DR. DARRIN AT WORK.

The Celebrated Specialist at the Hotel Corvallis.

[Corvallis Gazette]

Dr. Darrin, the celebrated specialist, and wife, arrived in this place Tuesday, and have offices at the Hotel Corvallis where the doctor will administer treatment to the afflicted. Dr. Darrin needs no recommendation, for the wonderful cures effected by him throughout the state during his many years of practice in Portland speak for themselves and are living testimonials of his superior skill and success in the treatment and cure of the most stubborn and aggravated cases of chronic diseases. We have known the doctor personally and have come face to face with many of his patients after being successfully treated by him. In our business relations we have always found him to be strictly reliable and a gentleman of prompt and practical business methods. His treatment by medicine and electricity has become so popular with the afflicted that his patients do not seek in vain for relief from the ills that flesh is heir to, which is positive proof of the superiority of his electrical treatment over all other methods of cure.

The doctor makes a specialty of all diseases of the eye, ear, nose and throat, catarrh, deafness, bronchitis, laryngitis, hoarseness, liver, bladder and kidney diseases, or those who suffer from spathy and indigestion; also genito-urinary and skin diseases in either sex, such as blood taint, seminal weakness and lost vigor, varicocele and stricture. Eyes tested and glasses fitted.

All curable chronic diseases treated at \$5 a week, or in that proportion of time that the case require. No case published except by permission of the patient. All business relations with Dr. Darrin strictly confidential. Electrical appliances furnished.—One visit is desirable, though many cases may be treated by home treatment by writing symptoms.

Office hours from 10 a. m. to 5 p. m.; evening 7 to 8. Sunday 10 to 3. The worthy poor will be treated free except medicine, according to his time honored custom from 10 to 11 a. m. daily.

Among those successfully treated may be mentioned Senator Geo. Chandler's son, of Baker City, who had heart and general debility; cured and gained 30 pounds.

J. A. Linsay, of the Southern Pacific, residence Mt. Tabor, Or., is happy over the cure of consumption, bronchitis, and catarrh, performed by Dr. Darrin eight years ago. He gained 24 pounds and kept it ever since. Mr. Lindsay was great cause for rejoicing.

Mrs. P. Hayes' daughter on Twentieth street, Portland, is happy over the cure of a large goitre (large neck) of several years standing. She was treated by Dr. Darrin's electrical treatment many years ago.

Mrs. T. B. Hatfield's son, 214 Eleventh street, Portland, was cured six years ago by Dr. Darrin. His trouble was discharging ears and deafness.

H. A. Curtis, 317 Church street, Salem, considers himself perfectly cured of deafness by Dr. Darrin's treatment.

Fred. Neckerman, of 110 State street Salem, is very enthusiastic over his relief from an eye trouble, catarrh and pain in the head and eyeballs, by Dr. Darrin.

C. K. Duffee, of Shaw, Oregon, reports his cure of deafness by Dr. Darrin's electrical treatment. His daughter, Miss Duffee, had no recurrence of her deafness and graduated eye trouble.

Mrs. A. L. Hudson, formerly of LaGrande, Oregon, now residing at 569 Salmon street, Portland, paralysis of one side and disease peculiar to her sex cured nine years ago by Darrin.

Mrs. A. B. Warrham, Menzville, Oregon, epilepsy 26 years, cured by electricity and medicine ten years ago and never had a return of the symptoms.

New Educational Journal.

We are in receipt of the first issue of the New Educational Journal, published by County Superintendent C. L. Starr, subscription 50 cents a year. Its purpose is not to take money, but to improve school interests and increase education enthusiasm in the county. If teachers, parents and older pupils will rally to its support, it may be the means of doing much good. It is a very creditable sheet and we wish it abundant success. From it we learn that Effie Plunkington is to teach at Bridgeport, T. J. Gill at Rickreall, Sadie Linn at Goose-neck, T. S. Brown at Upper Salt Creek, Walter Butler at Dundee, M. L. Hampton at Oak Grove, Rosa Smith and Evangeline Hart at Perrydale, C. L. Shaw at Polk, K. N. Wood at North Dallas, Edith Witzell at Buell, H. Morrison at Guthrie, Erma Hall at Concord, Sadie Sears at Cherrygrove, Ella Austin at Parker, Myrtle Gardner at Ballston, Harry Belt at North Yamhill and W. C. Bryant at Moro.

The disposition to be made or the nature of the farm, both fermented and unfermented, must be determined largely by the nature of the crop and soil. Where improvement of the mechanical condition of the soil is the principal object sought, fresh manure is best adapted for this purpose to heavy soils and well rotted manure to light soils. Where prompt action of the fertilizing constituents is desired, the best results will probably be obtained by applying fresh manure to the light soils, although excessive applications in this case should be avoided on account of the danger of "burning out" of the soil in dry seasons.

Fresh manure has a forcing effect and is better suited to early garden truck, grasses and forage plants than to plants grown for seed, such as cereals, or to fruits. Direct applications to root crops, such as sugar beets and potatoes, or to tobacco often prove injurious. The manure should be spread when carried to the field and not left in heaps to leach.

The rate of application must be determined by individual circumstances. As a rule, it is better to manure lightly and frequently than to apply a large amount at longer intervals.

Disapproval of the Dust Spray.

Many of the Illinois orchardists do not approve of dust spraying for fungous troubles. Some time ago one of the speakers before the State Horticultural society voiced the objection thus: "I think that the wise man, if he happens to be a fruit grower, will keep away from the dust spray until the experiment station has settled the question, and if there are any who have lingering ideas in their minds that there are some merits in the dust spray I would advise them to wait awhile until the thing has been settled and not waste any money on materials and spraying machines, but to stick to the thing that we know is good, and when these other things are a success we can invest in them." It is suggested by some of the fruit growers that in the compounding of the dust spray the chemical property which in the liquid is effective against fungus is neutralized or in some way changed. On the other hand, one of the large orchardists of southern Illinois announces his satisfaction in the use of the dust spray.

Drink the Cause of It All.

Harry McShane, twenty-six years old, and his brother, John McShane, fifty-one years old, were held in \$1,000 bail for examination by a New York magistrate charged with wielding knives in an affray with three members of the Gilbride family, Thomas, Michael and William, all of whom were in Bellevue hospital with wounds of greater or less severity. A feud has existed between the two families for a long time. "I suppose drink is the cause of it all," remarked the magistrate. "Yes, I guess that is true," responded John McShane. "We all were good friends once."
