Renovate brass chandeliers which have become dirty and discolored by washing them with water in which onions have been boiled.

To rid a pantry of insects stir a couple of pounds of alum into four quarts of boiling water. Then take a brush and apply it, as hot as possible, to the tracks and crevices, shelves, etc.

To Independent Women. Fashionable clergymen seldom insert the word "obey" in the marriage service. It is the bride's pet aversion.

Woman's Charter. The best work, says an English writer, in the world is done by those of both sexes to whom love is not the master passion.

An Ancient Foe

To health and happiness is Scrofula—as ugly as ever since time immemorial. It causes blemishes in the neck, disfigures the skin, inflames the mucous membrane, wastes the muscles, weakens the bones, reduces the power of resistance to disease and the capacity for recovery, and develops into consumption.

Hood's Sarsaparilla and Pills will rid you of it, radically and permanently, as they have rid thousands.

DR. DARRIN LEAVES NOV. 1 After a Very Successful Visit to Salem Which Benefited Many Sufferers.

The Doctor Has Been Prevailed on to Stop in Woodburn One Month (Salem Statesman.)

Dr. Darrin, the celebrated specialist, well known throughout the Northwest after a very successful visit in this city in which hundreds of sufferers from all manner of diseases were relieved and in many cases cured, will leave Salem November 1, and stop in Woodburn at Hotel Woodburn until December 1, there being numerous requests for his appearance there by persons wishing to be treated by his electrical processes.

Dr. Darrin has practiced in Paris, London, New York and Portland, and while abroad discovered certain remedies for certain of the most dreaded diseases, and in the treatment of which he gives entire satisfaction.

Numerous testimonials have appeared in this paper during the past six months from those who thought they owed it to the doctor as well as hundreds of like sufferers to speak of the good work that had been done for them.

Many of these are well known to the editor, having been cured when the doctor was here years ago, having spent two months in this city, at which time we became favorably impressed with his good work.

Electricity is the wonder of the age, and the mode of treatment is the acme of perfection. It penetrates the secret ambush of disease and exterminates it, root and branch, forever. It removes the wretched symptoms of loathsome maladies and averts its dreadful effects.

Women as Well as Men

Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition, beauty, vigor and energy, and the cheerfulness soon disappears when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy.
