SUVER.

Plums and tomatoes plentiful, but short crops of apples and potatoes.

Farmers are hauling in wheat, which Mr. Boone is shipping to Albany mills.

Wheat and oats sell well, but hay is a drag in the market.
 There will be a rush to the fair as soon as harvest is over.

All the grass dried up and stock in need of feed.

Trains crowded with exposition visitors.

The hunting tax of one dollar is in the interest of gun clubs, the law, as in many other cases, having been made to favor special classes.

Beware of Ointments for Catarrh that Contains Mercury, as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surface. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, contains no mercury, and is taken internally, setting directly upon the blood and mucous surface of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by Druggists. Price, 75 cents a bottle. Take Hall's Family Pills for constipation.

Thousands Have Kidney Trouble and Don't Know It.

How To Find Out. Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys. If it stains your linen it is evidence of kidney trouble; too frequent desire to pass or pain in the back is also evidence of kidney trouble. It is a convincing proof that the kidneys and bladder are out of order.

What to Do. There is comfort in the knowledge so often expressed that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in 50c. and \$1. sizes. You may have a sample bottle of this free. Write for it to Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper.

Do not make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y. on every bottle.

Beginnings of Clubs.

The first club of modern England seems to have been the circle at the Mernall that Sir Walter Raleigh founded and Shakespeare joined. But in the seventeenth century clubs began to spring up like mushrooms. There was the Calves Head club, whose members met and dined off calves' heads to show their contempt for the decrepit Charles I. They came the Kit-Kat club, which, according to Addison, took its name from a mutton pie. One Christopher Kat, a pastry cook of Shire lane, was a distinguished connoisseur of mutton pies, and his productions were called Kit-Kats. The club meeting in his house and eating his pies acquired the pie name for its own.—London Telegraph.

Travels of the Cuckoo.

A feature in bird travels is the departure south of the north and young cuckoos at a different time. The old cuckoos set out first, leaving the young birds of the year to follow. The adult cuckoos—one might put it by a stretch of imagination—so much dislike the fuss and anxiety of traveling en masse that they prefer to go on their own and by themselves. Whether the old cuckoos ever know their progeny by sight cannot be said for certain—probably not, although an old cuckoo is constantly to be heard and seen in the copple or hedgerow or about the garden where a young one is being reared by a hedge sparrow, pipit or wagtail.—London Opinion.

Journal or Oregonian.

The regular price of the Semi-Weekly Journal, the Oregon or the Itemizer is \$1.50. The two Portland papers give the news of all over the state and the Itemizer contains what is going on all over Polk county. We have arranged to furnish either of these papers and this paper for \$2. A better news combination you cannot make.

PISO'S CURE FOR CONSUMPTION
 ALL THE LUNG DISEASES, TUBERCULOSIS, BRONCHITIS, ASTHMA, ETC., CURED BY THIS REMEDY.

THE GREAT FAMILY MEDICINE

Theodore's Black-Draught comes nearer regulating the entire system and keeping the body in health than any other medicine made. It is always ready in an emergency to treat ailments that are frequent in any family, such as indigestion, biliousness, colds, diarrhoea, and stomach aches.

Theodore's Black-Draught is the standard, never-failing remedy for stomach, bowel, liver and kidney troubles. It is a cure for the domestic ills which so frequently summon the doctor. It is as good for children as it is for grown persons. A dose of this medicine every day will soon cure the most obstinate case of dyspepsia or constipation, and when taken as directed brings quick relief.

DAVIDSON, ILL., Dec. 23, 1902.
 Theodore's Black-Draught has been our family doctor for years and we can not do without it. When any of us feel badly we take a dose in half an hour. We have spent lots of money for doctors' bills, but never just as much with Black-Draught. IKA H. BARRER.

Ask your dealer for a package of Theodore's Black-Draught, and if he does not keep it send to The Chattanooga Medicine Co., Chattanooga, Tenn., and a package will be mailed to you.

THEODORE'S BLACK DRAUGHT

Uncle Perry Smith Cone.

He was born in Jackson county Missouri, in 1823 and in 1847 crossed the plains with his brothers, Dick, George and Abbsalom, and his sisters, Mrs. Plummer and Mrs. Townsend. In the same train came Judge Kimsey and others who settled in this county. He married a daughter of Judge Kimsey and for many years she and five of their children have been sleeping in the Brown cemetery. His original homestead includes the ground on which that cemetery is located and he gave the land for it. After the death of his first wife he married a Miss Price, of Perrydale, she being a sister of Mrs. W. W. Williams, of Airle. About the close of the war they went to Eastern Washington where he remained for some years and was at one time county commissioner of Whitman county. Some twenty years ago he came back to this county and lived a round Dallas until a few years ago he went to live with his daughter, Mrs. Minnie Mason, in Portland. Only two of his nine children are alive they being Mrs. Nellie Warmouth, of Portland, and Green Smith, of Colfax, Wash. He was the last one of a family of eleven children. He died last Sunday at the home of Dr. Mason in Portland and was brought on the train Monday evening to the home of his nephew, Sam Smith, at Southfield. Tuesday noon a large number of kindred and friends gathered at the Brown cemetery to pay their last respects to his memory, the funeral services being conducted by Rev. J. B. Thompson of the Dallas Baptist church. The casket was closed and long been a member. He raised Mr. Dan Richardson and they loved each other dearly. Years ago he, Micajah Morrison and James Morrison ran a mill up on the Pedee.

Library Meeting.

A large number of citizens met at the Friemans hall, Wednesday evening to take steps for a free library. Mayor Bidde presided and Mrs. George Geringer stated what was intended and how to get it. As a library board J. C. Hayter, H. B. Cooper, Dr. Toney, Prof. Metzger, R. E. Williams, and Mrs. Frank Morrison were appointed. They are to choose a city librarian and make rules for the management of the library. That pertains to the traveling library which would be exchanged every six months. A Dallas Library Association was formed with Dr. Toney as president, J. G. Van Orsdel vice president and Mrs. T. A. Riggs as secretary. Their business will be to provide ways and means of interesting the general public and procuring financial support.

Agaranture Cure for Piles.

Itching, blind, bleeding, or protruding piles. Druggists refund money if Pazo Ointment fails to cure any case no matter of how long standing, in 6 to 14 days. First application gives relief, and the cure is complete. If you are troubled with piles, get this ointment. It is sold by druggists and it will be forwarded postpaid by Parie Medicine Co., St. Louis Mo.

Balance of all our summer goods are being closed out regardless of cost, make room for our fall goods. The Bee Hive store.

There were never fewer lice among the flies in this country and they will be decidedly better than promised a mass ago.

Jas. Boydston cousin Judge Henry Hayes will soon be back from Eastern Oregon and will winter in California. He was judge of Chautau county, Missouri for two terms.

Aldie and Willie Boydston and Cland and Ned Shaw, of Polk station, attend Dallas College and many others are talking of doing likewise.

Lewis and Clark Exposition.

During the Lewis and Clark exposition the Southern Pacific company will sell round trip tickets to Portland, limit thirty days, at one and one third fare for the round trip. For parties of ten or more traveling on one ticket, one fare for the round trip. For organized parties of one hundred or more, individual tickets, at one fare for the round trip. Stop-over of ten days will be given at Portland on all one way tickets reading through that point during the exposition. Tickets must be deposited with Joint Agent at Portland and charge of fifty cents will be made for extension of time.

Epidemics of History.

In the twelfth century not less than fifteen epidemics of disease and many famines carried off the people of England. The thirteenth century saw twenty plagues and nineteen famines, while the fourteenth had a black record of disease. In 1318 the "black plague" or "black death," which was brought into the country from the east, caused the death of 100,000 persons in London alone, while in Europe altogether 25,000,000 people fell victims to its ravages. In 1485 the "sweating sickness" appeared in England, causing great destruction of human life. It reappeared at various intervals for a century thereafter. The last terrible visitation of the plague in England was in 1604-05, by which 100,000 lives were lost in London alone. This epidemic was followed by the great fire of 1666, which destroyed 10,000 houses, including all the most densely populated portions of the city. The rebuilding of London with some regard to sanitary laws appears to have put the first check on the epidemic diseases that had previously devastated its population.

Played What He Pleased.

Henry Smart, the English composer, played a fine organ in a London church, and his recital after service attracted much attention. But one morning after a selection from one of Mozart's masses a church warden came into the organ loft and "begged" to inform Mr. Smart that they had decided they could not have such jiggly stuff played in their church.

"Very well, sir," was the answer; "it shall be altered."

Next Sunday dirge-like sounds proceeded from the organ, and the warden congratulated the player on the solemn and elevating effect of the music. "I am glad you like it," answered Mr. Smart. "Doubtless if I play it a little quicker you will see the reason why it affected you." And, suiting the action to the word, the popular strains of "Jump Jim Crow" resounded from the organ. After this Henry Smart played what he liked.—London Telegraph.

Value of Walking and Riding.

A brisk daily walk or a ride on horseback boons any more elaborate forms of physical exercise for stimulating and elevating the system. In walking, especially if the ground is somewhat undulating, a very large number of muscles are brought into natural and easy play, sufficient, at any rate, to stimulate the circulation, which in its turn compels full expansion of the lungs and due aeration of the blood. The professional or business man requires no more than this to keep him fit for his duties, provided he follows the ordinary rules of health in respect of bathing, eating, drinking and clothing. If he is afflicted with a sluggish liver, indigestion or inactivity of the alimentary canal as a whole, a man may derive more benefit to health on horseback. But that is really a curative form of exercise.

Cured of Lame Back After 15 Years.

"I had been troubled with lame back for fifteen years and found a complete recovery in the use of Chamberlain's Pain Balm," says John G. Bisher, Gilliam, Ind. This liniment is also useful on equal for sprains and bruises. It is for sale by Stafrin Drug Co.

Color Effects.

Advice Regarding Harmony in Flower Beds. The garish use of scarlet geraniums, yellow calceolarias and blue lobelia in the beds has often been condemned. Equally hideous is the close setting of bright carnation pink and scarlet geraniums. It is a safe rule that this deep pink or pale magenta should not be placed within sight of vermillion or blood red, whether the latter colors are yielded by other perennials, brick walls, shrubs or perennials. It is a peculiar fact that colors are charming either with pinks or reds. Used with the latter, they look brownish, with the former they seem but a deepened tint of crimson.

Pawnbrokers in China.

In China the pawnbrokers are bankers of the people and could not be dispensed with. The poor Chinaman, unlike the poor European, does not wear his winter clothes until they are fit only to be discarded. When the Chinese officials order that summer clothing shall be donned, the poor Chinaman shivers with the winter suit with the proceeds, supplemented by a little cash, he redeems his previous summer garb or buys new attire. Pawnbroking, writes Mr. Cunningham in the Chinese Soldier, is to the respectable Chinaman of limited means a weekly round.

The Public Drinking Cup.

When it is necessary to relieve one's thirst abroad, if the cup be filled quite full and placed to the mouth in such a way that the rim will be about half an inch below the under lip, one can drink from the cup without touching the rim with the tongue. In this way no part of the vessel, to which some particles of poisonous matter may still be clinging, will touch the delicate skin of the lip. It is hardly necessary to add that the water which adheres to the mouth and below the lips should be removed by a handkerchief and not by the tongue.

The Budding Season.

The operation of budding is simple and can be performed with great speed by expert budders. The work is usually done in July, August or early September.

A Little Dutch Garden.

I passed by a garden, a little Dutch garden. Where useful and pretty things grew—Heartsease and tomatow and pinks and petaloes And lilacs and onions and rue.

I saw in that garden, that little Dutch garden, A chubby Dutchman with a spade And a rosy Dutch frau, with a shoe like a scow.

And a faxen haired little Dutch maid.

There grew in that garden, that little Dutch garden, Blue flag flowers lovely and tall And early blush roses and little pink posies.

But Gretchen was fairer than all.

My heart's in that garden, that little Dutch garden. It tumbled right in as I passed. Mid withering masses of spinach and daisies.

And Gretchen is holding it fast.

—Hattie Whitney.

FRUIT AND FLOWERS

A NEW APPLE.

Little Known, but of Rare Beauty and Good Quality. The Barringer is a bright red apple, underlain with yellow, of splendid appearance and unusual quality. It has a long, slender stem, but some specimens have a tendency to produce a lip at the stem end, in which case the stem
