Doctors find a good prescription for mankind

The 1 cent package is enough for usual conditions. Inside, 50 cents, contains a supply for a month's use.

**DR. DARRIN WILL REMAIN UNTIL DECEMBER 30TH.**  
Dr. Darrin's Work is Piling Up in Such Volume that He is Compelled to Prolong His Visit in Dallas at the Hotel Gail.

This eminent and far famed specialist has met with such an immense volume of business since coming to Dallas that he finds it absolutely necessary to prolong his visit to December 30th only. It is a source of gratification to the doctor's friends to know that his skill is being so well and appreciatively taxed. His patients are coming from all parts of Oregon and his cured patrons so plentiful that his name has become a household treasure in hundreds of homes in this vicinity.

The following recommendations of men so well known as Mr. Racey, Mr. VanOradol are one of the strongest reasons why people should look into the merits of Dr. Darrin's cures. December 30th will positively be his last day here and all contemplating visiting him will do well to call soon as some may need a second treatment.

**Mr. P. A. Racey's Card.**  
To the Editor: In 1898 I was almost totally deaf in one ear. I was compelled to try Dr. Darrin then practicing in Portland. His treatment cured me perfectly and permanently so I have never been troubled since. I was successfully treated for catarrh. I have the utmost confidence in the doctor's new mode of treatment by electricity and will gladly tell anyone of my success at Jefferson, Oregon.

**A Salem Man's Testimonial.**  
To the Editor: Seeing so much in your paper concerning Dr. Darrin's cures I was persuaded to try him on my daughter, who had been afflicted with a distressing discharge of the ear and partial deafness for the past four years. Under the doctor's mode of treatment she is healed. I reside at the corner of Commercial and Mission streets, Salem and I am engineer in the Capital Brewery. Refer to me at either place.

**Dr. Darrin's Place of Business.**  
Dr. Darrin can be consulted free at the Hotel Gail, Dallas, Oregon, after October 30th and until December 30, from 10 o'clock to 5 daily, evening 7 to 8, Sunday 10 to 2.

The doctor makes a specialty of all diseases of the eye, ear, nose and throat, catarrh, deafness, bronchitis, la grippe, rheumatism, dyspepsia, heart, liver, bladder and kidney diseases, or those who suffer from apathy and indifference also consumption, gonorrhoea and skin diseases in either sex, such as scalded taints, seminal weakness and lost vigor, varicocele and stricture.

Mrs. H. L. Veazie has been up from Portland among her childhood friends. T. J. Scroggin sold to Emil Arnt a 240 acre farm south of Sheridan for \$8000.

The merchant of Portland have decided to do away with the trading stamp nuisance.

Putnam fadeless dyes are the brightest, latest and easiest to use. Sold by druggists, 10 cents per package.

G. W. Johnson, the Salem clothier, has sold to John P. Holmes, of this county, his 35 acre hop yard near West Salem at \$200 per acre.

S. D. Steffy, Leonard and Tude McBees are setting out more hops and Pearl McBees and Robert Judson have a contract to cut fifty cords and 100 tiers of wood.

**Ayer's Cherry Pectoral**

We know what all good doctors think of Ayer's Cherry Pectoral. Ask your own doctor and find out. He will tell you how it quiets the tickling throat, heals the inflamed lungs, and controls the hardest of coughs.

Ayer's Cherry Pectoral is well known in our family. We think it is the best medicine in the world for coughs, colds, croup, whooping cough, and all other lung troubles.

**Hard Coughs**

One of Ayer's Pills at bedtime will hasten recovery. Gently laxative.

**PLIGHT OF CAPITALISM.**  
Cause of the Physical Deterioration of British Workers.

United States Consul Haman at Hull, England, has sent the United States department of commerce and labor an account of the physical deterioration of the English working classes, a subject that is causing the capitalists of that country considerable uneasiness, says the Social Democratic Herald.

The interesting thing about Mr. Haman's report is his grasp of the fact that this bad showing in England results from the workings of the wage system. Thus he says: "The quotations I have given will indicate the drift of public discussion on the subject of physical deterioration in England. In all of them, however, one cause is left untouched, and that is the cause that concerns America the most. That cause is the overworking of the laboring population of England from 1840 down to 1880, when England had command of the markets of the world and her mines and manufactures were worked to their utmost capacity and women and young children were employed in unhealthy trades and under unhealthy conditions. The result was a sapping of the vitality of the working classes, from which they have not yet recovered. The United States is now making vigorous efforts to enlarge its commerce and to introduce its manufactured products into all the markets of the world. This is a commendable ambition if it can be realized without diminishing the vitality of the working classes. Prosperity bought at such a price will evidently be dearly bought."

But that is just what we are headed for. What is the dominant cry with our lords of industry today? "The trade unions are trying to limit the output!" And what is the Parry movement (laughed to scorn when first proposed because of its brutality and yet eagerly entered into by our manufacturers) but an effort to force aside the trade unions in their attempt to stand as a shield between the American wage slave and his exploiter?

But we must also bear in mind that labor crushing and labor exhausting are not peculiar to England. Capitalism's blighting effects are universal. There is practically equal guilt in America. The sweating system in Jersey farm; the outrageous child labor conditions all about us, particularly in New Jersey and the south; the textile mill prisons in New England; the little breakers in the coal regions who never go

**Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the "Itic" and "Weakness" peculiar to women has attained, the proprietors and maker of Dr. Pierce's Favorite Prescription now fully warranted in offering to pay \$200 in legal money of the United States for any case of "Itic" or "Weakness," "Painful" or "Falling of Womb," which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.**

No other medicine than Dr. Pierce's Favorite Prescription could possibly "swim out," as the saying goes, on such a proposition—but they know whereof they speak. They have the most remarkable record of cures made by this world-famed remedy ever placed to the credit of any preparation especially designed for the cure of woman's peculiar ailments. This wonderful remedy, therefore, stands absolutely alone as the only one possessed of such unrivaled properties as to fully warrant its makers in publishing the remarkable offer above made in the utmost good faith.

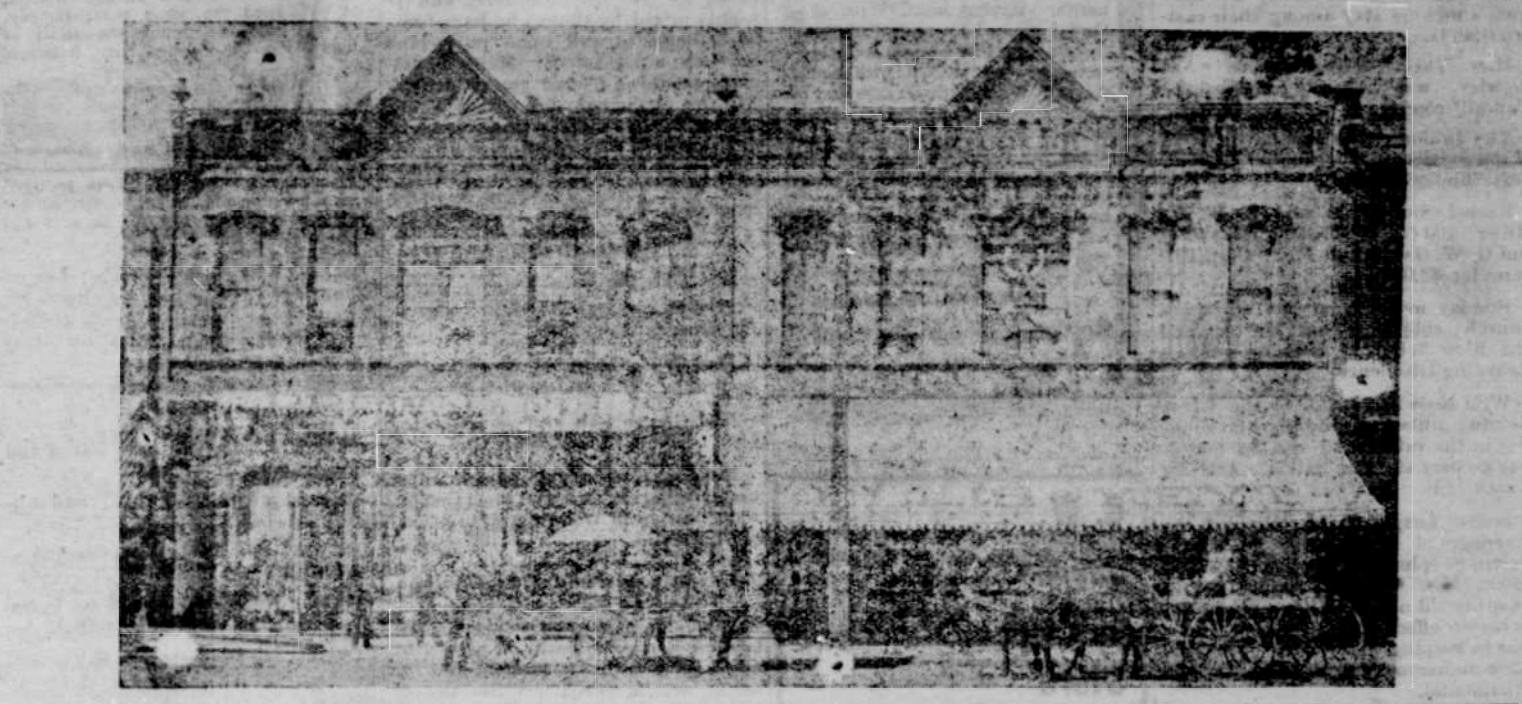

"A short time ago I was almost dead with nervous prostration, general debility and female weakness," writes Mrs. Loretta Webster, of 317 Virginia Ave., Lexington, Ky. "Worthy Treasurer, Independent Order of Good Templars." "Dr. Pierce's Favorite Prescription was recommended to me as a sure cure, and I found this to be true. For I obtained splendid results, securing the health I wanted. I was so grateful to think there is one safe and sure cure offered to suffering women to stop spending money and wasting time on doctor's prescriptions, when a few bottles of your remedy is sure to cure. I am the happy mother of two children, boy aged sixteen, and girl, eight years."

Do not permit the dealer to insult your intelligence by suggesting some other compound which he recommends as "just as good," because he makes it himself. Dr. Pierce's Favorite Prescription has stood the test of time and experience. Those who speak well of it—because thousands have been cured by it.

**L. N. WOODS, M. D.**  
Physician and Surgeon,  
Dallas, Oregon.

## THE BIG STORE

Why pay \$12 and over for a suit of clothes which we sell for \$8 and \$10?

Do not be deceived by these old advertising tricks. Buy our goods of us. We are lower than any of them all the time.

**ELLIS & KEYS**  
DALLAS, OREG.

We excel them all for prices, material, etc., and do not sell for cost either.

to school, and their little sisters, wearing out their health in knitting factories, of whom it is said "they will make nice, healthy mothers later on, when married to the boys stunted from infancy in the coal breakers"—all these labor conditions and others we have not named are with us. Capitalism is just as selfish for profits in this as any other country, and that being so, Mr. Haman's warning to American capitalists will surely fall on deaf ears. They have no conscience to be appealed to and very little public or race spirit. Only one force can diminish the exploitation—that is, trade unionism operating on socialistic lines.

**TO BETTER MANKIND.**  
Education along union lines is the crying need of the present day. The masses must be educated as to the best method of conducting their affairs for the betterment of all mankind, says Freight and Beggsman. Unionism in the fullest sense of the word stands for the uplifting of mankind and not for the tearing down and demoralization of things social and industrial or financial.

Not only does the recruit to the army of unionism need education along these lines, but many of the older ones as well. Those outside the union need it also, as the average person outside the union is inclined to believe that no good can possibly come from the banding together of the working classes.

Much good could be accomplished if the employee and employer were in closer touch with each other on matters pertaining to unionism, and this can only be accomplished by education. That the need of such an education is becoming universal and that the long sought for means through which it may be obtained is now at hand are strongly evinced by the several able publications that are now established throughout the length and breadth of our land with an eye single to the enlightening of mankind on the subject of unionism and the duty man owes to man.

**A Misleading Phrase.**  
The disciples of David M. Parry, the Indianapolis Moses who has undertaken to lead the manufacturers of America away from the influences and the alleged tyranny of unionism, have invented the "closed shop" phrase and are trying to put it into the mouths of

**MARKET REPORT.**  
REPORTED WEEKLY BY LOUGHARY & ELLIS

Wheat, per bushel, 80c.  
Bran, per ton \$22.90

Onions, per pound, 3 cts.  
Beans, per pound, 4@5 cts.  
Corn meal, per pound, 3 cts.  
Hay, per ton, \$8@12.

trade union advocates. The term was invented to mislead and has been made use of during the present year in particular, says the International Woodworker. Union men contend there is no closed shop unless it is the so called open shop, which is or will be closed to union men. There are union shops, but these union shops are always open to workmen who are willing to cooperate with their fellow workers for

the general good of the masses.

**Strong in Union.**  
The first union of iron molders is said to have occurred about 1833, soon after which the employing molders commenced to form union crushing associations. These labor crushing affairs have each met ignominious defeat, while the Iron Molders' union has steadily grown in strength and membership until today it is one of the best organized trades in existence.

**Value of Sheep.**  
Estimate the value of sheep from the standpoint of meat fertility and general advantage to the farm regardless of the market price of wool.—Farmer's Advocate.

Are still continuing their great sale. We must reduce our stock to make room for other lines which we will add shortly.
