# PAINE'S Celery Compound

THE GREAT MEDICINE.

MR. ALFRED BROWN, A Prominent and Popular Citizen, Says: After the Use of Paine's Celery Compound, I Am Now in the Best of Health."

The greatest of modern physicians, Prof. Edward E. Fhelps, M. D., LL. D., after years of long practice and close scientific study, gave to suffering and diseased men and women his marvelous, life giving prescription, with the conviction and positive knowledge that it had peculiar virtues and ample powers to cure.

Thousands of the strongest testimonials from the best known and most reliable men and women of our country fully sustain the claims made by Dr. Phelps regarding his incomparable Paine's Celery Compound.

One of the most convincing proofs furnished, comes recently from a gentlenan widely known in the capital city of the Dominion of Canada. We refer to Mr. Altred Brown, 91 O'Connor St., Ottawa, Ont. Mr. Brown's

O'Connor St., Ottawa, Ont. Mr. Brown's letter fully demonstrates the fact that the greatest sufferer may cast off his or her burden of disease and become well, strong, and happy.

It proves, too, that the great medicine maintains more fully than ever before its unrivaled

tains more fully than ever before its unrivaled place in the estimation of people of wealth and social standing as well as with the masses.

Mr. Brown says:—

"I acknowledge with thankfulness and pleasure the fact that I have been cured of a very painful illness of eight years' standing by use of Paine's Celery Compound. I had, during the years of my illness, tried almost all the advertised medicines without deriving any good results. I was also treated by several of the best doctors of this city, hoping to find that one of them, at least, would understand my case.

"I was getting wore, and was told I was incurable. I was indeed in a critical condition. I could not go from the house alone, as I was liable to sudden collapse. I tried bospital treatment, but no relief or good results came to me. I could not sleep; anything that I ate increased my agonies; I was extremely weak, restless, tired, and despondent; was obliged to walk about with my hands pressed firmly into my left side to ease my pains; my feet and hands were cold continually; had inclination to vomit, had profuse, cold sweats, quick breathing, and would be racked with pain for hours at a time.

These atmospheric poisons are breathed into the lungs and taken up by the blood, and the foundation of some long, debilitating illness is laid. Chills and fever, chronic dyspepsia, torpid and enlarged liver, kidney troubles, jaundice and biliousness are frequently due to that invisible foe, Malaria. Noxious gases and unhealthy matter collect in the system because the liver and kidneys fail to act, and are poured into the blood current until it becomes so polluted and sluggish that the poisons literally break through the skin, and carbuncles, boils, abscesses, ulcers and various eruptions of an indolent character appear, depleting the system, and threatening life itself. The germs and poisons that so oppress and weaken the body and destroy the life-giving properties of the blood, rendering it thin and watery, must

get rid of Malaria and its effects. S. S. S. does this and quickly produces an editional change in the blood, reaching every organ and stimulating them to vigorous, healthy action. S. S.
