The Kind of Saeds That Yield. Like everything else there are good seeds and bad seeds. Seeds that grow and seeds that dont grow ; seeds that yield and seeds that dont yield, and a little thought given now to the selection of the seed you'll need, will be

found time well spent, though realised much better at the harvest if you select the world-famed Ferry seeds-the

kind that always yield. For nearly half a century Ferry's Seeds, have been known and sown wherever good crops are grown, until farmer and gardner alike have learned to depend

upon their wonderful reliable growing and yielding qualities, year after year, to the exclusion of all others. It is b tter to pay a little more for the seed and he assured of a great deal more at the harvest by sowing Ferry seeds. The 1903 Seed Annual, which is sent free, postpaid, will be found unusually interesting and instructive. Write Address, D. M. Ferry & for it today.

head; the facial disigurements, as in pimples and ringworm; the awful sur-fering of infants, and anxiety of worm-out parents, as in milk crust, tetter and salt rheum,—all demand a remedy of almost superhuman virtues to success-fully cope with them. That Cuticura Soap, Ointment and Pills are such stands proven beyond all doubt. No statement is made regarding them that is not justified by the strongest evi-dence. The purity and sweetness, the power to afford immediate relief, the certainty of speedy and permanent cure, the absolute safety and great economy have made them the standard skin cures, blood purifiers and humour remedies of the civilized world. Bathe the affected parts with hot water and Cuticura Soap, to cleanse the surface of crusts and scales, and soften the thickened cuticle. Dry, without hard rubbing, and apply Cuticura Oint-ment freely, to allay liching, irritation and inflammation, and soothe and heal, and, lastly, take the Cuticura Resolvent Pills, to cool and cleanse the blood.
