The ownership of the ferry across the Willamette at this point has passed to the city of Independence and in future will be operated as a free ferry. The controversy that has been on for a couple of weeks has been ended. George Jones and his motner having decided to accept $1000 for their interests, should the citizens having the arrangements in charge desire it at that figure. A conference between interested citizens across the river and of this city quickly decided that the purchase at that price would be better for all concerned rather than to prolong the matter and probably wind up in the courts in a bitter contest.

At a recent meeting of the city council a communication was read from the manager of the Willamette Valley Co. rejecting the proposition made by the council for lights and water. The objection to the proposed contract and ordinance was the low rate named and which was not acceptable to the company. The proposition having been rejected, the ordinance which had passed the third reading and already for the acting mayor's signature to become effective, was vetoed by Acting Mayor Hanna. The veto was sustained by the council and the extension of the water system and permanent lighting of the city is again up in the air.

We hope to soon have transporation facilities so arranged as to not miss our colored supplement.

SKIN DISEASES
HUMORS IN THE BLOOD

When the blood is pure, fresh and healthy, the skin will be soft, smooth and free from blemishes, but when some acid humor takes root in the circulation its presence is manifested by a skin eruption or disease. These humors get into the blood, generally because of an inactive or sluggish condition of the members of the body whose duty it is to collect and carry off the waste and refuse matter of the system. This unhealthy matter is left to sour and ferment and soon the circulation becomes charged with the acid poison. The blood begins to throw off the humors and acids through the pores and glands of the skin, producing Eczema, Acne, Tetter, Psoriasis, Salt Rheum and skin eruptions of various kinds. Eczema appears, usually with a slight redness of the skin followed by pustules from which there flows a sticky fluid that dries and forms a crust, and the itching is intense. It is generally on the back, breast, face, arms and legs, though other parts of the body may be affected. In Tetter the skin dries, cracks and bleeds; the acid in the blood dries up the natural oils of the skin, which are intended to keep it soft and pliant, causing a dry, feverish condition and giving it a hard, leathery appearance. Acne makes its appearance on the face in the form of pimples and black heads, while Psoriasis comes in scaly patches on different parts of the body One of the worst forms of skin trouble is Salt Rheum; its favorite point of attack is the scalp, sometimes causing baldness. Poison Oak and Ivy are also disagreeable types of skin disease. The humor producing the trouble lies dormant in the blood through the Winter to break out and torment the sufferer with the return of Spring. The best treatment for all skin diseases is S. S. S. It neutralizes the acids and removes the humors so that the skin instead of being irritated and diseased, is nourished by a supply of fresh, healthy blood. External applications of salves, washes, lotions, etc., while they soothe the itching caused by skin affections, can never cure the trouble because they do not reach the blood. S. S. S. goes down into the circulation and forces out every particle of foreign matter and restores the blood to its normal, pure condition, thereby permanently curing every form of skin affection. Book on Skin Diseases and any medical advice desired sent free to all who write. S. S. S. is for sale at all first class drug stores.

Suffered with Eczema for forty years and could find nothing to cure me until I tried S. S. S. I suffered intensely with the itching and burning; pustules would form from which there flowed a sticky fluid; crusts would come on the skin and when scratched off the skin was left as raw as a piece of beef. I suffered agony in the long years I was afflicted, but when I used S. S. S. I found a perfect cure. There has never been any return of the trouble.

JOHN ROBBINS

Says Lots of Grain is Still Uncut in Eastern Oregon.

Madras, Aug. 24, 1907.

Editor Itemizer:

A few lines from Hay Stack. We had a heavy rain last night with thunder and lightning and still raining this morning. There is lots of grain yet to thresh in the fields and hundreds of acres not yet cut. A company has been formed to haul wheat from this place to Shaniko and the nearest railroad point. They propose to haul it with a 70-horse power road engine with six trucks attached. They say they will haul 2,000 bushels of wheat at a load and travel 2 miles an hour. We will start home the first of week so you may send my next paper to Independence. Yours
JOHN ROBBINS.

BIG SHIPMENT EAST.

W. W. Percival Send a Lot of Choice Lambs.

That Polk county occupies a commanding position in the production of pure-bred sheep was demonstrated Monday by the shipment from Independence of 1600 head of Polk county ram lambs to Denver, from which point they will be distributed to the great sheep ranges in contignous territory. These bucks have been collected the past few weeks by W. W. Percival, and delivered to T. F. Boylen, of Hay Creek, in Eastern Oregon, who started them today on the long trip across the mountains to Denver. The rams are all choice animals of superior breeding qualities and are admirably adapted for such use on the ranges, a fact that has been impressed upon the range sheepgrower so effectively that large numbers of them are coming to the Willamette Valley and Western Oregon for their ram supply. Those shipped today were all long wooled sheep of Cotswold and Lincoln breeding, and while none of them were hardly yet yearlings, to a person familiar only with the size of range sheep, they would have been taken to be fully two years old, having attained such a magnificent growth under the favorable natural conditions for rearing sheep in the balmy climate of the Willamette Valley.

HAD AN AWFUL TIME.

But Chamberlain's Colic, Cholera and Diarrhoea Remedy Cured Him.

It is with pleasure that I give you this unsoligited testimonial. About a year ago when I had a severe case of measles I got caught out in a hard rain and the measles settled in my stomach and bowels. I had an awful time and had it not been for the use of Chamberlains Colic, Cholera and Diarrhoea Remedy I could not have possibly lived but a few hours longer, but thanks to this remedy I am now strong and well. I have written the above through simple gratitude and I shall always speak a good word for this remedy.—Sam H. Gwin, Concord, Ga. For sale by Stafrin Drug Co.

"THE OLD WORLD AND ITS WAYS"

Col. William Jenings Bryan announces a new book of travel entitled "The Old World and its Ways" which recounts his recent tour around the world and his journeys through Europe It is profusely and elegantly illustrated with 240 artistic engravings representing men and things seen in the various countries of the earth during that noted journey. The engravings are made from photographs taken by him or his party especially for this publication. It is the monumental literary work of his life, and is published under his special supervision. He has, by special contract with his publishers, made the retail price low down with the view to putting it within the easy reach of every reader and book buyer.

The book gives his experiences—what he saw and did—whom he met and his impressions and conclusions. He made a profound study of men and things as he saw them in this noted journey around the world. He gives governmental, educational, religious and other conditions, from the standpoint of a student and one profoundly interested in all the people of the earth.

While Col. Bryan traveled as a private citizen he went with the prestige of having made two memorable contests for the Presidency of the United States, and he was everywhere recognized and entertained as a great representative American, having a leading part in the direction of American affairs. He was given opportunity for observations never before accorded to any one traveling in private capacity.

If one wants to see the world, and the people who are at the head of affairs in all countries, as well as the masses, he has in this book an opportunity of seeing them through the eyes of Col. William Jennings Bryan. It is sold by subscription, and the Thompson Publishing Company of St. Louis, Mo., are the fortunate publishers. They offer an especially inviting opportunity to solicitors in another column of this issue.
