It was lack of skillful drilling worked against almost perfect team work. Our college team has some doubts about beating the agricultural college boys.

— A CURE FOR COLDS. —

How to Make a Remedy That Has Proved of Great Value.

The following recipe has been successfully used in our household for many years and is one which has proved of the greatest value to us and to our friends. Says a writer in the Woman's Home Companion.

Take a large tencupful of linseed, 5 cents' worth of pure stick horseradish and one-fourth of a pound of Valencia raisins. Put these into two quarts of cold water, place on the stove and let simmer over a slow fire until it is reduced to about half. Take off and strain through cheese cloth or fine linen, place it on the stove again, adding one-fourth of a pound of sugar candy (or rock candy). Pound the candy until it is quite fine, and when it is dissolved pour the whole into a jar or sealer, cover and place in the cool.

Take half a pint of this mixture on going to bed, adding the juice of half a good sized lemon and a tablespoonful of old rum to the quantity you are about to take. The two latter ingredients are best added only to the quantity about to be taken, as if added to the whole it is apt to grow flat. Rip the raisins lightly with a sharp knife, so that all the goodness may be obtained.

White wine vinegar may be used in the place of lemon juice, but the latter is much to be preferred. Some may find a little difficulty in obtaining the rock candy, but a little perseverance will be amply repaid. None need hesitate in the using of this remedy, for if taken in time it is not too much to say that it is infallible. It has been known to cure colds in less than three weeks that have almost settled into consumption.

Installation of circle officers by N. F. Gregg.  
Song—Ladies Trio.  
Recitation—Henry Butler.  
Installation of Woodmen officers by Henry Butler.  
Song—F. W. Royal.

After the program was finished supper was announced and to say that the table groaned with the weight of good things would be putting it mild, but as members of both circle and Woodmen are healthy, hearty lot it would have surprised a Kansas cyclone to have seen the destruction that was wrought. After supper the chairs and tables were moved back and a good old fashioned play party was enjoyed by all until the clock gave warning that the Sabbath was not far off. All agreed that if possible this was the most enjoyable occasions ever participated by Ballston camp and circle.

### BRIGHT'S DISEASE.

The largest sum ever paid for a prescription changed hands in San Francisco, August 30, 1901. The transfer involved in coin and stock \$113,500, and was paid by a party of business men for a specific for Bright's disease and diabetes, hitherto incurable diseases.

They commenced the serious investigation of the specific November 15, 1900. They interviewed scores of the cured and tried it out on its merits by putting over three dozen cases on the treatment and watching them. They also got physicians to name chronic, incurable cases, and administered it with the physicians for judges. Up to August 25th 87 per cent of the test cases were either well or progressing favorably.

There being but thirteen per cent of failures, the parties were satisfied and closed the transaction. The proceedings of the investigating committee and the clinical reports of the test cases were published and will be mailed free on application. Address John J. Fulton company, 409 Washington street, San Francisco, California.
