hair food. It feeds, nourishes. The hair stops falling, grows long and heavy, and all dandruff disappears.

"My hair was coming out terribly. I was almost bald to the roots. But Ayer's Hair Vigor promptly stopped the falling, and soon restored the natural color."

Consumption

The only kind of consumption to fear is "neglected consumption."

People are learning that consumption is a curable disease. It is neglected consumption that is so often incurable.

At the faintest suspicion of consumption get a bottle of Scott's Emulsion and begin regular doses.

The use of Scott's Emulsion at once, has, in thousands of cases, turned the balance in favor of health.

Neglected consumption does not exist where Scott's Emulsion is.

Prompt use of Scott's Emulsion checks the disease while it can be checked.

Clothes With Style to Them

Men are often critical folks—they know exactly what they want when going to buy clothes. Critical men can come here with a preconceived idea of what they want and their desires will be satisfied in every detail.

Our trousers have the proper hang; they break neatly over the shoe, drop gracefully from the thigh and button comfortably around the waist. The vest fits correctly and retains its shape. The coat sets well around the shoulders and under the arms and drapes properly in the back. In fact they are good clothes through and through.

To be well dressed is, after all, as much a matter of judgment as of money. It merely involves good judgment in selecting a reliable value at a price consistent with the quality. Our clothing is reliable and is sold at the very lowest prices, which the quality of the goods and a safe business policy warrant.
