One of my neighbors insisted upon me trying Chamberlain's Salve and gave me a half a box of it. To my surprise it healed my eyes and my sight came back to me.—P. C. Earles, Cynthia, Ky. Very prominent was the display of canned fruit and jellies—so tempting an array that many a housekeeper wished it belonged on her pantry shelves and the young girl who won the prize, really bought some.

One mother going unexpectedly into the kitchen found her children standing breathless around the stove and dropping the cherries, one by one, into the liquid. Those cherries must not be raised.

Then the pies! Did you ever know how large a piece it takes to test a good pie? The judges found it so hard to decide that more plate than pie was visible when they had finished and they had to be put on an upper shelf to make a respectable showing.

The bread was a delight, nicely browned, sweet and light, the girls had done their very best. And the cakes! Large and small, white, brown and pink, plain cake or angel cake, and not one poor one among them.

The flower tables were gay with dahlias, asters, pansies and sweet peas, a pretty display of richly blossoming plants.

All one end and side of the room were filled with immense melons, beets, carrots, corn, apples and other fruits and vegetables. An eager faced little fellow of 6 was noticed critically examining the potatoes with an eye to future crops. He had come in from a distance with his nine potatoes of various sizes, the product of his own labors. The child's face was a study. He was working not so much for the prize but to produce just as good potatoes as the other fellows, if not this year, then the next.

Who can estimate the results of such a fair? It helps to bring up the boys and girls to be the right kind of farmers and housewives, the best kind of men and women. All the year the children have worked to make their fair a success. Superintendent Seymour and his able assistants will feel amply repaid for the hard work that such an undertaking means.

The school children—four hundred strong—headed by the Popcorn band marched to the hall and took possession, while their elders stood back and watched the boys and girls earnestly discussing their vital matters and planning with their neighbors for their next year's crops. It looks well for the future of Polk county, when its little citizens spend their time in such useful ways.

Prof. Cole, of the Oregon Agricultural college, gave a very helpful talk. Ex-Superintendent Starr, now secretary of the normal board of regents, told of the general progress in the quality of the display, its arrangement and the general enthusiasm of the community.

The chief address of the evening was given by State Superintendent Ackerman, who was eagerly heard by boys and girls as well as their elders. He spoke, among other things, of the splendid results that would come if there were a systematic course of instruction provided, by organizing into fifteen or sixteen districts and sending out specialists at stated intervals to give direct and personal help along all lines of agricultural interests.

BABY WASTED TO MERE SKELETON

In Torments a Year and a Half with Terrible Sores on Face and Body—Hands Tied to Stop Scratching and Tearing at Flesh—But

CURE BY CUTICURA COMPLETE AND SPEEDY

"My little son, when about a year and a half old began to have sores come out on his face. I had a physician treat him, but the sores grew worse. Then I called another physician. Still he grew worse. At the end of about a year and a half of suffering he grew so bad I had to tie his hands in cloth at night to keep him from scratching the sores and tearing the flesh. He got to be a mere skeleton, and was hardly able to walk. My aunt advised me to try Cuticura Soap and Ointment. So great was her faith in it that she gave me a small piece of Cuticura Soap to try and a little Cuticura Ointment. I took it home without any faith, but when I tried it, it and it seemed to dry up the sores a little. I sent to the drug store and got a box of Cuticura Soap and a box of Cuticura Ointment and followed the directions, and at the end of about two months the sores were all well. He has never had any more of any kind since. I can sincerely say that only for your most wonderful remedies my precious child would have died of these terrible sores. I used only one cake of Soap and about three boxes of Ointment. Edw. Sheldon, Jr., P. O. No. 1, Woodville, Conn., April 22, 1905."
