URIC SOL

Uric acid solvent for the uric acid condition

Uric acid is recommended and
guaranteed to cure rheumatism
and other diseases resulting from an
excess of uric acid in the system. In
order to cure rheumatism, it is neces-
sary to dissolve and eliminate the
excess of uric acid in the system and
until this is done, rheumatism
cannot be cured.

Besides being a solvent of the uric
acid, Uricol eliminates the uric acid
from the system, tones up the diges-
tion, stimulates the intestinal glands
and does not injure any part of the
body.

Uricol is particularly useful
in cases of long standing and
chronic rheumatism, because
the patient can take it without
any injurious effects.

URICOL CHEMICAL CO.,

Uricol will be sent to any address in the U. S., prepaid, upon

"For 25 years I have never

been detailed as governor of the Sol-
diers' home near Washington.

Governor Elect Garvin of Rhode Is-
land is a graduate of Amherst college
and of the Harvard Medical school.

W. J. Van Patton, who owns the
farm where Ethan Allen lived before
the Revolution, has decided to present
it to the city of Burlington, Vt., to be
used as a park.

Sir Frederick Treves, the famous sur-
geon, says that he was very lazy as a
student. He never won prizes; in fact,
according to his own account, he never
had the audacity to try for any.

Colonel Daniel Stevens of Bristol, R.
I., has a collection of 3,000 buttons
from armies and navies of many na-
tions. He began his collection in 1882
at Nashville, Tenn., and many of his
buttons are valuable as souvenirs.

siderable money in Chicago for the
Boer cause, has received from the

Peter De Villa, the discoverer of gold
in the Klondike region and once fabu-
lously rich, is now earning a livelihood
by nailing boxes at the Bon Lemonit

WINE OF CARDUI

sun panning for the recovery of one of
the richest mines in the Nome region,
but has no means with which to prose-
cute it.

Once in a while some one
who has traveled
to the very
edge of the
danger line of
stomach dis-
ease stops just
in time to save
his health. But
the majority of
people go across
the line, and slight
symptoms of in-
digestion grow to
disease of the
stomach, involving
the other
organs of diges-
tion and nutrition.
The first symptom
of indigestion
should receive prompt
attention. Indigestion
and other forms of
stomach "trouble" are
permanently cured by
the use of Dr. Pierce's
Golden Medical Discovery.
It strengthens
the whole body by
enabling the per-
fect digestion and
assimilation of food.

"I have been suffering for about eight years,"
writes Mrs. H. Pierce, of Millington, Ky. "I
had several doctors to treat me—some for female
weakness and others for stomach trouble, but
received no relief. When I wrote you for advice
I was told to work with you advised me what
to do. I began to take your medicine and
the effects have been good. I was under the
doctor's care every summer before this. I took
nine bottles, five of Golden Medical Discovery,
four of Favorite Prescription. And two vials
of Peppermint. Dr. Pierce's medicine will do
all that you claim for them. Believe I would
have been in my grave if I had not taken them."

Accept no substitute for "Golden Med-
ical Discovery." There is nothing "just
as good" for diseases of the stomach.

FRILLS OF FASHION.

There are new evening gloves with
silk lacings and jeweled buttons.

New French chevrons are silk dotted
and barred in white, red, black or gold
and brown.

Finely wrought gold and silver cords,
gimps and narrow flat galloons will be
popular for the winter season.

"Drop yoke" is the name given to
some of the gimpings and yokes added
to the tops of the waists of both day
and evening gowns.

Bear fur is one of the fancies of the
season, the shaggy felt accompanying
appropriately the tailor costumes of
zibeline, camel's hair, boucle cloth and
goods of similar rough surface.

The fur pelerine with long flat scarf
ends will supplement many of the
walking costumes of the winter. Some
especially those of seal and sable, with
empire collars and trimmed scarf ends.

Paris made tailor skirts of short gray
camel's hair will be worn under long
French redingotes of black velvet or of
gray black, sable brown, Russian green
or deep Roman red cloth finished with
quaintly shaped collars and sleeves.—
New York Post.

PINFEATHERS.

The laying of unusually large eggs
denotes that the hens are too fat.

Mrs. Fred Unrath,
President Country Club, Benton
Harbor, Mich.

"After my first baby was born I did not
seem to regain my strength although the
doctor gave me a tonic which he consid-
ered very superior, but instead of getting
better I grew weaker every day. My hus-
band insisted that I take Wine of Cardui
for a week and see what it would do for
me. I did take the medicine and was very
grateful to find my strength and health
slowly returning. In two weeks I was out
of bed and in a month I was able to take
up my usual duties. I am very enthus-
iastic in its praise."

Wine of Cardui reinforces the organs
of generation for the ordeal of preg-
nancy and childbirth. It prevents mis-
carriage. No woman who takes Wine
of Cardui need fear the coming of her
child. If Mrs. Unrath had taken
Wine of Cardui before her baby came
she would not have been weakened as
she was. Her rapid recovery should
commend this great remedy to every
expectant mother. Wine of Cardui
regulates the menstrual flow.

POLITICAL POINTERS.

It sometimes happens that a politici-
an is never so much out of place as
when he is in one.—Chicago News.

Some earnest souls get excited be-
cause a platform doesn't suit them, but
the astute politician waits until after
election, and then he doesn't do a thing
to it.—Puck.

Young man, get a job as private secre-
tary to a congressman and then get
elected to congress. The five private
secretaries in the new congress show
how easily the trick is done.—Boston
Herald.

CHRISTMAS CARDS.

Advice for Christmas. "Enjoy the
present."—St. Louis Post-Dispatch.

The Christmas tree kept in the house
until it becomes highly inflammable is
a source of danger and has been re-
sponsible for many fires. It is proper to
call the attention of merchants and
householders to the risk assumed in
many forms of Christmas decorations.
—Philadelphia Ledger.

Great Britain is still the greatest tea
drinking country. The consumption is
five pounds per head of the popula-
tion. In Switzerland it is estimated at
one and a half pounds per head and in
the United States about one pound per
head.

Practical measures are now in pro-
gress with a view to exploiting the vari-
ous conflicts existing in Egypt and
elsewhere on the direct eastern route.
The Egyptian government has granted
concessions for this purpose to Edward
Nicholls, an Englishman.

Siberian merchants are loudly com-
plaining that Manchuria and ports in
Siberia are flooded with American,
German, Japanese and other foreign
goods and that Russian trade is dis-
appearing. Energetic measures are de-
manded, particularly a frontier guard
sufficient to prevent smuggling.
