## DR. DARRIN GOING

TO DALLAS OCTOBER 30TH TO DECEMBER 4TH, STOPPING AT THE HOTEL GAIL.

[Corvallis Times]

Dr. Darrin continues his stay in Corvallis until October 30. After that date he will be in Dallas, October 31, to December 4. Dr. Darrin has been at Corvallis for sometime, during which time he has treated patients from the surrounding country and parts of the state. Many of these are among the leading people, and they cheerfully testify that he has rendered them great services. The doctor is enjoying his stay immensely, but is kept so busy that he cannot get much rest. Patients who contemplate availing themselves of his services during the remainder of his stay, should be prompt about coming in. His wonderful success here is such as has never been achieved by a member of his profession in this community. One of his cures is given as reference.

Dr. Darrin: Your treatment has cured me of kidney trouble, inflammation at neck of the bladder, and diabetes. For years I have been obliged to relieve my bladder many times a day and night, rendering sleep almost impossible. I now feel like a new man. I shall never fail to consult you whenever I need medical aid. The treatment you gave me for my debilitated condition from the effects of the grippe was entirely successful. I can be referred to any time at Pendleton, Oregon.

**Young Plants**  
Every farmer knows that some plants grow better than others. Soil may be the same and seed may seem the same but some plants are weak and others strong.

And that's the way with children. They are like young plants. Same food, same home, same care but some grow big and strong while others stay small and weak.

Scott's Emulsion offers an easy way out of the difficulty. Child weakness often means starvation, not because of lack of food, but because the food does not feed.

Scott's Emulsion really feeds and gives the child growing strength.

Whatever the cause of weakness and failure to grow—Scott's Emulsion seems to find it and set the matter right.
