HEALTH

is the
Most Important

In buying food-products, several things are to be thought of—i. e., Economy, Results, Easy Handling, Reliability, but the most important is Health.
Health means everything. In buying clothes, shoes, hats, furniture, etc., if the buyer is deceived and gets an imitation the only harm is loss of money. In buying food-products, if imitations are supplied, there is not only a loss of money, but perhaps an injury to health—which is beyond price.

Remember these facts when buying baking powder.
