High Pressure Days. Men and women alike have to work incessantly with brain and hand to hold their own nowadays. Never were the demands of business, the wants of the family, the requirements of society, more numerous. The first effect of the praiseworthy effort to keep up with all these things is commonly seen in a weakened or debilitated condition of the nervous system, which results in dyspepsia, defective nutrition of both body and brain, and in extreme cases in complete nervous prostration. It is clearly seen that what is needed is what will sustain the system, give vigor and tone to the nerves, and keep the digestive and assimilative functions healthy and active, from personal knowledge, we can recommend Hood's Sarsaparilla for this purpose, it acts on all the vital organs builds up the whole system, and fits men and women for these high-pressure days.

Church Dedicated. Last Sunday was a full day at the Evangelical church. Bishop Heil preached to overflowing audiences both morning and evening, his sermons being full of genuine gospel meat. After the morning service about \$200 was pledged toward the church debt and in the evening the amount was increased to \$307. That leaves a balance of \$900 not provided for, but the mission board will let them have it without interest to be paid back in installments. In the afternoon there was a platform meeting with short addresses by different ministers, followed by testimonies from many Christians. The days work concluded with impressive dedicatory services. The membership fully appreciate the courtesy of other churches in dismissing their services for the occasion.

Dallas and Salem Day. Monday June 5, has been set apart as the special day for Polk and Marion counties at the exposition, the names Dallas and Salem being understood to apply to the whole counties. All who can should attend the fair on Dallas day and should suggest to their neighbors to do likewise. Upon what we then and there do may depend a good or poor impression of our county.

Farmer Gets the Benefit. Hazelwood butter has the record of bringing the highest price the year through of any butter sold in the United States. It averages about 2 1/2 cts. to 5 cents per pound above the other kind of creamery butter sold on the Portland market. In spite of this high price and because of the quality of the butter, the Hazelwood people are reported to be doing more business than any other creamery on the Pacific coast. This can only be accounted for by the size of their cream supply. They get cream from great distances. Their system of paying for the cream makes it quite an object to the farmer to ship to them, as they give the farmer the full benefit of the extra they get for the Hazelwood brand of butter. All the farmers are paid on the basis of the selling price of Hazelwood butter. The modern methods of this big institution have practically revolutionized the creamery business in the northwest during the past year.

Lawn mowers sharpened at Lee Smith's cyclery.
