The winter and spring have been seasonable for nearly all kinds of crops, all over the state. In the Willamette valley were never better for a generous output and there is this season an increased acreage of nearly all farm productions. As yet the frosts have done but little damage. Spring work is well along. The loss of stock has been very small and grass is good

Baptist Association Meeting.

The fifth Sunday meeting will be held at La Creole church, north of Rickreall, beginning at 7:30 Thursday evening April 27, with a sermon by Rev. J. W. Osborne. After devotional exercises at 9 o'clock next morning Elder G. W. Pewtherer will speak of Bible study in the home and then Elder Osborne will talk about the place of education in the churches. After that Elder L. C. Bauer will shew that it is the duty of members to oppose the liquor traffic and Elder Fredenburg will talk about the scriptures, if any, for the idea of an invisible kingdom. On Saturday Elder Wm. Short will speak of the scriptural cooperation of churches and Elder G. W. Capps will discuss whether or not the plan of the Oregon Baptist convention for doing mission work is the proper one. All Baptists are invited to attend and take part. Elder R. Y. Blalock was chairman of the committee that arranged this program.

Soehren-Brown Wedding.

On Wednesday evening at the home of the brides mother, Mrs. Nancy Brown, in Dallas, W. L. Soehren, superintendent of the the city water works, was married to Miss Claris Brown, Rev. Jas. Moore officiating. The decorations were of sweet briar and white lilacs and Miss Olive Smith played the wedding march. There were many very nice and useful presents. The happy couple at once went to their well furnished cottage home east of the South Methodist church. On account of recent bereavement it was a very quiet wedding.

Spring Medicine

There is no other season when good medicine is so much needed as in the Spring.

The blood is impure, weak and impoverished—a condition indicated by pimples and other eruptions on the face and body, by deficient vitality, loss of appetite, lack of strength, and want of animation.

Hood's Sarsaparilla and Pills

Make the blood pure, vigorous and rich, create appetite, give vitality, strength and animation, and cure all eruptions. Have the whole family begin to take them today.

"Hood's Sarsaparilla has been used in our family for some time, and always with good results. Last spring I was all run down and got a bottle of it, and as usual received great benefit." MISS BEULAH BOYCE, Stowe, Vt.

Hood's Sarsaparilla promises to cure and keeps the promise.

Good Buggies

We are as usual prepared with a fine line of the latest things in the vehicle line, in cushion tired bike wagons, runabouts of all grades, top buggies from cheapest to best, and farm hacks, surreys, etc. We want you to drop in when in Salem and see our stock.

F. A. Wiggins

THE PROFITABLE LITTER.

Those of Medium Size Produce Most Valuable Hogs.

Many breeders and farmers like extremely large litters, thinking therein is the greater profit, writes Ed Kleven in Swineherd. I doubt this, for my experience of thirty-five years as a breeder of thoroughbred hogs has taught me different. It has taught me that the sows that farrow from seven to ten pigs to the litter save a larger number than those that farrow from twelve to fifteen to the litter. And I have learned, too, that the pigs in the medium sized litters are stronger as "pigs" and more valuable as "hogs" than those that composed the extremely large litters. If I can get sows to save seven or eight pigs each, these numbers are satisfactory to me, and it is a large enough number for any sow to care for in the cold weather of February and March.

If we want litters that are uniform in size and desirable in number we must select brood sows that are large and roomy—good sows chosen from litters that were strong and even and containing a goodly number.

The condition of sire and dam at time of service I believe will help determine the number of pigs that will be farrowed, and the care the mother and her litter receive will determine the number saved and raised.

We cannot expect sows that have been starved from spring to fall to produce the following spring large, fine, even litters of pigs. On the other hand, we cannot expect sows that have been full fed on corn the entire summer and fall to give desirable litters either in quality or numbers. These two extremes must be avoided, and we must intelligently look after their wants and care for them in this interval of rest.

Culling the Flock.

A good shepherd dislikes to turn off a ewe as long as she shears a fair fleece and raises a lamb or two. But watch the mouth. A sheep with scattering or loose teeth is past her prime. Sell her at first sign of decadence, and she will fatten all right. When you shear, knowing each individual of your flock, watch the teeth and put a special mark on those to be turned off. If they are dry, they will generally be good mutton in the fall. If so, it is best to let the dealer have them. If not, treat them like the culls. If by mischance you have a toothless sheep, let her go if you can; if not, nurse her and give her warm quarters and mixed rations of ground corn and oats, with a little good stock food. Grain is too high to indulge in much fattening of culls.—Farm Visitor.

Hoof Dressing.

The following will be found a very fine hoof dressing, says Breeder's Gazette: Melt together neatsfoot oil, two quarts; molasses, two quarts; yellow beeswax, one pound. Remove from and away from fire and stir in slowly two quarts of crude petroleum. To color black make saturated alcoholic solution of negrosin and add one pint of it when stirring in the petroleum. The addition of lampblack instead of above coloring does fairly well.

An Easily Made Profit.

If we can add a pound or two in weight of body or fleece to our lambs through the sire it is profit easily made.

BEEF CATTLE

No breed of cattle is making progress more gratifying to its advocates than the Polled Durham. A display such as the breeders of this hornless type of Shorthorn made at the recent international show not only presents convincing proof that they have made substantial improvement, but indicates that they are aggressively on the trail of the older beef breeds. Whoever understands beef form and quality does not need to be told that Polled Durhams have acquired both. Those who studied the exhibit of these animals in the show ring at Chicago this year can entertain no doubt as to the usefulness, deserved popularity and dual purpose character of Polled Durhams. Nor can any one question the stability and permanence of this type. It has come to stay and grow. It is waxing strong. It fills a want and serves an important purpose. Many farmers and ranchmen prefer nature's dehorner to the saw or clippers. For this reason the Polled Durham bull, whose polled trait has been firmly fixed, is attracting the attention of those who would like Shorthorns better without horns.—Breeder's Gazette.

Corn For Breeding Stock.

Corn should constitute not over half the ration for breeding stock, the amount being smallest with young animals, says American Agriculturist. As the body increases in size and nears maturity the proportion of corn to other grain can be gradually increased until during the fattening stage the ration may, if desired, consist almost wholly of this grain.

Pure Beef Blood Best.

The Texas calf has proved very satisfactory in the corn belt thus far because the buyers have taken only those which showed the marks of good breeding, says National Stockman. If the grower continues to follow his policy of using pure bred beef bulls, these calves will be in uniformly good beef quality far ahead of the natives it is possible to buy. They show none of the evils of mixing breeds and purposes which put so many natives in the rear rank as beef cattle. It is the opinion of many experienced men that the quality of native beef cattle is deteriorating, and the reason is solely the mixing with dairy blood. Keep this blood for the dairy cow. It is out of place in the steer.

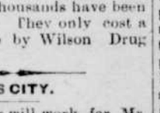
DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century: discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, kidney, bladder, uric acid troubles and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's **Swamp-Root** is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work, in private practice, among the helpless too poor to purchase relief and has proved so successful in every case that a special arrangement has been made by which all readers of this paper who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The regular fifty cent and dollar sizes are sold by all good druggists.



Home of Swamp-Root.

Do not make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghampton, N. Y. on every bottle.

OUR STAFF OF RUSTLERS.

WHAT THEY HAVE TO SAY ABOUT THE DOINGS IN THE COUNTY.

An Unequalled and Complete Resume of What Your Friends are and Have Been Lately Doing.

The fruit prospect is quite promising.

The roads are in a good shape for driving.

Seeding about done and grain looking well.

The D'Armond brothers have a nice clover field and raise lots of fine hogs.

C. V. Carpenter is milking eight cows and shipping the cream to Independence.

Our teacher, Miss Johnson, is preparing a variety of Oregon flowers and woods for the Portland fair.

The ladies met at the school house on Arbor Day and helped the children to plant trees and shrubbery.

For a Weak Digestion.

No medicine can replace food but Chamberlain's Stomach and Liver Tablets will help you to digest your food. It is not the quantity of food taken that gives strength and vigor to the system, but the amount digested and assimilated. If troubled with a weak digestion, dont fail to give these Tablets a trial. Thousands have been fitted by their use. They only cost a quarter. For sale by Wilson Drug Co.

FALLS CITY.

Randolph Butler will work for Mr. Buffy.

Bert Buell has sold his place near Sheridan.

Elmer Lewis is driving a team for Mr. Buffey.

Johnnie Chamberlain is engineer at the Peedee sawmill.

There will be a new bridge across Teal creek at the Fenton place.

Ben Harrington, of Oregon City, has sold his property to John Hughes.

Positive, Comparative, Superlative.

"I have used one of your Fish Brand Slickers for five years, and now want a new one, also one for a friend. I would not be without one for twice the cost. They are just as far ahead of a common coat as a common one is ahead of nothing."

Best Cough Syrup. Tastes Good. Use in time. Sold by druggists.
CONSUMPTION

BILIOUSNESS AND CONSTIPATION CURED BY THEDFORDS BLACK DRAUGHT

Because the liver is neglected people suffer with constipation, biliousness, headaches and fevers. Colds attack the lungs and contagious diseases take hold of the system. It is safe to say that if the liver were always kept in proper working order, illness would be almost unknown.

Thedford's Black-Draught is so successful in curing such sickness because it is without a rival as a liver regulator. This great family medicine is not a strong and drastic drug, but a mild and healthful laxative that cures constipation and may be taken by a mere child without possible harm.

The healthful action on the liver cures biliousness. It has an invigorating effect on the kidneys. Because the liver and kidneys do not work regularly, the poisonous acids along with the waste from the bowels get back into the blood and virulent contagion results.

Timely treatment with Thedford's Black-Draught removes the dangers which lurk in constipation, liver and kidney troubles, and will positively forestall the inroads of Bright's disease, for which disease in advanced stages there is no cure. Ask your dealer for a 25c. package of Thedford's Black-Draught.

Chamberlain's Cough Remedy the Best and Most Popular.

"Mothers buy it for croupy children, railroad men buy it for severe coughs and alderly people buy it for la grippe," says Moore Bros., Eldon, Iowa. "We sell more of Chamberlain's Cough Remedy than any other kind. It seems to have taken the lead over several other good brands." There is no question but this medicine is the best that can be procured for coughs and colds, whether it be a child or an adult that is afflicted, it always cures and cures quickly. Sold by Wilson Drug Co.

Mrs. Miller's former Nebraska neighbor Mrs. Smith is here with her and is so pleased with this country that she will probably not spend another winter where the thermometer goes down to 25 below zero.

About Rheumatism.

There are few diseases that inflict more torture than rheumatism and there is probably no disease for which such a varied and useless lot of remedies have been suggested. To say that it can be cured is, therefore, a bold statement to make, but Chamberlains Pain Balm, which enjoys an extensive sale, has met with great success in the treatment of this disease. One application of Pain Balm will relieve the pain, and hundreds of sufferers have testified to permanent cures by its use. Why suffer when Pain Balm affords such quick relief and costs but a trifle? For sale by Wilson Drug Co.

EXTENDING WINTER RATES.

To Yaquina Bay Which to People Wishing to Enjoy Nature's Beauties Proves So Popular.

The low rates in effect from points on the S. P. to Yaquina Bay during the winter, which proved so popular with the people wishing to view the beauties of nature at that magnificent seaside resort, have been extended during the month of April, and tickets will be sold on Wednesdays and Saturdays until the last of April, good for return at any time up to May 31, 1905.

The month of April should be a favorite one for visiting the seaside, where "Smiling spring her earliest visit pays," and where the health-giving breezes of the Pacific will banish "Spring Fever" and other ills to which flesh is heir.

Through Ticket Arrangements.

Tickets from all East side points to all West side points, and vice versa, via the C. & E. are also on sale; and on April 1st tickets to all West side points will be on sale by the C. & E. at Albany; and to all East side points on the S. P. by the C. and E. at Corvallis on which baggage can be checked through to destination, thus avoiding delay and annoyance to passengers traveling between East and West side points.

Full information as to the rates, baggage, etc., can be obtained by applying to the nearest S. P. agent or direct from W. E. Coman, G. P. A. S. P. Co. Portland, or T. H. Curtis, acting manager, C. & E. R. R. Co., Albany.

The office of County Surveyor Van Orsdel is in the north front upstairs room at the courthouse. When not engaged at county surveying he is at work for the Falls City railway.
