactless English woman who undertook to banter her and who said: "I take it for granted that you have no coats of arms in your new country."

"Of course no American family could have one unless it was borrowed from English ancestry," replied the former American.

"For instance, has your family any special cause for pride over your grandfather?" persisted this particularly tactless female.

Then the American woman opened up and replied as calmly as possible under the circumstances, "Not much, perhaps, only that my grandfather on my mother's side received Burgoyne's sword when he surrendered at Saratoga and my grandfather on my father's side received the sword of Cornwallis at Yorktown."

DOUBLE BAND OF REWARD

Increased Yields and Better Quality

are every farmer's aim.

Potash

In proper proportion is an essential aid to success. All that the best agricultural authorities have found out about fertilization is told in our books. We mail them free to farmers.

Bright's Disease.

The largest sum ever paid for a prescription, changed hands in San Francisco August 30th, 1901. This transfer involved coin and stock \$112,500 and was paid by a party of business men for a specific for Bright's disease and diabetes, hitherto incurable diseases. They commenced the serious investigation of the specific November 16th, 1900. They interviewed scores of Bright's cured and tried it out on cases on the treatment and watching them. They also got physicians to name chronic, incurable cases and administered it with the physicians for judges. Up to August 29th, eighty seven per cent of the test cases were either well or progressing favorably. There being but thirteen per cent of failures, the parties were satisfied and closed the transaction. The proceedings of the investigating committee and the clinical reports of the test cases were published and will be mailed free on application. Address John J. Fenton Company, 420 Montgomery street, San Francisco, California.

To the Public.

Allow me to say a few words in praise of Chamberlain's Cough Remedy. I had a very severe cough and cold and feared that I would get pneumonia, but after taking the second dose of this medicine I felt better. Three bottles of it cured my cold and the pains in my chest disappeared entirely. I am most respectfully yours for health, Ralph S. Myers, 64 Thirtieth Avenue, West Virginia. For sale by Adam K. Wilson.

For Over Sixty Years.

An old and well tried remedy. Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething, with perfect success. It soothes the child, cures the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. It is pleasant to the taste. Sold by druggists everywhere. Part of the world 25 cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup and take no other kind.
