LOCAL AND GENERAL.

WHAT WE HAVE LEARNED DURING THE WEEK FROM ALL AROUND

Able Sources Dished up for Our Numerous Family of Readers in Abreviated Paragraphs.

Will Yeater and wife of Bridgeport have a new girl.
E. A. Millshus bought the C. E. Mc Lane place at Suver.
Mrs. Lark Hall of Salem is among Eastern Oregon friends.
Clad Lewis took 450 goats to Mr. Willoughby at Eddyville.
Frank Loughary and wife of Lucinette have a new born boy.
Albert Mier who had lived north of town is going to visit his native Switz erland.
Jesse Applegate who settled on Salt Creek in 1845 is in the soldiers home at Roseburg.
George Stull who was in our jail so long for having too many wives has been released.

Ben Whitesaker and family have moved from Independence to their country home.
Mrs. W. L. Phillips and daughter who live west of Airlie will make a long visit east.
Mrs. P. A. Johnson of Pelee has been visiting her daughter, Mrs. Tartter of Corvallis.

Mrs. Albert Martin has been up from Junction City at the home of her parents, N. L. Butler and wife.
Modish bricks of ice cream can be ordered at W. H. Roys. Be sure and get the famous Hazelwood ice cream.

The attractive and convenient Evangelical church is nearing completion and will be dedicated early in the fall.
Charlie Conger who has worked at the sawmills around Dallas and Fall City died near Buellford drinking too much alcohol.

Miss Alechia Jones formerly of Dallas and Miss Stella Robbins who was raised near Zena have been granted state teachers certificates.

There is now in force a city ordinance forbidding the staking of any stock on any street, alley or so that it can get on any sidewalk. There had come a crying need for such a requirement.
Up to next Monday the county court will receive bids for a three bent bridge and 46 foot fill at the Osborn place north of Independence, also for a concrete arch and fill at the Hirschberg place north of Independence.

There is weeping and gnashing of teeth among the Portland wholesale liquor dealers because the local option law will soon begin to tell their receipts. Because it will hurt their business they think it not good for the county. Their trade from Eastern Oregon alone amounts to about \$2,000,000 annually. Hereafter most of that will be more usefully spent, there will be fewer drunkards and more happy and prosperous homes. What- ever lessens the traffic in strong drink is so much of a blessing to humanity.

The Rathbone sisters of Falls City are highly elated over the success of their Poverty ball. The music was furnished by the Independence orchestra, and quite a number came from Monmouth and Dallas by special motor. The floor managers were Roy McMurphy, Valoris Dennis, John Chamberlain, Mrs. A. M. Vassall, Mrs. Rena Waterhouse and Nellie Ford. The prizes for the best representatives of poverty were given to Mrs. Rena Waterhouse and Harold Lov, of Falls City. About fifty numbers were sold and a neat little sum realized.

There is a state law which positively says that saloons shall not be kept open on Sunday. Fifteen Salem grog shops monkeyed with said law on a recent Sunday when there was a big excursion in town. Prof. Drew of the Willamette university informed against them and when arrested they prepared to fight the case but later on decided that the cheapest way out of it was to pay the fine of \$10 and costs of \$5.50. The saloons of both Dallas and Independence are inviting the same fate. Again we say there is a state law fruiding the opening of saloons on Sunday.

LETTER LIST.

These letters remain uncalled for in the Dallas postoffice for the week ending June 13th, and parties calling for them will please state that they have been advertised:
Mrs. Magda Campbell and family,
Mr. William Curry
Mr. C. C. Garfield
Mr. Alton Hayes
Mr. G. H. Hancock
Mr. R. M. Wagner,
A. J. Hieley, Esq.
Miss Elma Harris,
W. M. Miller,
Mrs. Clarence Marchant,
Charles McDonnell,
Ewen Marden,
Mrs. M. H. Miller,
Miss Ida Roberts—2.

C. G. COAD, postmaster.

REDUCED EXCURSION RATES.

From S. P. and C. & E. Points to the Seaside and Mountain Resorts for the Summer.

On and after June 1, 1904, the Southern Pacific in connection with the Corvallis & Eastern railroad, will have on sale round trip tickets from points on their lines to Newport, Yaquina and Detroit at very low rates good for return until October 10, 1904. The days ticket to Newport and Yaquina, good going Saturdays and returning Mondays, are also on sale from all east side points, Portland to Eugene inclusive, and from all west side points, enabling people to visit their families and spend Sunday at the seaside.
Season tickets from all east side points, Portland to Eugene, inclusive, and from all west side points, are also on sale to Detroit at very low rates with stop-over privileges at Mill City or any point east, enabling tourists to visit the Santiam and Breitenbush hot springs in the Cascade mountains, which can be reached in one day.
Season tickets will be good for return from all points until October 10. Three days ticket will be good going on Saturdays and returning Mondays only. Tickets from Portland and vicinity will be good for return via the east side or west side at option of passenger. Tickets from Eugene and vicinity will be good going via the Lebanon-Springfield branch if desired. Baggage on Newport tickets checked through to Newport; on Yaquina to Yaquina only.
Southern Pacific trains connect with the C. & E. at Albany and Corvallis for Yaquina and Newport trains on the C. & E. for Detroit will leave Albany at 7 a. m., enabling the tourists to the hot springs to reach there the same day.
Full information as to rates, with beautifully illustrated booklet of Yaquina bay and vicinity, time tables etc., can be obtained on application to Edwin Stone, manager C. & E. rail road, Albany; W. E. Comar, G. P. A. Southern Pacific Co., Portland, or any S. P. or C. & E. agent.
Rate from Independence to Newport \$4.20; from Independence to Yaquina, \$3.70; three days rate from independence to Newport, \$2.55.

SHERIDAN.

Roy Stockton has returned from Eugene.
Frank Tatom and wife have a ten pound boy.
We are to have a Fourth of July celebration.
Miss Myrtle Gardner has finished her school north of here.
Chas. Drumeller has had the road to Mill Creek well gravelled.
E. N. Branson has rented the 300 acre Riggs farm on Salt Creek.
J. W. Bewley has bought the livery business of McLaughlin & Brower.
Faulcner & Son have sold their stock of goods to S. A. Cowan from Tennessee.
Mrs. Etta Sunderland was married at the home of Wm. Armitage to a Portland man.

Thrown From Wagon.

Mr. George K. Babcock was thrown from a wagon and severely bruised. He applied Chamberlain's Pain Balm freely and says that it is the best liniment he ever used. Mr. Babcock is a well known citizen of North Flan, Conn. There is nothing equal to Pain Balm for sprains and bruises. It will effect a cure in one third the time required by any other treatment. For sale by Wilson Drug Co.

MARKET REPORT.

(Corrected weekly by Goodrich Bros.)
Wheat, per bushel, 75 cts.
Bran, per ton \$22
Middlings, a ton, \$25.
Shorts, per ton, \$23.
Oats, per bushel, 30 cts.
Flour, per barrel, \$3.50.
Flour, per sack, \$1.
Buckwheat flour, \$2.50 per cwt.
Germes, \$1.50 per cwt.
Corn meal, \$2.50 per cwt.

SLEEPING OUTDOORS.

With the mercury 30 degrees below zero two Meriden (Conn.) women have been sleeping all night in the open air on the verande of their home.
They are both consumptives. Last July their cases were declared hopeless. As a last resort a physician advised sleeping in the open air. They have not slept a night indoors since. Throughout the winter they have established their bed on an upper veranda promptly at 9 p. m. Their bedclothing has consisted of one blanket and one comfortable. In case of rain or snow a rubber covering is used. On extremely cold nights an extra blanket is added.
Their physician says both women have lost nearly all trace of tuberculosis and that three months more of heroic treatment will cure them. The complexion of both has become a ruddy brown from exposure, and indoors they complain of the heat if the temperature of the house is over 50 degrees. One of them has gained twenty-five pounds in weight, and both have hearty appetites.

A Curious Heater.

The curious electric heater of M. Camille Herrigot consists of conducting wires woven into carpets and other fabrics, and it is designed to give a moderately high temperature to the floor, hemp, cotton, linen or silk. It does not affect the pliability or appearance of the material. It is claimed that the heater is perfectly safe and that the wires cannot be raised above a certain temperature. The arrangement can be applied to many purposes. Carpets, rugs, etc., can be kept at the temperature of the body or higher, and dry or wet medical applications can be

Sued By His Doctor.

"A doctor here has sued me for \$12.40, which I claimed was excessive for a case of cholera morbus," says R. White, Coachella, Cal. "At the trial he praised his medical skill and medicine I asked him if it was not Chamberlain's Colic, Cholera and Diarrhoea Remedy he used as I had good reason to believe it was, and he would not say under oath that it was not." No doctor could use a better remedy than this in a case of cholera morbus, it never fails. Sold by Wilson Drug Co.

Ayer's

To be sure, you are growing old. But why let everybody see it, in your gray hair? Keep your hair dark and rich and postpone age. If you will

Hair Vigor

only use Ayer's Hair Vigor, your gray hair will soon have all the deep, rich color of youth. Sold for 60 years.

White Hair

A GERMAN SOLDERING IRON
Bunsen Burner Takes the Place of the Old Hand Furnace.

The thirteenth of this century will not think of carrying around with him a big pot of charcoal in which to build a fire and heat his soldering irons, says the Philadelphia Record, but will instead connect his iron to an incandescent electric light socket or a gas jet, obtaining his heat from either the current or flame. An extremely practical iron of the latter class has recently been placed on the Berlin market. As is apparent from the illustration, the copper bit which comes in contact with the solder to melt and apply it to the

IRON WITH SELF HEATING BIT.

metal is movable and can be placed at any desired angle. By virtue of this form of construction the iron is of great convenience in soldering metallic objects so located as to be difficult of access.
A Bunsen burner is used to generate the heat, which is utilized to its fullest extent, owing to the prevention of radiation by the open space beneath the copper bit and the concentration of the flame of gas and air directly on the bit itself. This system of heating develops a sufficiently high temperature to permit of the employment of a comparatively small piece of copper in the bit and also economizes in the amount of gas consumed.
It is reported that a soldering iron of this kind, which does the work of an ordinary soldering iron, possessing a heavy copper bit, consumes only about three and one-half cubic feet of gas per hour. The size of the flame can be regulated at will, while the apparatus can be attached to any gas jet and operated without the aid of bellows. The short length still comparatively light weight of the iron make it a most convenient tool to manipulate.

CHURCH TEMPLANCE SOCIETY'S WORK.

The twenty-second annual meeting of the Church Temperance society was held recently in New York city. Bishop Leighton Coleman of Delaware presided. The annual report of the society spoke of the work of the saloon substitutes, among them the Squirrel Inn at 131 Bowery. In the year there have been 65,865 attendances, an average of 257 a day. The restaurant has supplied a good dinner at 15 cents. The high price of provisions, however, has made it difficult to supply a good meal for so small a sum, and the loss has been \$500 on the year's work. The society began the year with a deficit of \$1,000, but through the aid of the Women's Auxiliary begins the year 1904 with a balance on hand of \$23,602.

ALCOHOL'S AWFUL DEATH ROLL.

During the last thirty years there died in Europe alone of alcoholism a total of 7,500,000 people. That is more people than were killed in all the wars of the nineteenth century. The authority for these statements is Matti Helander, a member of the faculty of the University of Denmark, who goes on to show that in Denmark one out of every seven men who die between the ages of thirty-five and fifty-five is a victim of alcoholism.

ENGLISH BEER CONSUMERS.

The per capita consumption of beer in Great Britain is 4 per cent greater than in Germany, commonly supposed to be the great beer drinking country in the world.
Captain John Anderson, U. S. A., of Belchertown, Mass., has been detailed as professor of military science and tactics at the Massachusetts Agricultural college.

ABANDONED FARMS GOING.

Summer Residents Are Buying Them In New Hampshire.

Governor Bachelder, lecturer of the national grange, has issued an address on New Hampshire's abandoned farms. In which he says:
"An encouraging feature of New Hampshire life at the opening of the new year is the extent to which the state's abandoned farms have been adopted by prosperous and well pleased foster parents. The first statistics collected by the commissioner show 1,343 abandoned farms within the state. The proportion of unoccupied farm land within the state grows less with each year that passes.
"By far the larger number, however, of the purchasers of New Hampshire's abandoned farms have been summer residents, vacation visitors, permanently domiciled for from two to eight months of the year among our hills. A canvass of such residents, now being made by the state board of agriculture and not completed at the time of writing, has given thus far the names of 2,100 owners of summer homes in our state, most of the said homes having been created from what were once abandoned farms.
"It is estimated that these 2,100 adopted sons of the state, by them selves, their families, their guests and their employees, add to the population of New Hampshire every summer a least 20,000 people. Their holdings of real estate represent a permanent investment of \$5,000,000, and their annual expenditures for all purposes within the state are at least half a much."

TRAINING DEAF MUTES TO HEAR.

To train deaf mutes to hear and to measure their sense of hearing have been subjects of experiment in Europe by Dr. Marjage. A silver giving vowel sounds was used, and the intensity of the sound as it became audible became progressively less, many cases of complete deafness being thus made to give place in six weeks to the power of hearing ordinary sounds. The treatment proved to be pleasing instead of fatiguing or painful. The hearing was measured at different stages of the treatment by the air pressure necessary to make the siren audible, and the results were claimed to indicate that few persons are deaf and dumb beyond all cure.

PHOTOGRAPHING NERVE ACTION.

Dr. Charpentier in a communication before the Paris Academy of Sciences described an interesting discovery as to the possibility of photographing muscular and nervous activity on a plate covered with a layer of platinum cyanure of barium.
Nervous sensations and impressions and muscular efforts are flashed on the plate and produce a special fluorescence, showing for instance, the action of the heart and muscles of the interior of the body.

EUROPE'S OBJECT LESSON.

Bishop Colton's Timely Pronouncement Against Sunday Opening.

Bishop Colton of the diocese of Buffalo has announced himself as strongly opposed to any measure for the Sunday opening of saloons in New York city and Buffalo. It is the first time that Bishop Colton as bishop has felt called on to make a statement through the press on a public question. The statement says in part:
"From my standpoint as a Catholic bishop the opening of a saloon or place where drink is sold on any part of Sunday is objectionable. It is the spirit of the Catholic church to keep the Lord's day for rest and spiritual observance, and anything that would clash with the religious observance of the day is something that the Catholic church in this country is opposed to.
"There have been in Europe and results from the allowing of the sale of intoxicants on Sunday—namely, it broke in on the religious character of the day, and instead of seeing, as we do here in America, a quiet, restful and religious day it takes the character of a day given up to pleasures of every kind which are oftentimes sinful. We should take warning by them and not give way to the small minority, for once our American Sunday is lost to us we shall never, like them, be able to regain it."

A RACE FOR LIFE.

Spurring his jaded horse to renewed efforts when the animal should be refrained with proper food and rest, is about as sensible as prescribing nerve tonics, alcoholic compounds, coca mixtures and cocktails which only spur on the already weakened nervous system. Neither does it do to put the nerves to sleep with narcotics. When the nerves are broken down, jaded, and feel the effects of brain tea as well as nerve weakness, sleeplessness and fatigue, take Dr. Pierce's Golden Medical Discovery, a tonic which will do you lasting good, build you up, increase your appetite and strength and improve the condition of the blood. When the blood is impoverished the nerves feel the effect. Nervousness in nine cases out of ten is the cry of the starved nerves for food. Feed the nerves on rich blood and all nervous manifestations will cease.
"It has been seven months since using Dr. Pierce's Golden Medical Discovery, and I only need three bottles of the medicine when it made me feel like a new man," writes S. A. Miller, Esq. (care of Mr. Ames Hyde, R. D. 10, Dayton, Ohio). "I had doctored with two local physicians without benefit. I felt all worn out, and had an awful misery in my back for two years but noticed a change for the better when I began using your 'Golden Medical Discovery.'"
To gain knowledge of your own body—in sickness and health—send for the People's Common Sense Medical Adviser. A book of 1000 pages. Send 21 cents in stamps for paper-covered, or 31 stamps for cloth-bound copy. Address Dr. R. V. Pierce, 663 Main Street, Buffalo, N. Y.

THEDFORD'S BLACK-DRAUGHT

"I had Thedford's Black-Draught a good medicine for liver disease. It cured my son after he had up at 1700 with doctors. It is all the medicine I take."—MRS. A. OLIVE MARTIN, Parkersburg, W. Va.
If your liver does not act regularly to your sluggish and secure a package of Thedford's Black-Draught and take a dose tonight. This great family medicine frees the constipated bowels, stirs up the torpid liver and causes a healthy secretion of bile.
Thedford's Black-Draught will cleanse the bowels of impurities and strengthen the kidneys. A torpid liver invites colds, biliousness, chills and fever and all manner of sickness and contagion. Weak kidneys result in Bright's disease which claims as many victims as consumption. A 25-cent package of Thedford's Black-Draught should always be kept in the house.
"I used Thedford's Black-Draught for liver and kidney complaint and found nothing to equal it."—WILLIAM COFFMAN, Marshfield, Ill.

THEDFORD'S BLACK-DRAUGHT

Thedford's Black-Draught is a 25-cent package of Thedford's Black-Draught should always be kept in the house.

Thedford's Black-Draught is a 25-cent package of Thedford's Black-Draught should always be kept in the house.
