Of Interest to Women.

Every woman naturally should be healthy and strong, but a great many women, unfortunately, are not owing to the unnatural condition of the lives we lead. Headache, backache and a general tired condition are prevalent amongst the women of today, and to relieve these conditions women rush to the druggists for a bottle of some preparation supposed to be particularly for them, and containing—nobody knows what. If they would just get a box of Brandreth's Pills, and take them regularly every night for a time, all their trouble would disappear, as these pills regulate the organs of the feminine system. The same dose always has the same effect, no matter how long they are used. Brandreth's Pills have been in use for over a century andare sold in every drug and medicine store, either plain or sugar-coated.

Resolutions of Condolence.

At a meeting of the Junior League of the First M. E. church in Dallas, held July 28th, the following resolutions were adopted: Whereas, the hand of Providence has removed from our midst our beloved sister and Junior league worker, Aileen Miller, and in view of the loss we have sustained by her death, and of the still greater loss sustained by those who were nearest and dearest to her; be it resolved, that we deeply mourn her departure and sincerely regret the loss of her faithful service in our Junior league, but take refuge in the fact that though her years were few, they were well spent, and she has gone to the blessed society of the redeemed. Resolved, that because of her great interest in foreign missionary work, and her desire sometime to become a missionary, we do honor her memory by contributing $10 this year for foreign missions. Resolved, that the above resolutions be published in the city papers, and that a copy there of be sent to the parents of the deceased.—Ada Longnecker, secretary.

BAD BLOOD
THE SOURCE OF ALL DISEASE

Every part of the body is dependent on the blood for nourishment and strength. When this life stream is flowing through the system in a state of purity and richness we are assured of perfect and uninterrupted health; because pure blood is nature's safe-guard against disease. When, however, the body is fed on weak, impure or polluted blood, the system is deprived of its strength, disease germs collect, and the trouble is manifested in various ways. Pustular eruptions, pimples, rashes and the different skin affections show that the blood is in a feverish and diseased condition as a result of too much acid or the presence of some irritating humor. Sores and Ulcers are the result of morbid, unhealthy matter in the blood, and Rheumatism, Catarrh, Scrofula, Contagious Blood Poison, etc., are all deep-seated blood disorders that will continue to grow worse as long as the poison remains. These impurities and poisons find their way into the blood in various ways. Often a sluggish, inactive condition of the system, and torpid state of the avenues of bodily waste, leaves the refuse and waste matters to sour and form uric and other acids, which are taken up by the blood and distributed throughout the circulation. Coming in contact with contagious diseases is another cause for the poisoning of the blood; we also breathe the germs and microbes of Malaria into our lungs, and when these get into the blood in sufficient quantity it becomes a carrier of disease instead of health. Some are so unfortunate as to inherit bad blood, perhaps the dregs of some old constitutional disease of ancestors is handed down to them and they are constantly annoyed and troubled with it. Bad blood is the source of all disease, and until this vital fluid is cleansed and purified the body is sure to suffer in some way. For blood troubles of any character S. S. S. is the best remedy ever discovered. It goes down into the circulation and removes any and all poisons, supplies the healthful properties it needs, and completely and permanently cures blood diseases of every kind. The action of S. S. S. is so thorough that hereditary taints are removed and weak, diseased blood made strong and healthy so that disease cannot remain. It cures Rheumatism, Catarrh, Scrofula, Sores and Ulcers, Skin Diseases, Contagious Blood Poison, etc., and does not leave the slightest trace of the trouble for future outbreaks. The whole volume of blood is renewed and cleansed after a course of S. S. S. It is also nature's greatest tonic, made entirely of roots, herbs and barks, and is absolutely harmless to any part of the system. S. S. S. is for sale at all first class drug stores. Book on the blood and any medical advice free to all who write.

BUSINESS FOR SALE

For some time I have been conducting a general merchandise business in Moro, Oregon, with practically no competition. I have built up a trade of over $90,000 a year, netting me a profit of over 15%. This has all been done with hired help as my time has been devoted to the real estate business. With little effort it can be made to pay over 20% on an investment of $28,000. If I were going to remain in the mercantile business, I would stay right here. I have good reasons for selling.

Moro is the county seat of Sherman county; is surrounded by a rich wheat district and is in the midst of a population of over 2,500 people. It offers the best opportunity for a man of energy in the Northwest today.

My store is 80 by 80 feet; well stocked with the best line of brand new goods; no odds and ends. I have the best and most profitable patronage; cash carrier system and steam heat. Every modern convenience.

PROPOSITION: My price is the actual invoice cost of the goods in stock at the time of sale. I will take either cash in full or part Portland or Willamette Valley real estate or secured notes. I will pay all the expenses of any man who investigates and does not find everything as I represent. This is a first class offer and I know it. It is better than 90% of the offers you read about. Investigate and find that I am right.

TWO SISTERS HAVE ECZEMA OF HEAD

Two Illinois Girls Suffer from Scalp Trouble—Another Sister Needs a Tonic—Friend Suggests Cuticura—They Use It and Now Give

MUCH PRAISE TO ALL CUTICURA REMEDIES

"I must give much praise to all the Cuticura Remedies. I used but one cake of Cuticura Soap and one box of Cuticura Ointment, as that was all that was required to cure my disease. I was very much troubled with eczema of the head, and a friend of mine told me to use the Cuticura Remedies, which I did, and am glad to say that they cured my eczema entirely. Since then we have always kept the soap on hand at all times. My sister was also cured of eczema of the head by using the Cuticura Remedies. Another sister has used Cuticura Resolvent and Pills and thinks they are a splendid tonic. I cannot say exactly how long I suffered, but I think about six months. Miss Edith Hammer, R. F. D. No. 6, Morrison, Ill., Oct. 3, 1906."

Every man who votes for license becomes, of necessity, a partner to the liquor traffic and all its consequences.—William McKinley.

A telegram received from the state W. C. T. U. officers announce that the state prohibition bill has passed the Georgia senate by a vote of 34 to 9, and that it will undoubtedly pass the house during the current week. White ribboners everywhere will join with our Georgia comrades in a hymn of praise and Thanksgiving.

"According to a prominent liquor trade publication; the crying need of the liquor interests, the dominant demand of the hour" is closer organization, a union of all branches of "the trade" and all collateral interests, in "a grand controlling association of national scope, like the "Federation of Labor." "Taking a cool and impassioned view of the situation," says this paper, it will be seen that the forces on the side of the liquor interests are more numerous and influential than those exposed to it, and that the strength of the anti-saloonists, local optionists and prohibitionists consists mainly in their unity of action and their solidarity organization."

While appreciating the tribute paid to the essential unity of the temperance forces, and granting that the proposed organization might be powerful and effective, we doubt the imminent materialization of the plan.

The fact remains that the recent liquor trades convention only succeeded in widening the breach between two leading liquor organization, and it is also true that no amount of words could hide the decrease in popularity of the saloon and of every business that is allied with it.

The more numerous and influential "forces" which have stood with the liquor interests, will not stand on that side much longer. The "unholy alliance" between saloon, politics, and secular press, is weakening every day.

Is the saloon a good thing? Not for the young women who marries the man she loves and finds out too late that the saloon is stronger than his love for her.

Ask the first ten mothers you meet if they would vote for the saloon.

Authorities on the child labor problem claim that 50 percent of the child labor of the country are made such by the drunkeness of their parents.—National Temperance Almanac.
