The Kidneys

When they are weak, torpid, or stagnant, the whole system suffers. Don't neglect them at this time, but heed the warning of the aching back, the bloated face, the swollen complexion, the urinary disorder, and begin treatment at once with

Hood's Sarsaparilla

which contains the best and safest curative substances. In usual liquid form or in choicest tablets known as Sarsatabs, 100 doses \$1.

Most lives are filled with half finished tasks which were begun with enthusiasm but which have been dropped because the enthusiastic beginners did not have enough grit to carry them to a conclusion. How easy it is to start a thing when the mind is aglow with zeal before disappointment has dulled ambition! It does not take much ability to begin a thing, and we cannot estimate a man by the number of things he commences. We do not judge him by his speed at the beginning of the race, it is the home stretch that counts.

ALICE GRANT LEADS.

Dallas Young Lady Ahead in Journal Contest.

Miss Alice Grant, daughter of our sheriff, is away ahead in the Portland Journal's Educational Contest, having received many thousand votes in excess of any of the other contestants. An unusual thing in metropolitan daily contests is that she leads by a big margin any of the Portland young ladies and gentlemen, who are after the scholarships given away. Miss Grant is proving herself particularly adapted to newspaper solicitation work, and her many friends in Polk and Yamhill counties are standing nobly by her and giving her all the assistance in their power. She was at McMinnville recently and captured many thousands of votes there. She has the best wishes of everyone, and has shown herself such a worker that it is nearly a certainty that she will still head the list at the final outcome. We all take pride in helping those who show themselves so willing to help themselves, and the people of Dallas and Polk county will feel willing to help Miss Grant land the largest vote of any one in the contest.

Jan. Wilson has purchased 40 acres of W. H. Besseler place near town through Silas Orchard. The price paid was \$3500, and it was the improved portion of the farm that was sold.

Work has at last commenced on the Dallas creamery. Messrs. Johnson and Larousson starting in Monday to put a cement floor in the old Wiseman building, where the creamery will be located until a brick can be secured. The span to be covered by cement will be 21x25 in size, and the contractors expect to have it finished today. This will be for the support of the various paraphernalia necessary for the business, and the balance of the room will retain the wooden floor. Sewer connection has been made and it is probable that an electric motor will be installed to furnish power. The reason work has not been begun before this, is that Mr. Townsend was not absolutely certain that he could secure the machinery required, and did not want to have the building remodeled until such was a certainty. He has been cast for this purpose, and it is not on the way here. Installation work will be begun at once, and the plant will be in operation soon after the first of August.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer \$100 for any case that fails to cure. Send for list of testimonials. Address F. J. Cheney & Co., Toledo, Ohio. HIDDEN DANGERS.

Nature Gives Timely Warnings That No Dallas Citizen Can Afford to Ignore.

DANGER SIGNAL NO. 1 comes from the kidney secretions. They will warn you when the kidneys are sick. Well kidneys excrete a clear, amber fluid and foamy, if a thick red, ill-smelling urine, full of sediment and irregular of passage.

DANGER SIGNAL NO. 2 comes from the back. Back pain, dull and heavy, or sharp and acute, tell you of sick kidneys and warn you of the approach of dropsy, diabetes and Bright's disease. Doan's Kidney Pills cure sick kidneys and cure them permanently.

Mrs. A. R. Hill, of 331 E. Fifth St., Albany, Ore., says: "Not a word too much is said in praise of Doan's Kidney Pills, and it ought to be proof enough of their merit when people living right here in Albany recommend them, instead of some one known person in Texas or some other faraway place. I have used Doan's Kidney Pills myself and know of many more who have used them. In my case they cured back ache and other troublesome symptoms of kidney complaint. Everyone else who has used them to my knowledge have had the same satisfaction and that is why I lend my name in endorsing the remedy."

Remember the name, Doan's, and take no other. For sale by all dealers. Price 50 cents. For Ter-Milburn Co., Buffalo, New York, sole agents for the United States.

They are ruined in one of the many avenues of sinful indulgence simply because their home has been a gateway to hell, paved by intemperate parents who lost their own self respect, and consequently their material and paternal love for their children. Would to God that the words "only a drunkard's child" could be cast into an unfathomable sea. Would to God that the liquor traffic were cast into hell, the place of its nativity. Not until then will the stigma of shame disappear from the innocent and ruined social prestige be restored to them. Then only will advantages open up to them. Then only will they attain to purity of heart, without which no man shall see God. God speed the day.

OPTICIAN C. H. MORRIS, JEWELER

DALLAS OREGON

Woes of Intemperance.

By AUNT DORIS. A young man whom I knew—tall, handsome, the picture of health and ideal manhood—married a young, beautiful, virtuous maiden. Mutual love, happiness and prosperity characterized that home. But the husband was persuaded by his false friends (for true friends never lead astray) to touch and taste the fatal cup. He had already reared the seed of appetite. His father had been a drunkard. The seed lay dormant, but when nurtured developed rapidly. Five years in drunken revelry ended eventually, inevitably in suicide. There was the first drink, frequent repetitions, ending in delirium tremens, and finally suicide for the other day he shot himself, inflicting a wound in the right temple not immediately fatal. He was removed to a hospital, where, a few days later, in the prime of life, 30 years of age, he died. What a sad ending! Yes, but the saddest sequel yet remains. One more drunkard, of the many thousands, fills a drunkard's grave. One more soul created in the image of God is barred from the kingdom of God. One more bitterly, cruelly disappointed wife, young in years, but old in sorrows, stands alone at the open, cheerless grave. Her life a sad, physical, mental and spiritual wreck. On the shattered bones, fortunes for time and eternity! By her side stand three little orphan children, subjects of earth's cruel charity, friendless, homeless, fatherless, penniless. You will agree with me that environment greatly tends to characterize. True, then look into this home and all others similar, which may be denominated by the thousands. The true home is a part of heaven let down to earth. Christ is the head of that home. Now bid Christ to depart. Substitute the bar-room with its fifth, its destitute characters, male and female, its vile language and smutty stories, its ruined manhood, its death, its hell. This is what a drunken father does and infinitely more. Can you conceive of a more hellish environment for children. Few sons and daughters reared in homes destroyed by that
