DEEP RICH PAINTING.

Art Work of A High Order Being Carried Out in A Style That Appeals to All.

There are beauty spots all over nature and there are about as many with which nature never had anything to do. These are the creation of man pure and simple. About the most beautiful creation we have noticed lately, and in a line to which your thoughts of the beautiful are seldom inclined to run, are these handsome vehicles on exhibition at the repository of Wagner Bros. on Main street, Dallas. These deep rich colors in the painting, the piano line finish, the soft and elegant trimmings, and the beautiful lines in the designing of the goods all speak of their unsurpassed quality. It is a well known fact among those versed in this class of goods that the make of the vehicles we carry are the best in the world. And we are told that the prices are very low, even lower than would be asked for the same goods in a New York Repository.

R. & N. track between Bonneville and Cascade locks. The train is stationed at these points and on the arrival of a steamer, passengers and freight are transferred to the train and promptly dispatched to the up or down boat, as the case may be. LAST SUMMER'S WORK.

Permanent Cures Performed by Dr. Darrin in Salem—Now Stopping at the Revere Hotel, Albany.

[Albany Herald.] Among the many cases treated by Dr. Darrin and sent us for publication we select the following, which speaks volumes for the doctor's skill and the permanency of his cures. Mrs. Ross and Mr. Darby are well known in Marion county.

Mr. Darby Cured of Catarrh. Salem, Oregon, June 9, 1903.—Dr. Darrin: For eight years I have been afflicted with catarrh in the head and throat, causing bleeding of the nose. Your treatment by electricity and medicine cured me completely. I will say that for the small amount you charged me, I would not endure the pain ten times the amount I gave you to cure me. I offer you these few lines of testimony with my own free will. Yours truly, C. W. DARRY.

Mrs. Ross' Good Luck. Salem, Oregon, June 15, 1903.—To the editor of the Herald: Dear Sir: I am proud to witness to the public the skill of Dr. Darrin as a physician. Eight months ago I presented myself to him a miserable diseased physical wreck, body and mind, never having a thought of seeing a well day again, but hoping to receive from him some temporary relief. One year ago I did not dare take a mouthful of solid food in my stomach. I lived on soup and cocoa on account of my intense suffering—apparently afflicted with an acute and incurable disease in my stomach. I took the treatment of Dr. Darrin three months and have since been able to sit down to any kind of food, and relish it to my satisfaction, never fearing any evil results. My afflictions were chronic dyspepsia, constipation, liver and kidney complaints, pains in the heart and lungs and diseases peculiar to my sex. Now life is a pleasure and I am a stranger to pain in any form. Have not had such health in twenty years. I feel lifted into a new world and enjoy all things on account of feeling well again. Publish this that others may be benefited. Refer your readers to me at Salem, Oregon. Very respectfully, Mrs. Beniah H. Ross.

Dr. Darrin's Place of Business. Dr. Darrin is located at the Revere Hotel and will give free examination to all. 10 to 5 and 7 to 8 daily. Regular Trains Running.

G. T. Gurlinger, superintendent of the Salem, Falls City and Western railway, has returned from a business trip to California. He is daily expecting another engine to help haul the traffic. The road has been well ballasted and trains are now running on regular time. The distance to Falls City is nine miles and the run each way consumes 40 minutes. Trains leave here at 7:20 and 1:20 and there at 9:20 and 3:40, the fare each way being 35 cents. Feres, five miles from Dallas, is a regular station and there is a side track at Gilliam's. Many people, produce and merchandise will go over the line, but the principal traffic will be lumber.

Deafness Cannot Be Cured. By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. Cheney & Co., Toledo, O. Sold by druggists, 75c. Hall's Family Pills are the best.

Close of Perrydale School. Miss Rosa E. Smith, of Mounmouth, closed our school on the evening of June 19th with appropriate exercises. The church was beautifully decorated with evergreens and roses. The arch under which the class sat was covered with evergreens, the background consisting of ferns, and from the center hung a large horse shoe covered with pink roses, their colors being pink and green. The children did their parts well and deserve much credit. President C. C. Poling gave a very instructive address to the class and then Superintendent C. L. Starr presented eight grade diplomas in a very pleasing manner to Pearl Ragner, Carrie Finney and Ben. J. Werner.

Loved not Wisely. Dan. Hoffman, who has lived on Salt creek for some 20 years, has had several experiences in the direction of matrimony, but by the side of his friends managed to escape the net set for him until a few months ago. The story goes that in a lawyer's office in Salem he met a woman and they formed a mutual admiration society, which ripened into matrimony. She went to his home, but things became monotonous and she drifted back to the city. He had some money and was persuaded to mortgage his home for \$400 so that they might go east to visit his brother. She managed the finances, bought the tickets and they started, but he soon found himself drifting back home without wife or money. Such is the story in part with most of the spice left out.

Startling Evidence. Fresh testimony in great quantity is constantly coming in, declaring Dr. King's New Discovery for Consumption, Coughs and Colds to be unequalled. A recent expression from J. T. McFarland, Bentonville, Va., serves as example. He writes: "I had bronchitis for three years and doctored all the time without being benefited. I then began taking Dr. King's New Discovery, and a few bottles wholly cured me." Equally effective in curing all lung and throat troubles, consumption, pneumonia and grip. Guaranteed by all druggists. Trial bottles free, regular sizes 50c and \$1.

Falls City, July Fourth.

Arrangements are being completed for one of the biggest times that ever came along. The procession will at 10 o'clock march to the park, where there will be band music, singing and speaking, to be followed by an old fashioned basket dinner. In the afternoon the race will be a horse race, a pony race, a race by girls, one by boys and another for everybody. To increase the fun there will be a sack and a wheelbarrow race and one by the three legged fellows. Several chaps will eat pie for pay and others will try to climb a greasy pole. Fire works will go off and up at 9:30 in the evening. There will be several trains to and from Dallas.

Some Local History. In the early fifties Theodore Tharp erected a \$20,000 grist mill where Falls City now stands. Wheat was then worth \$5 a bushel, and he sold flour at \$5 a sack. Hundreds of barrels were loaded at that mill with flour for the California mines. He also had a saw mill just above the grist mill. At the same time tons of flour were being taken from Nesmith's mill on mules to the mines in Northern California. In 1855 George Tillotson and Solomon Tetherow erected a saw mill on the Luckiamute above Tharp's mill and furnished material for many buildings down in the valley. The house recently moved from opposite the home of Monroe Miller has a history in connection with said mill. On the corner where Dr. Hayter's new home now stands George Tillotson erected it in 1859, the land having originally belonged to Solomon Shelton, who donated it to La Creole academy. After living there for 18 years Mr. Tillotson sold it to J. L. Collins, who occupied the premises for a dozen years.

A sister of Mrs. C. L. Hopkins with her children arrived at Falls City this week. The sisters had been apart for ten years.

His Last Hope Realized. [From the Sentinel, Gebo, Mont.] In the first opening of Oklahoma to settlers in 1889, the editor of this paper was among the many seekers after fortune who made the big race one fine day in April. During his traveling about and afterwards his camping upon his claim he encountered much bad water, which together with the heat, gave him a severe diarrhoea which it seemed almost impossible to check, and along in June the case became so bad he expected to die. One day one of his neighbors brought him one small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy as a last hope. A big dose was given him while he was rolling about on the ground in great agony, and in a few minutes the dose was repeated. The good effect of the medicine was soon noticed and within an hour the patient was taking his first sound sleep for a fortnight. That one little bottle worked a complete cure, and he cannot help but feel grateful. The season for bowel disorders being at hand suggests this item. For sale by Wilson Drug Co.
