

**BILIOUSNESS
CONSTIPATION
CURED BY
THE FORD'S
BLACK DRAUGHT**

Because the liver is neglected people suffer with biliousness, headache, and fever. Colds attack the lungs and contagious diseases take hold of the system. It is safe to say that if the liver were always kept in proper working order, illness would be almost unknown.

The Ford's Black Draught is so successful in curing such ailments because it is without a rival as a liver regulator. This great family medicine is not a strong and drastic drug, but a mild and healthful laxative that cures constipation and may be taken by a mere child without possible harm.

The healthful action on the liver cures biliousness. It has an invigorating effect on the kidneys. Because the liver and kidneys do not work regularly, the poisonous acids along with the waste from the bowels get back into the blood and violent contagion results.

Timely treatment with The Ford's Black Draught removes the danger which lurks in constipation, liver and kidney troubles, and positively forestalls the invasion of Bright's disease, for which disease in advanced stages there is no cure. Ask your dealer for a 25c. package of The Ford's Black Draught.
