BRIGHT'S DISEASE.

The largest sum ever paid for a prescription changed hands in San Francisco, August 30, 1901. The transfer involved in coin and stock \$112,500, and was paid by a party of business men for a specific for Bright's disease and diabetes, hitherto incurable diseases.

They commenced the serious investigation of the specific November 15, 1900. They interviewed scores of the cured and tried it out on its merits by putting over three dozen cases on the treatment and watching them. They also got physicians to name chronic incurable cases, and administered it with the physicians for judges. Up to August 28th 87 per cent of the test cases were either well or progressing favorably.

There being but thirteen per cent of failures, the parties were satisfied and closed the transaction. The proceedings of the investigating committee and the clinical reports of the test cases were published and will be mailed free on application. Address John J. Every family should have several good newspapers, especially during the coming long winter evenings. Please tell your neighbors and friends of the above offer.

Vigilant County Official.

This county never had a more efficient assessor than the present one. Mr. Myer is everlastingly at work on the records, getting them in better and better shape. Many a piece of property that had escaped previous assessors he had unearthed and is making it help to pay the taxes. He keeps a watchout at the land office and as soon as a government claim becomes private property puts it on the taxable list. He has just received from the state land board a statement showing that within three years they have sold 7752 acres of land in this county. Comparing said record with his books he finds that the deeds to 3,947 acres of said land had never been recorded and had therefore escaped taxation. Now he will see to it that said land at once gets on the taxable list.

The grocery of Dunn Bros. was not closed up by their creditors but because they themselves thought it discreet to stop, take an invoice and be sure of their financial condition. It is probable that they will resume business.

Proverbs

"When the butter won't come put a penny in the churn," is an old time dairy proverb. It often seems to work though no one has ever told why.

When mothers are worried because the children do not gain strength and flesh we say give them Scott's Emulsion.

It is like the penny in the milk because it works and because there is something astonishing about it.

Scott's Emulsion is simply a milk of pure cod liver oil with some hypophosphites especially prepared for delicate stomachs.

Children take to it naturally because they like the taste and the remedy takes just as naturally to the children because it is so perfectly adapted to their wants.

For all weak and pale and thin children Scott's Emulsion is the most satisfactory treatment.

We will send you the penny, i. e., a sample free.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

SCOTT & BOWNE, Chemists, 409 Pearl St., N. Y. Geo. and \$1.00; all druggists.
